Douglas, Wyo.—(Official)—Bids will be received until 10 a.m., Apr. 20, by the County Commission for the construction of a $40,000 county courthouse. W. N. Bowman, 915 Central Savings Bank Bldg., Denver, Colo., is Arch. Noted Mar. 18.

Butte, Mont.—(Official)—(Correction)—The construction of the $250,000 depot on Montana St. for the Chicago, Milwaukee & St. Paul Ry. will not be started this year. C. F. Loweth is Ch. Engr. Noted Mar. 18.

✚Great Falls, Mont.—The contract for the construction of a Y. M. C. A. building has been awarded to the LANGE CONSTRUCTION CO., at $73,550. G. H. Shanley is Arch. Noted Oct. 8.

Chaffee, Mo.—Bids will soon be received by John Jacob Astor, Chaffee, for the construction of a five-story, 70x120-ft. hotel. Estimated cost, $100,000. J. W. Matz, 314 Nasby Bldg., Toledo, Ohio, is Arch.

St. Joseph, Mo.—The St. Joseph Amusement Co. contemplates the construction of a $100,000 theater. Carl Boller, 7 Gayety Theater Bldg., Kansas City, is Arch. C. V. Philley is interested.

Little Rock, Ark.—Bids will be received about Apr. 20 by Mann & Stern, Arch., for the construction of a two-story, 140x140-ft. club house for the Mutual Realty Co. The estimated cost is $45,000.

Pocatello, Idaho—Bids will soon be received by Sollio, Boyer & Rogers, Arch., for the construction of the Yellowstone Hotel. The estimated cost is $300,000. Noted Nov. 19.

Seattle, Wash.—Bids will be received about Apr. 5 for the construction of a two-story addition to the Lowell School at 12th and Federal Ave. Estimated cost, $60,000. Edgar Blair is School Arch.

Seattle, Wash.—Bids will be received about Apr. 15 by Edgar Blair, School Arch., for the construction of two 40x60-ft. wings to the B. F. Day School. The estimated cost is $55,00.

✚Sedro Woolley, Wash.—The contract for the construction of a two-story, reinforced-concrete library has been awarded to D. DALTON. Estimated cost, $50,000.

Portland, Ore.—The Failing Estate plans to rebuild its three-story building recently destroyed by fire with a loss of $60,000.

A Mysterious Land Purchase—A purchase of a tract of land, involving $1,000,000, and ostensibly for manufacturing purposes, has been made at Orangeburg, N. Y., a small manufacturing town on the West Shore R.R., 21 miles from New York. A. A. McCrary, who in past years has acted as agent in purchasing sites for various large corporations, has been employed for the past two years in securing properties in this town and vicinity. The land already taken over has deep water facilities at the Hudson, frontage on the West Shore R.R., Erie R.R. and Northern Railroad of New Jersey. Speculation has been rife as to the purpose of this purchase but the operations have been of the most secret nature. McCrary has not committed himself further than stating that one of the largest industrial plants in this country will be located there, and that within two years 6000 men will be employed. It has been rumored that the Bethlehem Steel Corporation had made the purchase for the treatment of its Chilean and Cuban Ores. Charles M. Schwab, president of that company, however, denies any knowledge of the under taking. Another theory set forth was that such a spot was ideally situated for a plant to treat the Adirondack ores. But all corporations which might be interested in this plant have flatly denied any such intention. It has also been suggested that the Standard Oil Co. might be considering the establishment of a refinery at that point, a pipe line passes the site of the New York Transit Co. Over $1,000,000 has been paid out for this land which intrinsically is not worth one-quarter of that amount and it would seem that the chief motives were the railway facilities together with deep water frontage.

An Enormous Aëroplane Order—It is estimated that an order for aëroplanes for war purposes, placed by the Italian Government with the Curtiss Aëroplane Co., Hammondsport, N. Y., will amount to several million dollars. The specifications call for aëroplanes of 100 hp. with both pontoons for sea services and with wheels for land work. The aëroplanes will be so constructed that bomb-dropping devices and a gun may be attached. Each aëroplane is capable of sustaining a load 400 lb. The cost of each is $7500. Cap. Carlos Pfister of the Italian Navy, 161 Madison Ave., New York, N. Y., is representative of the Italian Government in connection with the work.

The C. H. & E. Mfg. Co., Milwaukee, Wis., manufacturer of contractors' supplies, announces that in March it will occupy its new factory. This is a two-story building of mill-construction, with 36,000 sq.ft. of floor space.

RUSSIA

Improving Russian Railways—The narrow-gage lines of Russia have, in many places, outlived their usefulness. The "London Times" tells of changing conditions in a recent issue as follows:

"The existing railway between Vologda and Archangel has very small transport capacity owing to its narrow gage. When increased traffic began on the Vologda-Archangel line it was necessary to take a certain number of cars from the narrow-gage Ryazan Ry., but these proved insufficient, and now, to increase the rolling stock, 30 locomotives of the Mallet type and 500 cars have been ordered for the narrow gage.

"At the present work has begun on the construction of a broad-gage railway almost parallel to the existing narrow-gage line from Vologda to Niandoma, a length of 300 versts (199 miles). Niandoma is situated half way between Vologda and Archangel. At the end of July (old style), 1915, the new Vologda-Niandoma Ry. will be finished and regular traffic will be opened on it, when it will be possible to concentrate on the Niandoma-Archangel section all the rolling stock that is now working on the narrow-gage Vologda-Archangel line, which will double the transport capacity of the road. There is ample rolling stock for the new broad-gage Vologda-Niandoma Ry.

"The topographical conditions in the railway zone are not favorable, there are many swamps, and it is estimated that the construction of the railway, with bridges and station buildings, will amount to $6,180,000, at the rate of $31,076 per mile. The work is being carried on with great energy, notwithstanding the winter, 30 engineers and a proportionate number of laborers being engaged. It is proposed to build all the bridges in the winter and complete excavation work where the dry, unfrozen ground permits.

"By agreement between the Ministers of Ways of Communication and of Finances it has been decided to construct a railway from Petrozavodsk to the town of Kem, an ice-free port situated on the shore of Onezh Bay, a distance of 380 versts (252 miles). The sum of $41,200 has been appropriated for the survey, which will be carried out rapidly, in order that the work of construction may begin during the current winter.

"Both the survey and construction will be superintended by the former head of the Warsaw-Vienna Ry., Engineer Pauker, now Chief of the Railway Construction Bureau. It is anticipated that it will be possible to run the first train in the winter of 1915. The cost of construction is estimated at $10,815,000. Later it is proposed to extend the line to the Murman coast.

"The task of surveying and building this new line is complicated by the unexplored nature of the locality through which it will have to pass. Furthermore, the fact that the survey is to be made in winter gives rise to fears lest the results should not correspond to the actual situation. Nevertheless, considering the great importance of the road—it will form an outlet for Russian trade independent of war conditions—it has been decided to construct it as far as possible without delay."

The Sandusky Portland Cement Co. announces that Henry C. Morrison is Western Representative of the company with offices at 710 Railway Exchange Bldg., St. Louis. He will be glad to take up problems of waterproofing with any one interested, having devoted the last four years to successful waterproofing for some of the large structures in the United States and Canada.

The Stark Rolling Mill Co., Canton, Ohio, announces the appointment of the Dearborn Steel & Iron Co. as its selling agent in Chicago. The latter company was formed by H. C. Perrine and E. L. Lyon and the office will be in the Peoples Gas Bldg., Chicago.

PAVING, PUEBLO, COLO.

✚Bids were received Feb. 15 by the City Council for the improvement of the "Mineral Palace Paving District." Bids were submitted on both a bond and a cash basis, but the accompanying table gives the price for cash. The bidders were: (A) R. P. McDonald Construction Co., Denver; (B) J. A. Laughlin, Trinidad; (C) Campbell Construction Co., Pueblo; (D) Two Miracle Construction Co., Great Falls, Mont.; (E) Gaffy & Keefe, Construction Co., Denver; (F) Denver & Pueblo Construction Co., Pueblo; (G) R. Clough & Son, Colorado Springs; (H) ANDERSON-HAMMEL CONSTRUCTION CO., Pueblo (awarded contract); (I) Gordon & Taylor Construction Co., Pueblo; (J) P. C. Croll, Pueblo; (K) Mishou & Millard, Pueblo; (L) Engineer's Estimate. The item bids were as follows:

SOUTH AMERICA

Construction Machinery in South America—V. L. Havens commercial attaché at Santiago, writes as follows:

In general construction work in Chile, such as ditching, building of dikes and levees, and railway cutting, the material is generally moved by hand, and it seems that there should in time be market for American grading machinery, such as slips, wheelers, road graders, elevating graders, and the dump wagons that ordinarily go with them.

In discussing the possibilities with some of the local houses, the opinion was expressed that there would be a chance to sell American machinery only if there was an American contractor here to buy it. It is not unlikely that they could assist the contractor in finding work to do. Any man who took up the work would have to be personally familiar with the machines in detail and of such experience that he could instruct men in their use, care, and repair. Inasmuch as such machinery occupies considerable space when set up, it would have to be sent in a knocked-down condition and packed in such a way as to permit handling by lighters in a rough sea. The horses in Chile are very good and would be all right for use with the machines, but men who are competent to drive 10 and 14 horse teams are not very numerous. It might be necessary to import a very limited number of skillful drivers from the south or southwest part of the United States who speak Spanish and are familiar with the machines. Men to handle slips and wheelers could be found locally. The import duties are rather high, and it might be found desirable to ship merely the iron parts of the wagons and make the wooden parts locally from the very good native oak. Local shops exist where ordinary repairs to railway construction plants could be made.

Inasmuch as South America is a country of great distances, very much as North America, and as the west coast is very much like the North American coast, except that the timber and heavy rainfall is in the southwest and light rainfall and irrigation country in the northwest, the future development of South America in railway and irrigation is apt to be very similar to that of the western part of the United States.

This is not meant to convey the idea that there is any immediate business or great prizes to be obtained in this field in South America with a small effort. Anything that is accomplished will be accomplished through deep study and hard work, and returns will not be very rapid, owing to the unusually small supply of funds for financing new enterprises at the present time. But the future of the business, I am sure, is important and worthy of consideration, and those who ultimately desire to enter this field should begin their studies and preparations very soon. There is even time for much to be done by correspondence at present, when such a slow process could not be followed in busy times.

The Northern Chemical Engineering Laboratories announce the shorter name of "C. F. Burgess Laboratories." The new name implies no change in management or ownership. C. F. Burgess will continue as President, with offices at Madison, Wis.

The Burd High Compression Ring Co. has moved its offices from the Masonic Temple to 307 South Main St., Rockford, Ill.

The McComba Engineering Co., Cameron, Tex., would like to receive catalogs and quotations on automatic devices for discharging sewage from the dosing chamber to the filter beds in disposal plant.

The Wyckoff Pipe & Creosoting Co., Inc., has removed its offices from 50 Church St. to the Forty-Second St. Bldg., 30 East 40th St., New York, N. Y.

The Federal Bridge Co., Waukesha, Wis., is the new name of the Modern Steel Structural Co., which has been in business for several years. C. J. McIntosh is Pres. and G. A. Haynes is Ch. Engr.

To Build "Rocmac" Roads—The Philadelphia Quartz Co., 121 South Third St., Philadelphia, has undertaken the construction of broken-stone roads with "Rocmac" binder. This is a proprietary compound composed of "silicate of soda, sugar, powdered limestone and other ingredients," the exact preparation of which is kept a trade secret. The materials used in construction are "Rocmac" binder, limestone dust and crushed stone. There are two processes of construction, by mixing the binder with the aggregates, or by applying the binder as a penetration coating. The "Rocmac" matrix or mortar used in the penetration method is defined as a special solution thoroughly mixed with limestone dust in the proportion of 36 gal. of solution to 1 cu.yd., enough water being added to give the matrix a consistency to work uniformly. For the mixing method the same matrix is used in the same proportions. In rolling the surface is slightly sprinkled to facilitate the puddling of the matrix. The foundation and stone aggregates are the same as specified for all broken stone road surfaces, except that a hard tough limestone seems to be preferred. The quantity of stone in the usual proportions is given as 2½ parts of 2-in. stone to 1 part of limestone screenings.

ASHBY RESERVOIR, FITCHBURG, MASS.

✚Bids were received Mar. 2 by the Water Commissioners, Fitchburg, Mass., for the construction of the Ashbey Reservoir from: (A) E. W. FOLEY CONTRACTING CO., Erie, Penn. (awarded contract); (B) International Construction Co., Boston; (C) Hassam Paving Co., Worcester; (D) De Onfro Bros., Leominster; (E) P. Perini, Ashland; (F) Barrally & Ingersoll, Rochester, N. Y.; (G) Joseph Long & Co., Leominster; (H) Russo & Parker Construction Co., Hudson, N. Y.; (I) R. F. Hudson, Melrose; (J) Doolittle & Garland, Kent, Ohio; (K) Coleman Bros., Boston; (L) Bruno & Petitti, Boston; (M) F. B. Beasman & Co., Baltimore, Md.; (N) F. A. Gammino, Providence, R. I.; (O) Cenedella & Co., Milford; (P) R. H. Newell Co. and N. S. Brock, Uxbridge; (Q) C. W. Blakeslee & Sons, New Haven, Conn.; (R) H. P. Cummings Construction Co., Ware; (S) Fraser, Brace & Co., New York, N. Y.; (T) John Marsh, Southbridge. The item bids were as follows:

AN INCREASE IN PROPOSED BUILDING

Returns from building inspectors in 21 cities of the Eastern States show an increase in the contemplated building operations in March of this year compared with the same month last year. While the gain is small the progressive improvement which has continued since the first of the year is highly satisfactory. In the same cities the three months building operations show a gain of $7,000,000.

The Central States show a falling off of $3,000,000 in March but this is less than the proportionate loss of the first three months, which was 15%. In the South the effect of low priced cotton is evident but in the Western States an improvement compared with last month is apparent.

RAILWAYS

✚**Virginia**—Norfolk & Western Ry.—PATTERSON, MORAN & CO., New York, N. Y., has been awarded the contract by this company for constructing a railway from Burkeville to Pamplin, Va., about 36 miles.

West Virginia—Western Maryland R.R.—Surveys have been completed and work will soon be started by this company for the extension of its line from Belington to Fairmont, W. Va.

✚**West Virginia**—Williamsport, Nessle & Martinsburg R.R. This company has awarded the contract for part of its proposed extension from the Potomac River to Martinsburg, to CLAIBORNE, JOHNSTON & CO., Garrett Bldg., Baltimore, Md.

North Carolina—Catawba Falls Ry.—According to press reports this company plans to construct a narrow-gage railway to connect Old Fort and Catawba Falls with the timber lands, a distance of about 6½ miles.

South Carolina—Savannah, Piedmont & Western Ry.—This company has been incorporated to construct a railway from Augusta to Greenwood, S. C., about 60 miles. J. Peyton Clark, Engr., 43 Cedar St., New York, N. Y., is interested.

Florida—Dowling-Shands Lumber Co.—This company is having surveys made for the extension of its line from Green Cove Springs to Starke, Fla., about eight miles. J. E. Brock, Green Cove Springs, is Engr.

Florida—Export Phosphate Ry. & Terminal Co.—Surveys are being made by this company for the construction of its proposed railway from Tampa, Fla., into Polk County. H. L. Pierce, Tampa, is Pres.

Alabama—Henderson-Waits Lumber Co.—Plans are being prepared by this company, according to press reports, for the construction of a railway from Tuscaloosa to its timber lands in Tuscaloosa County, Ala., about 15 miles.

Kentucky—Southern Ry.—Plans are being considered by this company for the extension of its line from Corydon to Palmyra, about seven miles.

Indiana—New York Central R.R.—Plans are being made by this company for the construction of extensive railroad yards at Miller, Ind. These yards will have accommodations for 35,000 cars.

Wisconsin—Hillsboro & Northeastern R.R.—This company has applied to the State Railroad Commission for permission to construct an extension from Hillsboro to Richland Center, Wis., about 28 miles. W. H. Cash, Lisbon, Wis., is Pres.

✚**California**—Minkler Southern Ry.—This company, a subsidiary of the Atchison, Topeka & Santa Fé system, has awarded a contract to the J. J. SMITH CONTRACTING CO., Kansas City, Mo., for the extension of its line from Exeter to Lindsay, about seven miles.

Canada—A resolution has been introduced into the Legislature authorizing the Minister of Railways to construct, lease or acquire any railway or railway work in Quebec, New Brunswick, Nova Scotia and Prince Edward Island, not over 200 miles long, to form part of the government railway system.

New Brunswick—L. Connors, Blacks Harbour, N. B., and H. J. Taylor are interested in the construction of a railway from Pennfield to Beaver Harbor, L'Etang and Blacks Harbour, about eight miles.

✚**Alberta**—Bassons-Coronation Ry.—According to press reports this company has awarded the contract to GRANT, SMITH & McDONNELL, for the construction of its proposed 110-mile railway from Calgary, Alta.

ELECTRIC RAILWAYS

Pawtucket, R. I.—The Pawtucket St. Ry. Co. has applied for a franchise to lay rails on Broad St. over the abandoned roadbed of the New Haven R.R. and relocate its line on Dexter and Barton St. H. W. Sanborn, Providence, is Ch. Engr.

Ayer, Mass.—The Lowell & Fitchburg St. Ry. Co. contemplates the extension of its line on Main St. to connect with the Shirley-Ayer line of the Fitchburg & Leominster St. Ry. L. H. Cushing, Ayer, is Gen. Supt. and Pur. Agt.

Camden, N. J.—The Public Service Ry. Co. has been granted permission to construct an electric railway from Camden to Haddon Heights. R. E. Danforth, Newark, is Gen. Mgr.

Orange, N. J.—The Board of Public Utility Commissioners has granted permission to the Public Service Ry. Co. to extend its lines on Broad, Parkhurst and Scotland St. R. E. Danforth, Newark, is Gen. Mgr.

Waynesburg, Penn.—The Waynesburg & Blacksville St. Ry. Co. plans to start work soon on the completion of its electric railway from Waynesburg, Penn., to Blacksville, W. Va.

Baltimore, Md.—Plans are being considered by the United Rys. & Electric Co. for the extension of its line on Columbia Ave. to Lansdowne. Mason D. Pratt, Baltimore, is Ch. Engr.

Petersburg, Va.—The Petersburg & Appomattox Ry. Co. is making surveys for the construction of its proposed electric railway from Petersburg to City Point. T. M. Wortham, Petersburg, is Pres.

Glennville, Ga.—The East Georgia Ry. Co. has been incorporated to construct an electric railway from Glennville to Adabelle with a branch line from Hagan to Claxton. The incorporators are Henry P. Talmadge, William B. Stillwell, J. K. McIver and J. F. Minis, all of Savannah.

Louisville, Ky.—The Board of Public Works has granted a franchise to the Louisville Ry. Co. to extend its line on West Chestnut St. to Shawnee Park. W. H. McClure, Louisville, is Pur. Agt.

Cleveland, Ohio—The Cleveland Electric Ry. Co. contemplates the construction of an extension to its Payne Ave. line. George L. Radcliffe, Cleveland, is Gen. Mgr.

Ft. Wayne, Ind.—The Ft. Wayne & Northern Indiana Traction Co. is making preliminary arrangements for the extension of its Lewis Street line to the eastern city limits. Samuel W. Greenland is Gen. Mgr. and Pur. Agt.

Galena, Ill.—Surveys will soon be started for the construction of an electric railway from Galena to Freeport. F. J. Meller is Secy. of the Galena Commercial Club.

Kankakee, Ill.—The Kankakee & Urbana Traction Co. is preparing plans for the extension of its line in a northerly direction from Kankakee. William J. Laffell, Urbana, is Gen. Mgr. and Pur. Agt.

Kewanee, Ill.—The Kewanee & Eastern Electric Ry. Co. is making surveys and securing the right-of-way for its proposed electric railway in Kewanee. C. G. Lampman is interested.

Faribault, Minn.—The Southern Minnesota Traction Co. will soon start work on the construction of its proposed electric railway from Faribault to Waseca. H. C. Theopold, Faribault, is interested.

Minneapolis, Minn.—Plans are being prepared by the Electric Short Line R.R. Co. for the extension of its line from Minneapolis to Faribault and Shakopee. John Westerdahl, Minneapolis, is Ch. Engr.

Minneapolis, Minn.—Frederick W. Cappelen, City Engr., has announced that the project to construct a municipal electric railway has been abandoned for the present.

+Bonner Springs, Kan.—The Kansas City Kaw Valley & Western Ry. Co. has awarded a contract to S. DOLMAN SONS, Topeka, for grading the roadbed for its proposed electric railway from Bonner Springs to Lawrence, about 20 miles.

Oklahoma City, Okla.—According to press reports, the Oklahoma City Interurban Ry. Co. will extend its line from Oklahoma City to Edmund.

Fresno, Calif.—The Fresno Interurban Ry. Co. is preparing plans for the extension of its line to Las Palmas and Clovis.

Riverside, Calif.—The City Council has granted a franchise to the Pacific Electric Ry. Co. to construct an electric railway on Market St. from Magnolia Ave. to connect with the Riverside, Rialto & Pacific Ry. in Riverside. J. McMillan. Los Angeles, is Gen. Mgr.

Vallejo, Calif.—The Vallejo-Benicia Electric Co. announces that the proposition to construct an electric railway from Vallejo to Benicia has been abandoned on account of financial conditions. J. J. Henry is Pres.

Moncton, N. B.—Plans are being considered by the Moncton Tramways, Electric & Gas Co., Ltd., for the extension of its electric railway from Moncton to Fox Creek about four miles. A. A. Armstrong, Farmers Bank Bldg., Pittsburgh, Penn., is Gen. Pur. Agt.

LIGHT, HEAT AND POWER

Reading, Mass.—It is reported that the town has appropriated $4000 for extending and improving the municipal electric-light plant. Arthur G. Sias, 179 Main St., is Mgr. and Supt.

Windsor Locks, Conn.—The Northern Connecticut Light & Power Co. has applied for permission to increase its capital stock from $500,000 to $1,000,000, the proceeds of which will be used for extensions and improvements.

Buffalo, N. Y.—The Shoellkopf, Hartford & Hanna Co., manufacturer of aniline dyes and colors, will build a 45x67-ft. extension to the engine room of its plant at Abbott Rd. and the Buffalo Creek R.R.

La Fargeville, N. Y.—The Village Board has granted a franchise to the Hydro-Electric Power Co., Theresa, N. Y., to extend its transmission lines to supply electrical service to the village. F. L. Santway, Theresa, is Pres. and Mgr.

New York, N. Y.—(Borough of Bronx)—(Official)—Bids will be received until 11 a.m., Apr. 12, by C. B. J. Snyder, Supt. of School Bldgs., Park Ave. and 59th St., Borough of Manhattan, for installing heating and ventilating apparatus and temperature regulation in addition to Public School 12, Frisby Ave., between Benson Ave. and Overing St., Borough of Bronx.

+New York, N. Y.—(Borough of Bronx)—(Official)—Bids were received Apr. 5 by C. B. J. Snyder, Supt. of School Bldgs., for installing heating and ventilating apparatus in new Public School 55, St. Paul's Pl., between Park and Washington Ave., Borough of Bronx, from: William J. Olvany, $71,630; Wells & Newton, $67,797; Blake & Williams, $68,846; Raisler Heating Co., $75,576; LESLIE & TRACY, INC., 220 West 42d St., New York, $65,670 (awarded contract); James Curran Mfg. Co., $67,580; E. Rutzler Co., $72,247; D. J. Rice, $68,953. The only bid for installing temperature regulation in new Public School 55 was that of the Johnson Service Co., $4498. Noted Apr. 1.

New York, N. Y.—(Borough of Manhattan)—(Official)—Bids will be received until 10:30 a.m., Apr. 22, by the Board of Health of the Department of Health, Centre and Walker St., Borough of Manhattan, for the plumbing and gas fitting and steam heating for a medical staff house and nurses' home on the grounds of the Willard Parker Hospital, foot of East 16th St., Borough of Manhattan. S. S. Goldwater, M. D., is Pres. Bd. of Health.

+New York, N. Y.—(Borough of Manhattan)—Bids were received Apr. 2 by the Board of Trustees, Bellevue and Allied Hospitals, for lighting fixtures in Pavilions "I" and "K" of the new Bellevue Hospital from: INTERNATIONAL GAS & FIXTURE CO., 176 Grand St., New York, $6823 (awarded contract); E. Schroeder Lamp Works, $7948; Wahle Phillips, $8399; Roeser Summer Co., $6873; F. Niebling, $9133. Noted Mar. 25.

Riverhead, N. Y.—The Riverhead Electric Light Co. is building a brick power house, in which will be installed a 140-kw. two-phase 2300-volt generating unit, directly connected. F. Carl Hallett is Mgr. and Supt.

Troy, N. Y.—The Troy Gas Co. has purchased the property of the Kemp & Carr Chain Works on Smith Ave., Troy. The ground measures 240x300 ft., and the gas company plans to build a gas holder with a capacity of 2,000,000 cu.ft. The estimated cost is $100,000.

Utica, N. Y.—It is reported that Yonge & Ames, Arch., is receiving bids for the construction of a brick and tile 31x70-ft. boiler house for St. Luke's Hospital.

Park Ridge, N. J.—It is reported that the Board of Light Commissioners will soon purchase, for the municipal electric-light plant, one gas or oil engine, and a friction-driven pulley for running the alternator from two different prime movers; also some wiring supplies and small apparatus. E. Vernon Smith is Supt. of the plant.

Roosevelt, N. J.—It is reported that the Public Service Electric Co. is having plans prepared for an addition to its substation at Roosevelt.

Erie, Penn.—The Erie Lighting Co. is building a 33,000-volt, three-phase, 60-cycle transmission line from Erie to Corry, to supply electricity to Waterford, Union City, Corry and vicinity. A substation will be built in each of these towns. Fred B. Hofft, Erie, is Vice-Pres. and Mgr. of the Erie Lighting Co.

Hillsdale, Penn.—It is reported that the Pittsburgh Coal Co., Pittsburgh, is having plans prepared for a two-story power house to be built at Hillsdale.

Spencer, N. C.—The city is preparing to install a municipal electric-lighting system. Energy for operating the plant will be secured from the Southern Power Co., Charlotte.

Shelbyville, Tenn.—The plant of the Duck River Power Co. at Shelbyville was recently damaged by fire at a loss of about $15,000. The property was lately purchased by the Tennessee Ry., Light & Power Co., Chattanooga. Noted Feb. 18.

Trimble, Tenn.—It is reported that the establishment of a municipal electric-light plant at Trimble is under consideration. J. W. Dulin is interested.

Cleveland, Ohio—Bids will be received until noon, Apr. 9, by the Commissioner of Purchases and Supplies, 511 City Hall, for switchboard apparatus and electrically operated high tension oil switches for substation for the municipal electric-light department. F. W. Ballard, 1443 East Third St., is Comr. of Light Dept. Thomas L. Sidlo is Dir. of Pub. Ser.

Newark, Ohio—Press reports state that the Ohio Light & Power Co., will begin construction work about Apr. 15 on a high-tension power line between Newark and Thornville, to supply electrical service to the latter village and intermediate points along the right-of-way. The estimated cost of the line is $150,000. H. L. Montgomery, Newark, is Gen. Mgr. of the Ohio Light & Power Co.

St. Marys, Ohio—It is reported that the Village Council has decided to sell the municipal electric-light plant. V. W. Buehler is Supt. of the plant.

Jeffersonville, Ind.—(Official)—Bids will be received until 4 p.m., May 1, by John J. Snyder, City Clk., for lighting the streets and public places of the City of Jeffersonville.

Vincennes, Ind.—The City Electric Lighting Co., controlled by W. S. Barstow & Co., Inc., New York, N. Y., will purchase two 72x18-in. tubular boilers, a breeching stack, 48 in. by 90 ft., and 60 ornamental lamp-posts for five-lamp clusters. Some alterations will also be made in the boiler-room. Felix L. Cadou, Vincennes, is Mgr.

Alton, Ill.—Press reports state that the State Board of Administration will shortly award contracts for the construction of a new power house at the Alton Hospital.

Larchwood, Iowa—Bids will be received until Apr. 21 by W. F. Ashton, Town Clk., for the construction of an electric-light plant. The work includes a concrete block building, oil engine, generator, storage battery, switchboard and a distribution system. Earle D. Jackson, Capitol Bank Bldg., St. Paul, Minn., is Engr. Noted Nov. 12 and Feb. 11.

Lorimor, Iowa—J. F. Smith, who recently secured a franchise from the town, is installing an electric-light and power plant.

Marshalltown, Iowa—It is reported that the Iowa Ry. & Light Co. has appropriated $25,000 for improving and extending its system in Marshalltown. Charles Munson is local Mgr. Noted May 14, 1914.

South Sioux City, Neb.—Bids will be received until noon, Apr. 10, by O. Stamm, City Clk., for the construction of an electric-light plant.

Chouteau, Mont.—The Montana Power Co., Butte, has taken over the electric-light plant of Chouteau, and will operate it as one of its properties. As soon as weather conditions permit, a transmission line will be built from the branch in Sun River Cañon. The line will be 12 miles long. F. M. Kerr, Butte, is Gen. Supt. of the Montana Power Co.

Floresville, Tex.—The City Council has granted a franchise to B. J. Carrico and associates, Ft. Worth, to install and operate an electric-light plant at Floresville. The company will be known as the Floresville Light & Power Co., and will at once equip a plant at an estimated cost of $13,000.

Haskell, Tex.—The Haskell Light & Ice Co. has been organized with a capital stock of $20,000 for the purpose of constructing and operating an electric-light plant and ice factory. Morgan Jones is interested.

Maypearl, Tex.—It is reported that the Texas Power & Light Co., Dallas, is considering the installation of an electric-light plant in Maypearl. A transmission line will be built from the plant at Dallas. F. R. Slater, Dallas, is Gen. Supt. of the Texas Power & Light Co.

Spiro, Okla.—At a recent election, the citizens of Spiro voted in favor of issuing $10,000 in bonds to establish a natural gas system in Spiro. The system will form a unit of the pipe line to be built from the Le Flore County gas fields to Ft. Smith, Ark., where the operators have a contract to furnish gas to the Ft. Smith Light & Traction Co.

Wales, Utah—The Big Springs Electric Co., Fountain Green, Utah, has applied to the Town Council for a franchise to equip and operate an electric-light plant in Wales. John A. Holman, Fountain Green, is Pres. of the Big Springs Electric Co.

Prescott, Ariz.—The Arizona Power Co. has received permission from the Arizona Corporation Commission to sell $250,000 in stock, the proceeds of which will be used for the construction of a 1750-hp. power plant and 20,000 ft. of flume. Work will be begun in April, and completed in 12 months. M. V. Watson is Mgr. of the Arizona Power Co.

Long Beach, Calif.—The Long Beach Consolidated Gas Co. has applied to the State Railroad Commission for permission to issue $100,000 in bonds, of which the proceeds of $80,000 will be used to extend the mains and lines, and $20,000 for improvements to the plant.

✚Pasadena, Calif.—A contract for the construction of a conduit system for carrying electric wires in Terrace and Elevado Drives has been awarded to W. A. McNALLY & CO., 199 East Colorado St., Pasadena, at $7890. The same company, at $14,876, was low bidder for a conduit system in El Molino and Elliott Ave., Alpine and Pinehurst St.

Shelburne, Ont.—It is reported that bids will be asked by the City Council in about a month for constructing a transmission line from Eugenia Falls to Shelburne, and for building a substation. Material will be purchased by the Council.

Revelstoke, B. C.—Bids will be received at once by the City Council for the construction of a power house, and the installation of motors which have already been purchased. The estimated cost of the work is $40,000. Charles R. North is Engr.

BRIDGES

Waterbury, Conn.—It is reported that the City Engineer has been instructed to advertise for bids for the construction of a concrete bridge over the Naugatuck River as soon as the plans are completed. The estimated cost is $80,000. R. A. Cairns is City Engr. Noted Jan. 21.

✚Elma, N. Y.—(Official)—The Town Council has awarded the contract for the construction of a reinforced-concrete arch over Buffalo Creek to KELLY & WHEELER, 150 Park View Ave., Buffalo, at $6350. Noted Mar. 18.

Niagara Falls, N. Y.—The City Engineer has been instructed to prepare plans for repairing the bridge over the hydraulic canal in Second St. It was originally planned to build a new bridge at this point, but since the abolition of the Second St. grade crossing is contemplated, it was deemed advisible to repair the present bridge at this time. F. S. Parkhurst is City Engr.

Oswego, N. Y.—(Official)—At an election held Mar. 30, the citizens of the towns of Oswego and Volney voted in favor of a bond issue for the purpose of building a bridge over the Oswego River at Minetto, N. Y. Plans for the bridge are being prepared by the Concrete-Steel Engineering Co., Park Row Bldg., New York, N. Y. It is expected to begin work in the early summer. Noted Dec. 24.

Hightstown, N. J.—(Official)—Bids will be received until 2:30 p.m., Apr. 13, by the Board of Chosen Freeholders of Mercer County, Court House, Trenton, for repairing the stone arch across Rocky Brook at Main St., Hightstown. John J. Power is Dir. Bd. of Chosen Freeholders. Noted Mar. 25.

✚Newark, N. J.—A joint committee of the Boards of Chosen Freeholders of Hudson and Essex Counties has awarded the contract for rebuilding the fenders of the Jackson St. Bridge between Jackson St., Newark, and Fourth St., Harrison, to the STILLMAN-DELAHANTY & FERRIS CO., 1 Exchange Pl., Jersey City. Noted Mar. 25.

BUILDING RETURNS

In addition to the figures published last week, relative to building construction, five additional reports have been received from the Pacific Coast. The comparison with last year is much more unfavorable than conditions warrant, for last year the coast cities were building in anticipation of the exposition.

RAILWAYS

West Virginia—Baltimore & Ohio R.R. Co.—It is reported that this company contemplates the extension of its line into the Farmington section west of Fairmont, where the Consolidated Coal Co. will open new mines. F. L. Stuart, Baltimore, Md., is Ch. Engr.

West Virginia—Chesapeake & Ohio Ry.—This company contemplates the construction of a branch line from Beckley up Pine Creek to the coal fields. F. I. Cabell, Richmond, Va., is Ch. Engr.

West Virginia—Norfolk & Western Ry.—Arrangements are being made by this company to start work soon on the construction of a branch line from Williamson to the mines at Leckie. J. E. Crawford, Roanoke, Va., is Ch. Engr.

Alabama—St. Louis & San Francisco R.R.—Plans are being prepared by this company for an expenditure of $50,000 for the improvement of its lines from Birmingham, Ala., to Memphis, Tenn. F. G. Jonah, St. Louis, Mo., is Ch. Engr.

Kentucky—Baltimore & Ohio R.R Co.—This company is securing the right-of-way for the construction of its proposed 25-mile railway up Beaver Creek in Floyd County. F. L. Stuart, Baltimore, Md., is Ch. Engr.

Kentucky—Barbourville-Manchester R.R.—The citizens of Clay County have raised a bonus of $100,000 to aid this company in the construction of its proposed railway from Barbourville to the coal fields in Clay County.

Ohio—Chesapeake & Ohio Ry.—This company has received bids and will soon award the contract for the construction of an extension to its line to connect with the Norfolk & Western Ry. near Waverly, Ohio. F. I. Cabell, Richmond, Va., is Ch. Engr.

Oklahoma—Atchison, Topeka & Sante Fe Ry.—According to press reports surveys are being made by this company for the construction of a railway to connect Cushing, Tulsa and Drumright. F. M. Bisbee, Amarillo, Tex., is Ch. Engr. Western Lines.

Idaho—Lewiston, Nezperce & Eastern Ry.—This company has been incorporated to construct a railway from Lewiston to Nezperce, Idaho. A number of branch lines will also be built. Z. A. Johnson, Lewiston, is one of the incorporators.

Washington—Northern Pacific Ry.—Plans are being prepared by this company for the extension of its line from Toppenish, Wash., to the new town of Saluskin. A. R. Cook, Tacoma, Wash., is Prin. Asst. Engr.

Washington—Tacoma Eastern R.R.—According to press reports this company contemplates the construction of a railway from Morton, Wash., to connect with the line of the Onalaska Lumber Co. E. O. Reeder, Seattle, Wash., is Ch. Engr.

Alberta—Brule, Grand Prairie & Peace River R.R.—This company has applied for a charter to construct a railway from Brule Lake north to Grand Prairie, thence to a junction with the Pacific Great Eastern in the Peace River section; also to build a branch from Grand Prairie crossing the Peace River near Dunvegan, to a junction with the projected Pacific, Peace River & Athabasca at the Montagneuse River. The incorporators include D. R. McDonald, Alexandria, Ont.; C. L. Hervey, Montreal, Que.; T. A. Burgess, R. H. Pringle and L. Cote, Ottawa, Ont.

ELECTRIC RAILWAYS

Boston, Mass.—The Bay State St. Ry. Co. contemplates the extension of the Highland Circuit line over what is known as the Highland loop. R. S. Goff, Boston, is Vice-Pres. and Gen. Mgr.

New Britain, Conn.—Preliminary arrangements are being made by the Connecticut Co. for the extension of its lines in the northwestern section of the city. F. L. Beardsley, New Britain, is Supt.

Willimantic, Conn.—The Willimantic & Manchester St. Ry. Co. has been incorporated to construct an electric railway south of the tracks of the Central Vermont R.R. where connection may be made with the tracks of the Connecticut Co., thence through Pleasant St. and connecting streets to Columbia, thence extending through to the towns of Andover, Coventry, Bolton, and Manchester to a point in Manchester near Manchester Green where connections can be made with the tracks of the Connecticut Co. Among those interested are T. J. Spellacy and Joseph I. Kopelman, Hartford, and Edward M. Yeomans, Andover.

Buffalo, N. Y.—The City Council has granted a franchise to the International Ry. Co. to double-track its line on Ferry St. from Hampshire to Niagara St. J. C. Sheldon, Buffalo, is Pur. Agt.

Allentown, Penn.—The Lehigh Valley Transit Co. contemplates the reconstruction of its tracks on various streets. W. W. Wysor is Ch. Engr.

Blue Ball, Penn.—According to press reports Jacob Hartz, Blue Ball, is interested in the construction of an electric railway to connect Blue Ball, Elverson, Churchtown and Phoenixville, about 15 miles.

Washington, D. C.—The Washington & Maryland Ry. Co. has applied to the Public Utilities Commission for permission to construct an electric railway on Kansas Ave. and other streets in Washington. Paul Sleman, Colorado Bldg., Washington, is Secy.

Worthington, W. Va.—The Monongahela Valley Traction Co. contemplates the construction of an extension from Worthington to Farmington. S. B. Miller, Fairmont, is Ch. Engr.

Miami, Fla.—The Ft. Myers, Marco Bay & Miami Ry. Co. is making surveys for the construction of its proposed interurban railway to connect Ft. Myers, Naples, Marco Bay and Miami, about 50 miles. W. B. Clay, Arcadia, is Engr.

Lorain, Ohio—The Lorain St. Ry. Co. has applied to the City Council for a franchise to extend its lines in Lorain. L. K. Burge, Sandusky, is Gen. Supt.

✚Sciotoville, Ohio—The contract for building the extension between Sciotoville and Ironton has been awarded by the Ohio Valley Traction Co., Portsmouth, Ohio, to O. S. HORD, Maysville, Ky., and A. KEITHLY, Huntington, W. Va.

Chesterton, Ind.—The Gary & Interurban Ry. Co. plans an extension from Chesterton to Porter. C. W. Chase is Secy.

Aurora, Ill.—The Aurora & Mendota Electric Ry. Co. has applied to the City Council for a franchise to construct an electric railway in Aurora. This is part of a proposed line to connect Bristol, Plano, Sandwich, Somonauk, Leland, Earlville, Mendota and Princeton. Noted Nov. 26, 1914.

Duluth, Minn.—An extension from Tenth to 16th St. is contemplated by the Duluth St. Ry. Co. J. Carson is Ch. Engr.

Hutchinson, Kan.—The Hutchinson Interurban Ry. Co. plans to build an extension on Ave. F. James E. Humbert is Gen. Mgr.

Kalispell, Mont.—The Flathead Development Co. has applied for a franchise to construct an electric railway in Kalispell.

Marfa, Tex.—The construction of an electric interurban railway from Marfa to Ft. Davis, about 18 miles, is contemplated by B. Q. Musgraves and associates of Fort Worth.

Spokane, Wash.—The Big. Bend Transit Electric Ry. Co. is preparing plans for the construction of an electric railway from Spokane along the Spokane River to its junction with the Columbia River.

Los Angeles, Calif.—The Pacific Electric Ry. Co. contemplates the extension of its line south of Los Angeles to Ingledale, Lawndale and Hawthorne Acres. J. McMillan, Los Angeles, is Gen. Mgr.

Redwood City, Calif.—The Council has approved the ordinance granting a sale and transfer to the Redwood City Harbor Co. of all the right-of-way, title and interest recently granted by the town to Edward F. Fitzpatrick for the construction of an electric railway. Noted Mar. 18.

Hamilton, Ont.—Plans are being considered by the Hamilton St. Ry. Co. for an extension in the southwestern section of Hamilton, and the renewal of the tracks on York St. C. K. Green is Supt. of Const.

LIGHT, HEAT AND POWER

✚Lynn, Mass.—(Official)—The Lynn Gas & Electric Co. has awarded the contract for the foundation of a screening plant and water tower to the MacARTHUR CONCRETE PILE & FOUNDATION CO., 11 Pine St., New York, N. Y.

New London, Conn.—It is reported that the Connecticut College for Women will soon build a one-story power house. The estimated cost is $30,000. Noted July 23, 1914.

Holley, N. Y.—The citizens have voted to issue $5000 in bonds for the purpose of making improvements in the municipal electric-light system. It is stated that the system will be changed from 133 cycles to 60 cycles. C. H. Bartlett is Chn. of Light Comrs.

✚New York, N. Y.—(Borough of Bronx)—Bids were received Apr. 12 by the Department of Education for installing heating and ventilating apparatus and temperature regulation in the addition to Public School 12, Frisby Ave., between Benson Ave. and Overing St., Borough of Bronx, from: Leslie & Tracy, Inc., $11,883; D. J. Rice, $11,841; E. Rutzler Co., $12,054; Grimshaw & Sturges, $12,497; Wells & Newton, $12,923; James Curran Mfg. Co., $12,759; W. J. OLVANY, 177 Christopher St., New York, $11,572 (awarded contract); Blake & Williams, $12,692; Philp & Paul, $12,957. Noted Apr. 8.

✚Yorktown Heights, N. Y.—The Board of Managers of the New York State Training School for Boys has awarded the contract for the construction of a power plant for the school to CALLAHAN & PRESCOTT, Albany. Noted Jan. 7.

Bayonne, N. J.—It is reported that the Standard Oil Co., 26 Broadway, New York, is considering the installation of an electric power station at its Constable Hook plant.

Beavertown, Penn.—A special election will be held Apr. 17 to vote on the question of municipalizing the plant of the Beaver Electric Co.

Boyertown, Penn.—It is reported that the Boyertown Electric Co. contemplates extending its transmission lines to Gabelsville to supply electricity to that village. A. E. Groff is Supt.

+Bristol, Penn.—William H. Grundy & Co., manufacturer of yarns, etc., has awarded contracts for the construction of a power plant as follows: ROBERT LEDERLE, Philadelphia, for steel work; TRUSSED CONCRETE STEEL CO., Philadelphia, for steel sash; H. R. HEINICKE, INC., Philadelphia, for the chimney.

Harmony, Penn.—Chester & Fleming, Engr., Pittsburgh, Penn., has been commissioned by the Pittsburgh, Harmony & New Castle Ry. Co. to make surveys for two impounding dams on Conoquenessing Creek. S. H. Waddell, Diamond Bank Bldg., Pittsburgh, is Secy., Treas. and Pur. Agt. for the Pittsburgh, Harmony and New Castle Ry. Co.

New Castle, Penn.—The Mahoning & Shenango Ry. & Light Co., Youngstown, Ohio, plans to build a three-story, combination passenger and freight station, and electric substation on Washington St., New Castle. The estimated cost is $65,000. R. P. Stevens, Youngstown, is Pres. of the company.

Wilkes-Barre, Penn.—It is reported that the Keystone Collieries near Wilkes-Barre, will be equipped throughout with electrically operated machinery. Locomotives will take the place of mules, and electrical equipment will replace steam-driven machinery in the breakers.

Sprigg, W. Va.—Press reports state that the Tug River Power Co., Gary, W. Va., will build an electric-power plant at Sprigg. It will be of brick and reinforced concrete. The estimated cost is $30,000.

Union, W. Va.—The Town Council has granted a 50-year franchise to E. H. Butts, White Sulphur Springs, W. Va., to construct and operate an electric-light plant in Union. It is reported that energy to operate the plant will be obtained from the Virginia Western Electric Co., Clifton Forge, Va.

+Great Falls, S. C.—The Southern Power Co., Charlotte, N. C., has awarded the contract for the construction of a hydro-electric plant at Fishing Creek, three miles above Great Falls, to the HARDAWAY CONTRACTING CO., Columbus, Ga. The contract calls for a development of 30,000 hp., and it is expected that the plant will be in operation by Sept. 1, 1916. Charles I. Burkholder, Charlotte, is Mgr. of the Southern Power Co.

Winnsboro, S. C.—See item under "Water Supply-Irrigation."

South Jacksonville, Fla.—(Official)—Bids will be received until 3 p.m., Apr. 19, by the Board of Bond Trustees for a four-valve or uniflow engine for direct connection to a 125-kw., a 150-kw. or a 175-kw. generator with exciter and switchboard; a 60-hp. motor; one set gears and one feed pump. Harry Botts is Chn. of Bd. The J. B. McCrary Co., Third National Bank Bldg., Atlanta, Ga., is Engr.

+Cleveland, Ohio—The contract for the construction of a substation at East 79th St. and Woodland Ave., for the municipal electric-light system has been awarded to the CLEVELAND FIREPROOF CONSTRUCTION CO., 650 Rockefeller Bldg., Cleveland, at $24,000. Noted Mar. 25.

Mansfield, Ohio—Bids will be received until Apr. 23 by Orra Hursh, Dir. Pub. Ser., for lighting the streets of the city with electricity for a period of ten years. H. Whitford Jones, 1303 Citizens' Bldg., Toledo, is Consult. Engr.

Norwalk, Ohio—Bonds for $120,000 have been sold, the proceeds of which will be used for the construction of a municipal electric-light plant. It is reported that work will be started at once. Noted Feb. 5, May 21 and Sept. 24, 1914.

Youngstown, Ohio—Press reports state that the Republic Iron & Steel Co. will soon begin the construction of a new boiler plant to replace the present equipment of the Brown-Bonnell and Bessemer works. Automatic stokers and coal handling apparatus will be installed in the new plant. The cost is estimated at $300,000.

Blissfield, Mich.—The Electric Light Commission plans to build an addition to the municipal electric-light plant, and to purchase a new switchboard for a two-unit plant. Twenty-four hour service will be established. Ray H. Ellis is Supt. of the plant.

Stronghurst, Ill.—It is reported that M. F. T. Schierbaum, owner of the Stronghurst electric-light plant, will soon install new equipment including a 65-hp. Muenzel gas engine and one 75-hp. Muenzel suction gas producer; also one 45-kw. 60-cycle, three-phase, 2300-volt generator.

+Duluth, Minn.—The Board of Education has awarded the contract for heating equipment for the new Lincoln Junior High School to the AMERICAN HEATING CO. at $21,250. The contract for the electrical work was awarded to F. O. PETERSON, Duluth, at $4112.

McCracken, Kan.—It is reported that an electric-light plant will soon be installed in McCracken. Energy to operate the system will be obtained from the municipal plant at La Crosse.

Grant, Neb.—See item under "Water Supply—Irrigation."

Omaha, Neb.—The Omaha Ry. & Light Co. has been granted authority by the State Railway Commission to issue $130,000 in bonds and stock, the proceeds of which will be used for constructing new transmission lines and other improvements.

Clarksburg, Mo.—The Clarksburg Light & Power Co. contemplates the installation of an electric-lighting system to cost about $4000. About seven miles of transmission line will be built. Electricity will probably be obtained from the municipal plant at Tipton, Mo. G. P. Wilson, 324 Mifflin Ave., Wilkinsburg, Penn., is interested.

Urich, Mo.—It is reported that plans are being considered for the construction of a municipal electric-light plant in Urich. The estimated cost is $5000. H. Busse, Urich, is interested.

Luling, Tex.—It is reported that the Texas Power & Light Co., is negotiating with the City Council with a view to establishing an electric-light plant in Luling.

Post, Tex.—It is reported that the Post Power Co. will soon install an electric-lighting system in the town. H. W. Fairbanks is Vice-Pres., Mgr. and Cont. Agt.

Stillwater, Okla.—At an election to be held May 4 the citizens will vote on the question of granting a franchise to the Stillwater-Pawnee Gas Co. for the installation of a natural gas distributing system.

La Junta, Colo.—At the recent election, the citizens voted in favor of issuing $75,000 in bonds, the proceeds of which will be used for the construction of a municipal electric-light plant. Noted Dec. 17 and 31.

Loveland, Colo.—At the election on Apr. 6 the citizens voted in favor of a bond issue of $78,000 for the purpose of establishing a municipal electric-light plant. Noted Mar. 11.

Cathlamet, Wash.—Application has been made to the City Council by C. H. Reeves, Jefferson, Ore., for a franchise to install and operate an electric-light plant for a period of 10 years. At the expiration of that time, the city is to be given the privilege of purchasing the plant.

Seattle, Wash.—Bids will be received until 1:30 p.m., Apr. 21, by C. E. Remsberg, Secy. of the Seattle Port Comn., for the installation of an electric-light and power plant in the fruit storage building of the East Waterway Terminal Improvement.

Highgrove, Calif.—It is reported that the generating station of the Pacific Light & Power Corporation, Los Angeles, was destroyed by fire Mar. 28. The loss is estimated at $10,000. E. R. Davis, Los Angeles, is Gen. Mgr. of the company.

Santa Barbara, Calif.—The Santa Barbara Gas & Electric Co. plans to rebuild and enlarge its gas plant. A new generator and compressors will be installed. John T. Huntington is Mgr. and Cont. Agt.

Techachapi, Calif.—It is reported that the City Trustees plan to install a municipal electric-light system to cost about $4500.

Visalia, Calif.—The Mt. Whitney Power & Electric Co., Visalia, has been granted authority by the State Railroad Commission to issue $238,000 in bonds, the proceeds to be used for additions and improvements to its system. Fred G. Hamilton, Visalia, is Supt.

Brantford, Ont.—Bids will be asked soon for the installation of steam heating, plumbing and ventilating equipment in the Central School, Sheridan and George St. The estimated cost is $15,000. The Canadian Domestic Engineering Co., Ltd., 47 King St. W., Toronto, Ont., is Engr.

BRIDGES

St. Johnsbury, Vt.—Press reports state that the Town of St. Johnsbury has voted to pay 25% toward the cost of a new bridge over the Passumpsic River to replace the one carried away by the February flood. The state will pay 25%, and the Boston & Maine R.R. the remainder of the expense. The cost is estimated at $32,000. P. E. May is City Clk.

+Lawrence, Mass.—The Lawrence Bridge Commission has awarded the contract for 15,000 bbl. of cement to JOHN J. EVANS, at $1.59 per bbl.

+Mansfield, Mass.—The Board of Selectmen has awarded the contract for the construction of the Spring St. Bridge to POWERS BROS., Brockton. It will be of reinforced concrete.

★Northampton, Mass.—(Official)—Bids will be received until noon, May 4, by the Commissioners of Hampshire County, Court House, Northampton, for reconstructing two piers and repairing the superstructure of the Connecticut River Bridge between Northampton and Hadley. J. R. Worcester & Co., 79 Milk St., Boston, is Engr.-in-Charge. Frank A. Brooks is Chn. of County Comrs. Noted Dec. 18, 1913; Jan. 7, Feb. 18 and Mar. 11, 1915.

New Haven, Conn.—(Official)—We are advised by F. L. Ford, City Engr., that bids for the proposed Tomlinson Bridge over the Quinnipiac River in New Haven will not be asked before midsummer or early fall, and possibly not until the spring of 1916. The estimated cost is $400,000. Noted Apr. 1.

Canton, N. Y.—(Official)—Bids will be received until 2 p.m., May 5, by H. M. Barber, Clk. of the Town of Canton, for the construction of a concrete-steel arch over the Grasse River in the Village of Canton. The Concrete-Steel Engineering Co., Park Row Bldg., New York, N. Y., is Engr. Ceylon G. Chaney is Town Supvr.

Syracuse, N. Y.—It is reported that the City Council has passed an ordinance for a $12,000 bond issue for the purpose of building a new bridge over Onondaga Creek at West Taylor St. to replace the present structure which has been condemned. W. T. Wooley is City Engr.

Lambertville, N. J.—The Board of Chosen Freeholders of Hunterdon County, Flemington, will build a new bridge over Swan Creek on South Union St., Lambertville. Grant Davis, County Engr., will prepare plans and supervise the construction of the bridge. Noted Mar. 18.

Newark, N. J.—See item under "Miscellaneous."

New Brunswick, N. J.—Bids will be received until Apr. 19 by the Board of Chosen Freeholders of Middlesex County for the construction of a concrete slab bridge over Green Brook at Madison Ave., Dunellen. Plans were prepared by Alvin B. Fox, County Engr., Perth Amboy. The bridge will be built jointly by Middlesex and Somerset Counties.

+Somerville, N. J.—(Official)—The Board of Chosen Freeholders of Somerset County has awarded the contract for the construction of five county bridges to BURKE & BONHAM, Plainfield, at $11,448. J. Doughty, Jr., is County Engr. Noted Mar. 18.

Marcus Hook, Penn.—(Official)—Bids will be received until 10 a.m., May 3, by the Commissioners of Delaware County, Media, for a reinforced-concrete bridge on the Post Rd. over Hook Creek at Marcus Hook. John Griffin, Media, is Clk. of Comrs. Noted Apr. 8.

★Media, Penn.—(Official)—Bids will be received until 10 a.m., May 3, by the Commissioners of Delaware County for the construction of a bridge over Ridley Creek on the line of Baltimore Pike between Middleton and Upper Providence Townships. Orion L. Davis is County Controller.

Norristown, Penn.—The Commissioners of Montgomery County have decided to build a concrete bridge over Stony Creek at Stanbridge St., Norristown. The estimated cost is $30,000.

Philadelphia, Penn.—(Official)—We are advised by Jonathan Jones, Asst. Bridge Engr., Bureau of Surveys, that ordinances have been passed for the following bridges, and that bids for their construction will soon be asked: Bridge at Fifth St. over North Pennsylvania R.R., 70 ft. wide, estimated cost, $70,000; Diamond St. over Connecting Ry., 60 ft. wide, estimated cost, $75,000; Cambria and A St. over Richmond Bridge and Philadelphia & Reading Ry., 52 ft. wide, estimated cost, $62,000; Third St. under Philadelphia, Newtown & New York R.R., estimated cost, $32,000; Holme Ave. over Pennypack Creek, two 50-ft. and one 80-ft. spans, estimated cost, $80,000; 58th St. over Baltimore Central R.R., 60 ft. long, 30 ft. wide, estimated cost, $18,000; Fisher Ave., under North Pennsylvania R.R., estimated cost, $32,000; Whitby Ave., over Baltimore Central R.R., estimated cost, $42,000; Sherwood Ave. over Indian Run, 20 ft. long, 56 ft. wide, estimated cost, $30,000.

Pittsburgh, Penn.—(Official)—Bids will be received until noon, Apr. 23, by R. J. Cunningham, Controller of Allegheny County, for creosoted wood block floors on a number of county bridges. J. G. Chalfant, Court House, Pittsburgh, is County Engr.

Suffolk, Va.—(Official)—Bids will be received until noon, Apr. 22, by the Clerk of the Circuit Court of Nansemond County for the construction of a bridge over the Nansemond River near Suffolk. It will have a 105-ft. draw span and two 19-ft. approaches.

Ranger, W. Va.—(Official)—Bids will be received until 1 p.m., May 3, by the Lincoln County Court, Hamlin, for the construction of a steel highway bridge over the Guyandotte River at Ranger. It will have one 192-, one 82- and one 42-ft. span with a 16-ft. roadway. About 600 cu.yd. concrete masonry will be required. A. C. Parsons is Pres. of the Lincoln County Court. Oliver & Maupin, Huntington, W. Va., is Consult. Engr. Noted Apr. 1.

Savannah, Ga.—It is reported that William B. Stilwell and associates, of the East Georgia Ry. Co. plan to construct a 600-ft. bridge across the Cannochee River.

Wedowee, Ala.—(Official)—Bids will be received until noon, Apr. 30, by the Board of Commissioners of Randolph County for the construction of four steel bridges on the Wedowee and Roanoke State Highway. John T. Hefflin is Probate Judge of Randolph County. M. F. Ussery is Chn. of County Comrs.

Contracts to Be Let

Bids received until May 4, 1915.

Bridge Repairs

Northampton, Mass.

Sealed bids for reconstructing two piers and also for repairing the superstructure of the bridge across the Connecticut River between Northampton and Hadley, Mass., will be received by the Hampshire County Commissioners at their office, Hampshire County Court House, Northampton, Mass., until twelve o'clock M., on May 4, 1915, and at that time and place will be publicly opened and read.

No bid will be received unless accompanied by a properly certified check for five hundred ($500.00) dollars, payable to the order of "Treasurer of Hampshire County." Each check will be returned to the bidder unless forfeited, as hereinafter provided. All such deposits, except that of the successful bidders, will be returned to the persons making the same within ten days after the contract is awarded.

The contract must be signed and the bond furnished within six days (Sunday excepted) after the date of the notification by the Commission of the acceptance of the proposal and the readiness of the contract for signature, and in case of the failure of the bidder after such notification to execute the contract and furnish the bond within such time, the proposal will be considered abandoned, and the certified check accompanying the proposal shall be forfeited to the County.

Plans can be seen at the office of the Commission, Northampton, Mass., or at the office of the Engineers, 79 Milk Street, Boston, Mass.

The Commission reserves the right to reject any and all bids and reserves the right to award the contract as it deems for the best interest of Hampshire County.

FRANK A. BROOKS, Chairman,
FRANK M. SIBLEY,
CLARENCE E. HODGKINS,
Hampshire County Commissioners
J. R. WORCESTER & CO., Engineers,
79 Milk Street, Boston, Mass.

⁂

Bids received until Apr. 26, 1915.

Bituminous Material

Albany, N. Y.

State of New York—Office of the State Commission of Highways, Albany, N. Y.—Pursuant to provisions of Chapter 30, Laws of 1909 as amended by Chapter 646, Laws of 1911, and Chapter 80, Laws of 1913, sealed proposals will be received by the undersigned at the office of the State Commission of Highways, 55 Lancaster Street, Albany, N. Y., at 1 o'clock P.M. on Monday, April 26, 1915, for furnishing and delivering bituminous materials "A" and "T" in the different counties comprising Divisions Nos. 1, 2, 3, 4, 5, 6, 7, 8 and 9. Tables and specifications showing the approximate quantities may be seen and obtained at the office of the Commission in Albany, N. Y. The special attention of bidders is called to the fact that separate proposals will be received for each Division for furnishing and delivering bituminous materials "A" and "T" as designated in detail by divisions on tables prepared for that purpose.

Each proposal must be accompanied by a draft or certified check issued by a National or State bank in good credit within the State and payable at sight to the order of the State Commission of Highways, for an amount equal to at least 5 per centum of the amount of the proposal which such draft or check accompanies. This draft or check will be held by the Commission until the contract is executed and the bond is filed.

The successful bidder on each proposal will be required to give a bond for 50 per centum of the amount of the contract, such bond to be executed by a Surety Company to be approved by the Commission. The bond is for the purpose of insuring the delivery of the bituminous material as called for by the Commission.

The right is reserved to reject any or all bids.

EDWIN DUFFEY, Commissioner.
I. J. MORRIS, Secretary.

Bids received until Apr. 20, 1915.

Trenton-Allentown Turnpike

County of Mercer, State of New Jersey.

Sealed proposals will be received by the Board of Chosen Freeholders of the County of Mercer, at their place of meeting in the Court House, in the City of Trenton, County of Mercer, N. J., Tuesday, April 20, 1915, at 2:30 P.M., and then opened:

For furnishing all material, tools, machinery and labor necessary for the efficient and proper rolling, spreading and laying of a bituminous concrete surface, and all other work incidental thereto, on a certain macadam highway in Mercer County; known as the Trenton-Allentown Turnpike, beginning at or near Bromley Inn and extending to Mercerville.

As a guarantee of good faith and to secure the County of Mercer from any loss by failure to comply with the terms of said bid, all bidders shall accompany their bid with a certified check for $1000, payable to the order of Joseph H. Black, County Collector, or a like amount in cash. Upon the failure by the contractor to enter into an agreement in writing to perform the work according to the specifications, said certified check or cash shall be forfeited and considered as liquidated damages.

All bids containing proposals must be enclosed in sealed envelopes addressed to the Board of Chosen Freeholders of the County of Mercer, N. J., and bearing on the outside the name and address of the bidder.

No proposal will be received or opened until these conditions are complied with on the part of the bidder.

The check or cash of the successful bidder will be held until the contract is executed together with a bond approved by the Board of Chosen Freeholders or its committee in an amount not to exceed the full amount of the bid, conditioned for the faithful performance of the contract in accordance with the specifications.

Specifications are on file at the office of Theodore Tobish, County Engineer, Court House, Trenton, New Jersey, and may be there examined.

The form of proposal on file with said Engineer must be the form used in making bids.

The right is reserved to reject any or all bids or to waive any defect or informality in any bid should it be to the interest of the county to do so.

JOHN J. POWER, Director.

⁂

Bids received until May 1, 1915.

Sewers and Water-Works

Laurel, Md.

SEALED PROPOSALS, addressed to George W. Waters, Jr., Mayor, Laurel, Md., and marked "Sewer and Water Bids," will be received until two P.M., May 1st, 1915, for furnishing materials and constructing a complete system of sanitary sewers, extensions to water mains and other water-works improvements, comprising the following:

Approximately eight and seven-tenths miles of Sewers, 8-inch to 15-inch in diameter.
Approximately three and one-quarter miles of Water Mains, 2-inch to 8-inch in diameter.
Sewage Disposal Plant.
Compressed Air Sewage Ejectors.
Rapid Sand Filter Plant for Water-works, comprising Building and Equipment.
Motor Driven Pumping Machinery.

Bids will be received for the entire work or for any portion thereof.

Plans and specifications may be seen at the Collector's office, Laurel, Md., or at the office of Harry Stevens, Consulting Engineer, Union Trust Building, Washington, D. C., or may be obtained from the Engineer for Five ($5.00) Dollars per set.

Right is reserved to reject any or all bids or to accept any bid for the whole or any portion of the work.

For the information of prospective bidders, the Town has the necessary funds for the above work deposited in the bank.

GEORGE W. WATERS, JR., Mayor.
HARRY STEVENS, Engineer.

Important Railway Buying

The Pennsylvania R.R. has made two important announcements concerning equipment. On Apr. 17 it was stated that the company would buy about $20,000,000 of motive power and equipment and Apr. 19 another official notice was made of contemplated purchase which should amount to $7,000,000. The total inquiry amounts to 16,245 freight cars, 195 locomotives and 191 all steel passenger cars. A portion of this equipment will be built in the company's Altoona shops. This is the first important equipment order to be placed since the outbreak of the European war. The Chicago & Northwestern is in the market for 2000 freight cars and 50 passenger coaches, the Virginian for 500 steel under frames.

RAILWAYS

New York—Erie R.R.—According to press reports this company is settling all disputes with cities that have been holding up its plans for completing the final 49 miles of double-tracking between New York and Chicago, Ill. This work is divided into three sections: 35 miles from Griffith to Lamox, Ind.; nine miles from Waterloo to Sternberg, N. Y., and five miles from Allegany to Carrollton, N. Y. R. C. Falconer, New York, N. Y., is Supt. Const.

West Virginia—The Louisville & Nashville R.R.—This company is preparing to construct 23 miles of railway from McRoberts, the present terminus, to Elk Horn, thus connecting the two greatest coal fields in eastern Kentucky. W. H. Courtenay, Lousville, Ky., is Ch. Engr.

North Carolina—Bids will again be received by the County Commissioners for the construction of the proposed railway to connect Shelby and Casar, N. C., about 21 miles. Noted Mar. 25.

✚North Carolina—Carolina & Northwestern R.R.—This company has awarded the contract for grading and improving its lines in the vicinity of Newton, N. C., to J. W. POLK, Newton. Noted Apr. 1.

South Carolina—Furman & Yemassee R.R.—This company has been incorporated to construct a railroad from Furman to Yemassee, S. C., about 20 miles. **J. H. Adams, W. O. Ellis** and H. Weindal are interested.

Georgia—Shearwood Ry.—Plans are being considered by this company for the construction of a 4½-mile extension to its line from Brooklet, Ga. J. S. Baxter, Garnett, S. C., is Ch. Engr.

Kentucky—Illinois Central R.R.—Plans are being prepared by this company for the construction of a new line from Dawsonsprings to Providence, Ky. A. S. Baldwin, Chicago, Ill., is Ch. Engr.

✚Ohio—Chesapeake & Ohio Ry. Co. of Indiana—This company has awarded contracts for the construction of a 28-mile railway from Portsmouth to Waverly, Ohio, as follows: W. W. BOXLEY, Roanoke, Va., for constructing roadbed leading to the Kentucky abutment at Siloam, Ky.; RINEHART & DENNIS CO., Charlottesville, Va., for constructing the first 7½ miles from Sciotoville to a point near Harrisonville; WINSTON & CO., Richmond, Va., for constructing the next eight miles to a point known as the Summit cut; ROBERT GRACE CONTRACTING CO., Pittsburgh, Penn., for constructing line from Summit cut to Waverly.

Montana—Chicago, Milwaukee & St. Paul Ry.—Announcement has been made that this company will soon start work on the regraveling of its entire roadbed from Deer Lodge to Haugan, Mont. C. F. Loweth, Chicago, Ill., is Ch. Engr.

Arkansas—Montant Ry.—This company was recently incorporated to construct a three-mile narrow gage railway from Montana, Ark., to the mines of the Johnson & King Mining Co. E. H. Johnson is interested.

✚Washington—Chicago, Milwaukee & St. Paul Ry.—This company has awarded to TWOHY BROS., Spokane, the contract for the construction of the 12 miles of new branch railway, which will tap the great Nooksack River timber belt, northeast of Bellingham. The line will be built from Goshen to Welcome, about 12 miles, and is estimated to cost about $400,000.

Washington—The Harvey Mill Co., Vancouver, Wash., has executed a mortgage to the Lumbermen's Trust Co., Portland, the proceeds to be used in the construction of a log railroad along Lewis River, where the company is acquiring large timber holdings.

Pacific Ry.—It is reported that this company plans the construction of a line to connect its tracks in Sumas, Wash., with the British Columbia Electric Ry., just across the border between the United States and British Columbia. It is stated the work of construction will begin early in May. W. L. Darling, St. Paul, Minn., is Ch. Engr.

Oregon—California & Oregon Coast R.R.—Twohy Bros., Spokane, Wash., railroad contractor, has arranged to finance and build a railroad from Wilderville, Ore., to Crescent City, Calif., about 81 miles. The estimated cost is $5,000,000.

Alaska—The route of the Alaska railroad to be built by the Government has been selected. The line will extend from Seward, on Resurrection Bay, to Fairbanks, about 471 miles. This will include the Alaska Northern road, already built, which will be bought by the Government. A branch line will be built from Matanuska Junction into the coal fields, about 38 miles. The estimated cost of the line, including the branch, is $26,800,000. The work will be in charge of the Alaskan Engineering Commission. Work will be started at once and about 40 miles of road will be completed this year. Noted June 18, 1914.

Alberta—Central Canada Ry.—The Alberta Legislature has adopted a resolution providing for a government loan, not exceeding $2,000,000, to this company, for the construction of the McLellan-Peace River Crossing line. This will insure the immediate construction of the line as the loan will be floated as soon as possible.

Alberta—Edmonton, Dunvegan & British Columbia Ry.—The Alberta Legislature has adopted a resolution to guarantee the branch line of this road from a point on the main line south to Grande Prairie, a distance not exceeding 60 miles, at $20,000 per mile.

ELECTRIC RAILWAYS

Bristol, Conn.—The Bristol & Plainville Tramway Co. is preparing plans for the extension of its lines in Bristol. C. E. Cockings, Bristol, is Mgr.

Albany, N. Y.—The United Traction Co. contemplates the construction of a loop at Grand St., Hamilton St., Trinity Pl. and Madison Ave. and to extend its Arbor Hill line. James F. Hamilton, Albany, is Gen. Mgr.

Amsterdam, N. Y.—The Fonda, Johnstown & Gloversville R.R. plans to improve its lines in Ft. Johnson and Amsterdam. W. H. Collins, Gloversville, is Gen. Mgr.

Buffalo, N. Y.—The International Ry. Co. has received an extension of time on its franchise to construct tracks in East Delavan and West Delavan Ave. J. C. Sheldon, Buffalo, is Pur. Agt.

Jersey City, N. J.—The bill, providing for a municipal railway in Jersey City in the downtown section to develop manufacturing, passed the State Assembly, Apr. 13. Noted Apr. 1.

Easton, Penn.—The Northampton, Easton & Washington Traction Co. has asked permission of City Council to lay a new switch and reconstruct its track with new and heavier rails on North Fourth St. between Church and Northampton St. W. O. Hay, Easton, is Gen. Mgr. and Pur. Agt.

Erie, Penn.—The City Council has granted a franchise to the Buffalo & Lake Erie Traction Co. to double-track its line on East Sixth St. and to construct a new line on West 17th St. A. R. Myers, Erie, is Gen. Mgr.

Erie, Penn.—The Erie & Southwestern Ry. Co. was recently organized to construct an electric railway to connect Erie, Sterretania, Platea, Cranesville, Albion, Springboro, Conneautville and Exposition Park to Conneaut Lake, about 40 miles. Surveys for the line have been made. H. C. Allen, Erie, is interested.

McConnellsburg, Penn.—Bids are now being received for the construction of the line between McConnellsburg and Fort London by the McConnellsburg and Fort London Ry. Co. A. Spotwood Dandridge is Engr.

Washington, D. C.—The Capital Traction Co. plans to construct an extension from 17th and U St. N. W. south on 17th St. to I St.; thence to 13th St.; thence to H St., and thence to Seventh St. It also proposes short links of track on 15th St. and on 18th St. and a loop at the intersection of Seventh St., Louisiana Ave. and C St. N. W. J. H. Hanna, Washington, is Ch. Engr.

Wilmington, Del.—The Wilmington & Philadelphia Traction Co. has applied to the City Council for an extension of time on its franchise to construct the proposed Washington St. and Boulevard extension in Wilmington. R. W. Crook, Wilmington, is Gen. Mgr. and Pur. Agt.

Hodgenville, Ky.—The citizens of Green and La Rue Counties contemplate the construction of an electric railway to connect Greensburg and Hodgenville. A. H. Benningfield, Taylorsville, is interested.

Chardon, Ohio—The Chardon, Jefferson & Meadville Interurban Ry. Co. plans to construct an electric railway to connect Chardon, Hampton, Rock Creek and Jefferson, a distance of about 30 miles. F. A. Pease, Cleveland, is Engr.

Cleveland, Ohio—The Cleveland Ry. Co. contemplates the extension of its Madison Ave. line from 117th St. to Rocky River. George L. Radcliffe, Cleveland, is Gen. Mgr.

Crystal, Mich.—The City Council has granted a franchise to the Muskegon-Saginaw Electric Co. to construct an electric railway through Crystal. This is part of a plan to build an electric line to connect Muskegon, Casnovia, Crystal, Egelston, Moorland and Saginaw.

Detroit, Mich.—The Detroit, Lansing & Grand Rapids Ry. Co. has completed surveys and will soon start work on the construction of an electric railway from Detroit to Lansing. Henry M. M. Wallace is Pres.

Madison, Wis.—The Janesville & Madison Traction Co. contemplates the construction of about one mile of new track in Madison. G. Pickhardt, 409 Washington Bldg., Madison, is Pres.

Whitewater, Wis.—The Badger Ry. & Light Co. is making surveys for the construction of an electric railway from Whitewater to Lake Geneva with a branch to Ft. Atkinson and Jefferson. H. B. Kamschulte, Milwaukee, is Pres. and Gen. Mgr.

Little Falls, Minn.—The Minneapolis & Central Minnesota Ry. Co. contemplates the construction of an electric railway from Little Falls to Pierz. B. H. Bradley is Ch. Engr.

Wichita, Kan.—The Arkansas Valley Interurban Ry. Co. has applied to the City Council for a franchise to construct an electric railway from 21st St. west to Mascot and north to the city limits. Charles D. Bell, Wichita, is Pur. Agt. and Ch. Engr.

Hot Springs, Ark.—The Mountain Valley Water Co. has completed surveys for the construction of the proposed electric railway from Hot Springs to Mountain Valley.

Dallas, Tex.—The Dallas Northwestern Traction Co. and the Dallas Southwestern Traction Co., which are affiliated concerns, have petitioned the City Commission to grant an extension of their respective franchises for a period of six months. The two companies propose to construct interurban lines out of Dallas to Denton on the north and Glen Rose on the south.

Galveston, Tex.—The City Council has granted a franchise to the Galveston, Houston & Henderson R.R. Co. to extend its line on Church St. J. H. Hill, Galveston, is Vice-Pres. and Gen. Mgr.

Oklahoma, Okla.—John R. Rose, who is interested in the Oklahoma Interstate Ry. Co., plans to extend the interurban line from Miami to Afton via Vinita to Centralia.

LIGHT, HEAT AND POWER

Salem, Mass.—It is reported that work will soon be begun on enlarging and improving the plant of the Salem Electric Lighting Co. at an estimated cost of $250,000. The work includes an addition to the power station, and the installation of a 6250-kw. generator, four 750-hp. Bigelow-Hornsby water-tube boilers, furnaces and stokers. The wires in the business district will also be placed underground. Noted Jan. 14.

✚Minetto, N. Y.—The Columbia Power Co. has awarded the contract for the construction of its power plant in Minetto to the WITHERSPOON & ENGLAR CO., Chicago, Ill. The plant will be located north of the bulkheads of the new dam, and will have an output of 12,000 hp.

✚New York, N. Y.—(Borough of Manhattan)—Bids were received Apr. 7 by the Board of Trustees, Bellevue and Allied Hospitals, for gas and electric-light fixtures in the main building and ward wing extension to the Harlem Hospital from: J. M. Knopp, $7700; Carbondale Machine Co., $8165; SHIPLEY CONSTRUCTION & SUPPLY CO., Columbia St., Brooklyn, $7250 (awarded contract).

Perth Amboy, N. J.—(Official)—Bids will be received until 8:30 p.m., Apr. 26, by the Board of Aldermen for the construction of a municipal electric-light plant. The work includes construction of a power station building, traveling crane, oil engines, generators, switchboards, transformers, pumps, heating apparatus, wiring and electric lights in the building, and outside distributing system, overhead and underground construction. Runyon & Carey, 845 Broad St., Newark, is Engr.-in-Charge. Wilbur La Roe is City Clk. Noted Nov. 19, Jan. 21 and Mar. 25.

New Brighton, Penn.—The Borough Council is considering the establishment of a municipal electric-light plant. A special committee has been appointed to ascertain the approximate cost of a plant.

Philadelphia, Penn.—George S. Idell, Arch., 34 South 16th St., Philadelphia, has plans and specifications on file for the installation of a power plant at the Pennsylvania Village for Feeble-Minded Women, Union County. Bids for the work are now being received by the Board of Managers of the institution.

✚Reading, Penn.—Joseph Bancroft & Sons Co., manufacturer of cotton goods, has awarded the contract for the construction of a one-story, 26x42-ft. brick boiler house to L. H. FOCHT & SON, Reading. It will cost about $5000.

Wampum, Penn.—It is reported that the Pennsylvania Power Co., Ellwood City, Penn., is considering the purchase of the municipal electric-light plant at Wampum. The former company has always supplied energy to operate the Wampum plant. M. V. Knapp is Gen. Mgr. and Cont. Agt.

Waynesville, N. C.—An election will be held May 4, at which the citizens will vote on the question of issuing $25,000 in bonds for the purpose of establishing a municipal electric-light plant.

Oxford, Ohio—The Trustees of Miami University, Oxford, plan to double the capacity of the power plant. Additional boilers and engines will be required. Walter G. Franz, Union Trust Bldg., Cincinnati, is Consult. Engr.

Cincinnati, Ohio—P. A. Henry, 713 Sycamore St., has commissioned Zettel & Rapp, Arch., 607 Johnston Bldg., to prepare plans for a six-story, reinforced-concrete power building at the southwest corner of Eighth St. and Broadway. The estimated cost is $125,000.

Clare, Mich.—At a recent election, the question of issuing $34,000 in bonds for the purpose of building a municipal electric-light plant was defeated.

Centerville, Iowa—Press reports state that the Centerville Light & Traction Co. is preparing to build a transmission line to Cincinnati, a distance of nine miles. It will furnish power for mines along the route, and for residences and street-lighting in the village of Cincinnati. Harry Longanecker, Centerville, is Supt. of the Centerville Light & Traction Co.

Iowa Falls, Iowa—A company has been formed in Iowa Falls, with a capital stock of $200,000, for the purpose of installing and operating a new heating and lighting system. John A. Reed, Cedar Rapids, is interested.

Orchard, Iowa—Press reports state that a company has secured options on sites along the Cedar River to be used for the construction of a hydro-electric plant at Orchard. The company plans to ultimately furnish power throughout several counties in northern Iowa and southern Minnesota.

Broken Bow, Neb.—At the election held Apr. 9, the citizens voted in favor of issuing $10,000 in bonds to be used for the installation of an electric-lighting system. Noted Apr. 1.

Nelson, Neb.—Bids will be received until noon, Apr. 30, by W. A. McHenry, City Clk., for furnishing all materials for an electric distribution system, and for labor to complete the system.

Gillette, Wyo.—Plans have been prepared by Royal I Salisbury, Newcastle, Wyo., for the construction of an electric-light plant in Gillette.

St. Louis, Mo.—It is reported that the question of establishing a municipal electric-light plant for this city is being agitated. James A. Hooke is Dir. of Pub. Utilities.

Prairie Grove, Ark.—The Prairie Grove Electric Co. has been organized with a capital stock of $6000 for the purpose of equipping and operating an electric-light plant.

Aransas Pass, Tex.—The City Council is reported to be considering the improvement of the municipal electric-light plant and water-works system at an estimated cost of $35,000.

McKinney, Tex.—It is reported that the city will purchase, some time this year for the municipal electric-light plant, a 200-kw., two-phase, 60-cycle, 2300-volt generating unit, directly connected. W. E. McKinnon is Supt. of the plant.

Plainview, Tex.—It is reported that the Malone Light & Ice Co., Plainview, has recently purchased the properties of the Lockney Electric Light Co., Lockney, and the Lubbock Light & Ice Co., Lubbock. Both plants will be enlarged and improved. Charles A. Malone, Plainview, is Secy. and Mgr. of the Malone Light & Ice Co.

Waco, Tex.—It is reported that the Texas Power & Light Co., Dallas, will construct a transmission line from its central station at Waco to connect Taylor, Thrall, Rockdale and Cameron. F. R. Slater, Dallas, is Gen. Supt.

✚Seattle, Wash.—The Gas Service Corporation of America has awarded the contract for the construction of two gas plants, one at Montesano, and the other at Bremerton, to the BURNETT CONSTRUCTION CO., at $150,000 for the two. Noted Feb. 25 under Montesano, Wash.

Bakersfield, Calif.—The Lakeview Oil Co. No. 1 will purchase an electric generating plant, five 70-hp. boilers, lathes and other equipment for a power house and machine shops it plans to install. W. J. Burnhart is Supt.

Merced Falls, Calif.—It is reported that the San Joaquin Light & Power Co., Fresno, will install a new unit at Merced Falls to cost about $75,000. The voltage of the transmission line from Merced Falls to Merced will be increased from 30,000 to 60,000 volts. A. G. Wishon, Fresno, is Gen. Mgr. of the San Joaquin Light & Power Co.

Blenheim, Ont.—The Town Council plans the installation of a new hydro-electric system for lighting and other purposes. The estimated cost is $40,000. It is reported that construction work will be begun soon. W. R. Fellows is Mayor.

Dutton, Ont.—The Hydro-Electric Commission will start work at once on the installation of an electric-lighting system. The Commission will purchase all material. The estimated cost is $10,000. Noted Feb. 18.

Rodney, Ont.—It is reported that the Town Council plans the installation of a hydro-electric plant to furnish light and power to the town. The estimated cost is $25,000. B. B. Graham is Reeve.

Kamloops, B. C.—The Municipal Council is having plans prepared by DuCane, Dutcher & Co., 470 Granville St., Vancouver, for extensions to the electric-lighting system at an estimated cost of $50,000. J. J. Carment is Clk. Noted Jan. 7.

BRIDGES

Springfield, Mass.—It is reported that the City of Springfield has petitioned the State Legislature for authority to build a bridge across the Connecticut River to West Springfield. F. H. Clark is City Engr.

✚West Groton, Mass.—(Official)—The Towns of Shirley and Groton have awarded the contract for the construction of a bridge over the Squannacook River at West Groton to the BEAVER CONTRACTING & ENGINEERING CORPORATION, 113 State St., Boston. Burtis S. Brown, 88 Broad St., Boston, is Engr. Noted Mar. 11.

Providence, R. I.—It is reported that the Department of Public Works is considering the construction of a bridge over the Providence River at Market Sq. between Washington Row and Canal St. The estimated cost is $76,360. O. F. Clapp is City Engr.

Hartford, Conn.—It is reported that the City Council plans to build a new bridge over the Park River at the foot of Trumbull St. The estimated cost is $9500. Roscoe N. Clark is City Engr.

★Cobleskill, N. Y.—(Official)—Bids will be received until 1 p.m., May 3, by Lorenzo J. Gordon, Supt. of Highways of the Town of Cobleskill, for the construction of a bridge over Cobleskill Creek. Ogden Eldredge is Town Clk.

Lancaster, N. Y.—Bids will be received until 2 p.m., May 3, by F. H. Maute, Town Clk., for the construction of a reinforced-concrete arch over Cayuga Creek. George C. Diehl, 575 Ellicott Sq., Buffalo, is Engr.

Bloomingdale, N. J.—The Boards of Chosen Freeholders of Morris County, Morristown, and Passaic County, Paterson, plan to build a new bridge over the Pequannock River between Bloomingdale and Butler. It will be of concrete, 42 ft. wide with a 30-ft. roadway.

★✚Camden, N. J.—(Official)—Bids were received Apr. 12 by the Board of Chosen Freeholders of Camden County for the construction of two reinforced-concrete bridges on Kings Highway, (A) Cooper River Bridge, (B) North Branch Cooper River Bridge. The bids follow: REESE, TAYLOR & CO., INC., Trenton, (A) $11,989, (B) $7418 (awarded contract); C. A. HENNESSEY, Burlington, (A) $7825 (awarded contract); H. Denburger, (A) $14,284, (B) $11,495; Ferro-Concrete Co., (A) $9974, (B) $7777; W. H. Johnson, Jr., (A) $11,895, (B) $8797; C. T. Eastburn Co., (A) $10,750, (B) $7900; Bridgeton Construction Co., (A) $11,211, (B) $8293; Whitaker & Diehl, (A) $9674, (B) $7546; Sparks & Evans, (A) $9495, (B) $7845; J. E. Brenneman, (A) $10,734, (B) $7898; Pugh, Hubbard Co., (A) $9947, (B) $8111; Kelley-McFeeley Co., (A) $10,650, (B) $8483. Noted Mar. 18.

Collingswood, N. J.—The Board of Chosen Freeholders of Camden County, Camden, is reported to be considering the construction of a bridge to connect Swan Ave., Collingswood, with Elm Ave., Woodlyn, Penn.

★Elizabeth, N. J.—(Official)—Bids will be received until 2 p.m., May 5, by the Board of Chosen Freeholders of Union County for the construction of a steel lift bridge over the Elizabeth River at Baltic St. and Trenton Ave., Elizabeth. Plans were prepared by the Strauss Bascule Bridge Co., 104 South Michigan Ave., Chicago, Ill. Jacob L. Bauer is County Engr. of Union County. Noted May 14, 1914, and Apr. 1, 1915.

Sea Isle City, N. J.—Bids will be received until noon, May 4, by Frank W. Fowkes, Clk. Bd. of Chosen Freeholders of Cape May County, Cape May C. H., for the construction of a Strauss type double-lift bridge on concrete piling, at Sea Isle City. L. M. Rice, Wildwood, is County Engr.

Easton, Penn.—Bids will be received until 11 a.m., May 14, by the Board of Commissioners of Northampton County for the construction of a reinforced-concrete bridge over Bushkill Creek, Bushkill Township. George F. P. Young is County Controller.

✚Franklin, Penn.—(Official)—The Board of Commissioners of Venango County has awarded contracts for bridge construction as follows: White Bridge over Oil Creek to the HORSEHEADS CONSTRUCTION CO., Horseheads, N. Y., at $3257; Utica Bridge to J. G. SHAFFER, Oil City, at $3499; Shippen Bridge to the PENN BRIDGE CO., Beaver Falls, at $3063. Noted Apr. 8.

Hollidaysburg, Penn.—(Official)—Bids will be received until May 7 by the Board of Commissioners of Blair County for the construction of eight county bridges, and for placing a creosoted block floor on one bridge. H. G. Hinkle, Altoona, is County Engr. W. S. Hostler is Clk. of Comrs. Noted Mar. 18.

★Philadelphia, Penn.—(Official)—Bids will be received until noon, Apr. 29, by M. L. Cooke, Dir., Dept. of Pub. Wks., Room 216 City Hall, for the construction of a bridge on the line of 58th St., over the tracks of the Philadelphia & Baltimore Central R.R.

Reading, Penn.—(Official)—Bids will be received until 10 a.m., Apr. 26, by D. K. Hoch, Controller of Berks County, for the construction of a reinforced-concrete bridge across Willow Creek in Richmond Township, to be known as the Fleetwood Bridge.

✚Reading, Penn.—(Official)—The Commissioners of Berks County have awarded the contract for the construction of a reinforced-concrete slab bridge over Hay Creek at White Bear, Robeson Township, to L. H. FOCHT, Second National Bank Bldg., Reading. Five other bids were received. Noted Apr. 8.

Reading, Penn.—It is reported that engineers of the Philadelphia & Reading Ry. are preparing plans for rebuilding the Center Ave., the Fourth St. and the Schuylkill Ave. Bridges over the Lebanon Valley tracks. Plans for the Sixth St. Bridge have been completed. The estimated cost of the work proposed is $100,000. C. Dillenback, Philadelphia, is Ch. Engr.

★Cumberland, Md.—(Official)—Bids will be received until 9:30 a.m., May 3, by the Mayor and City Council for the construction of a two-span reinforced-concrete arch over Wills Creek, at Market St., Cumberland. Plans were prepared by B. H. Davis, Whitehall Bldg., New York, N. Y. James P. Gaffney is City Engr.

Hillsville, Va.—(Official)—Bids will be received until noon, Apr. 30, by the Clerk of the Circuit Court of Carroll County for the construction of a 119-ft. steel bridge over Crooked Creek. The substructure will be of concrete. G. P. Coleman, Richmond, is State Highway Comr.

Jasper, Ala.—Bids will be received until May 10 by the Board of Commissioners of Walker County for the construction of four steel bridges across the Black Warrior River, at or near Cordova, Sipsey Fork, Mulberry River and Town Creek. Charles M. Sartain, Jasper, is Judge of Probate and Chn. of Comrs. Noted Mar. 4 and 25.

★✚Lake Charles, La.—The Police Jury of Calcasieu Parish has awarded the contract for the construction of a steel swing bridge over Black Bayou on Highway No. 4 to the VINCENNES BRIDGE CO., Vincennes, Ind., at $6396. Noted Mar. 11.

Nashville, Tenn.—(Official)—The State Legislature has authorized Davidson County to issue $250,000 in bonds for the construction of a bridge over the Cumberland River at Hydes Ferry. A special committee of the Davidson County Court has engaged F. E. Passaic, N. J.—Bids will be received about June 1 by the city for paving Albion St. Estimated cost, $5000. C. R. Wise, Passaic, is Engr.

Pennsylvania—Governor Brumbaugh has appointed Robert J. Cunningham, Pittsburgh, to succeed E. M. Bigelow as State Highway Commissioner. It has been determined that special attention shall be paid to road improvements in Pennsylvania, and the appropriation for this work during 1915 and 1916 will be in excess of $8,500,000. Senator Sproul, Chn. of the Senate Finance Com., on Apr. 13 introduced a bill carrying a general appropriation for highway work in the next two years. The bill carries an appropriation of $8,500,000 and does not include the administration expenses of the department and of the Automobile Requisition Bureau, which will be provided for in the general appropriation bill. Of the amount carried by the bill, $6,000,000 is specifically appropriated for the maintenance and improvement of state highways under the act of 1911 and its amendments. This means that the entire state highway system, including those roads added to the original Sproul plan two years ago, will be retained as state highways. The sum of $500,000 is appropriated for the purchase or condemnation of turnpikes upon state highway routes, and $1,000,000 is set aside for the construction and maintenance of state aid highways, and the remaining $1,000,000 is to be devoted to the payment of a portion of the expense of the maintenance of township roads, as provided by the Jones bill. Representative Jones has introduced a separate bill making provision for the payment of deficiencies due by the state to townships under operation of this law. Governor Brumbaugh says that the highway department activities will be carried on under his personal supervision and that he will immediately, upon the assumption of his office by Mr. Cunningham, organize a "roads council," to consist of himself, Commissioner Cunningham and Chief Engineer William S. Uhler. This council will hold frequent regular meetings at which every detail of the work will be discussed, together with appointments to be made and the efficiency of the department.

Catasauqua, Penn.—The City Council has decided to pave Pine, Walnut. Front and Second St. Charles Frederick is Chn. of the Street Com.

+Seattle, Wash.—E. J. ROUNDS CONSTRUCTION CO., Globe Bldg., has been awarded the contract for the construction of a three-story, 60x108-ft. office building at First Ave. and Spring St. for the Puget Mill Co. Estimated cost, $50,000.

+Seattle, Wash.—The contract for the construction of a three-story apartment house for Brown & Cassells has been awarded to the WASHINGTON CONSTRUCTION CO., Seattle. Estimated cost, $60,000.

Tacoma, Wash.—Heath & Gove, Arch., National Realty Bldg., has prepared plans for the construction of a gymnasium at the Stadium High School. Estimated cost, $52,000.

Tacoma, Wash.—Plans have been prepared for the construction of a three-story building at 11th and Market st., for George M. Savage and W. K. Nichols. It will be occupied by the Stone-Fisher Co. The estimated cost is $15,000.

Portland, Ore.—Plans are being prepared by Emil Schacht & Son, Arch., for the construction of a one-story, fireproof commercial building at Ankeny, Pine, Sixth and Fifth St., for the Wilder Bros. Realty Co. Estimated cost, $40,000.

Portland, Ore.—Ellis F. Lawrence and William G. Holford, Assoc. Archs., have prepared plans for the construction of a clubhouse at Thompson and East 22d St. for the Irvington Club. Estimated cost, $80,000.

+Fresno, Calif.—F. M. Rossler has awarded a contract for the construction of a two-story building to J. L. DALY, at $62,400. Noted Dec. 3.

Los Angeles, Calif.—W. S. Garrett, Arch., Currier Bldg., is preparing plans for the construction of a reinforced-concrete hospital building at College and Castelar St. for the French Hospital Association. Estimated cost, $40,000.

Los Angeles, Calif.—The Methodist Mission, 255 East Fifth St., plans to construct a building to cost about $100,000.

Norwalk, Calif.—(Official)—Bids will be received until noon May 4, by W. F. McClure, State Engr., 625 Forum Bldg., Sacramento, for the construction of a group of buildings for the Norwalk State Hospital for the Insane. Estimated cost, $150,000. Noted July 23, Aug. 6 and Apr. 8.

Oakland, Calif.—Bids will soon be received for the construction of a two-story building at Franklin opposite 17th St. for the Native Sons and Daughters of Oakland. Estimated cost, $50,000.

San Fernando, Calif.—Bids will be received until 2 p.m., Apr. 24, by the Board of Trustees of the San Fernando Union High School District for the construction of a group of reinforced-concrete high school buildings. The group will include a two-story, 114x116-ft. auditorium building, a two-story, 96x160-ft. science building, and a one-story, 89x109-ft. mechanical arts building with a boiler plant. The estimated cost is $135,000. Noted Oct. 29 and Mar. 11.

Woodlake, Calif.—Plans have been prepared by F. L. Schwartz, Arch., Fresno, for the construction of a high school. Estimated cost, $40,000.

+Montreal, Que.—The contract for the construction of a public library on Sherbrooke St. E., has been awarded by the Board of Control to JOHN QUINLAN CO. Estimated cost, $445,000. Noted Oct. 29 and Jan. 14.

Hamilton, Ont.—Plans have been prepared for the construction of an addition to the St. Joseph's Hospital on John St. South. The estimated cost is $125,000.

St. Catharines, Ont.—Bids will be received until 5 p.m., May 3, by A. E. Nicholson, Arch., 46 Queen St., for the construction of a building for the Collegiate Institute.

West New York, N. J.—Plans have been approved for the construction of three four-story buildings at Hudson Ave. and 12th St. for Weisberg & Cadd, Hudson Ave. and 11th St. Estimated cost, $90,000 Noted Apr. 22.

Clearfield, Penn.—The citizens on Apr. 16 voted in favor of issuing $100,000 in bonds, the proceeds of which will be used for the construction of a high school.

✚Easton, Penn.—The contract for the construction of a one-story chapel at Lafayette College has been awarded to F. L. HOOVER & SONS, INC., 18 South Seventh St., Philadelphia. The estimated cost is $90,000. William S. Kirkpatrick is Pres. of the college. Noted Nov. 12.

Harrisburg, Penn.—Plans, prepared by Charles Howard Lloyd, Arch., for the construction of a school in the Tenth Ward, have been approved by the School Board. Estimated cost, $90,000. Noted Mar. 25.

Johnstown, Penn.—Plans have been prepared by J. T. Comes, Arch., Pittsburgh, for the construction of a school for St. John's Parish. The estimated cost is $45,000.

Lancaster, Penn.—The citizens have voted in favor of issuing $250,000 in bonds. The proceeds will be used for the construction of a high school for boys.

Lansdowne, Penn.—Bids will soon be received by the First Presbyterian Church for the construction of a 208x240-ft. church at Lansdowne and Greenwood Ave. The estimated cost is $75,000.

✚McKeesport, Penn.—(Official)—The contract for the construction of a two-story high school for the Board of Education has been awarded to the DAWSON CONSTRUCTION CO., May Bldg., Pittsburgh, at $147,000. W. T. Norton is Secy. of Bd. of School Dirs. Noted Mar. 11 and Apr. 8.

✚Philadelphia, Penn.—The contract for the construction of a five-story, 54x105-ft. hospital at Spruce opposite 36th St. for the University of Pennsylvania has been awarded to IRWIN & LEIGHTON, 126 North 12th St., Philadelphia. Estimated cost, $130,000.

Philadelphia, Penn.—Preliminary plans are being prepared by Simon & Bassett, Arch., 1112 Chestnut St., for the construction of a 12-story office building at 19th and Chestnut St. for the Philadelphia Medical Society.

Baltimore, Md.—Parker, Thomas & Rice, Arch., is preparing plans for the construction of a 12-story office building at Liberty and Lexington St. for the Colsolidated Gas, Electric Light & Power Co. Estimated cost, $1,000,000.

✚Baltimore, Md.—The contract for the construction of the five-story Burford apartment building on Charles St. has been awarded to EDWARD BRADY & SON, Baltimore. Estimated cost, $60,000. Parker, Thomas & Rice is Arch.

Washington, D. C.—St. Patrick's Church plans to construct an institution on Wisconsin Ave. at Massachusetts Ave. Heights. Estimated cost, $800,000.

Charleston, W. Va.—W. S. Mason plans to construct a three-story apartment house. The estimated cost is $50,000. A. G. Higginbotham is Arch.

Grafton, W. Va.—(Official)—Bids will be received until noon, May 5, by W. M. Watkins, Secy. of Bd. of Education, for the construction of a high school. The estimated cost is $80,000 to $85,000. Frank L. Packard, Columbus, Ohio, is Arch. Noted Apr. 22.

✚Huntington, W. Va.—GEORGE WATTS has been awarded the contract for the construction of the Fall Festival Bldg. Estimated cost, $50,000.

Huntington, W. Va.—The Fifth Ave. Baptist Church plans to construct a church at an estimated cost of $100,000. M. L. Woods is Pastor.

St. Marys, W. Va.—An election will be held May 11 to vote on the question of issuing $50,000 in bonds for the construction of a high school for Pleasants County.

Greensboro, N. C.—An election will be held about June 1 to vote on the question of issuing $150,000 in bonds. The proceeds will be used for the construction of a county courthouse. Noted Feb. 4.

Salisbury, N. C.—The Directors of Livingston College plan to rebuild the dormitory for girls which was recently destroyed by fire. Estimated cost, $50,000.

Columbia, S. C.—Urquhart & Johnson, Arch., is preparing plans for the construction of a high school. The estimated cost is $125,000. Noted Mar. 18.

Columbia, S. C.—Plans are being prepared by Wilson & Sompayrac, Arch., for the construction of an addition to the Logan School. Estimated cost, $40,000. Noted Mar. 18.

Columbia, S. C.—The School Board has commissioned George E. La Faye, Arch., to prepare plans for the construction of a school for negroes. Estimated cost, $50,000. Noted Mar. 18.

★Greenville, S. C.—Bids will be received until noon, May 10, by the Greenville County Jail Commission for the construction of a jail. J. T. Lawrence is Arch. and J. I. West is Chn. of Comn.

Hartsville, S. C.—The Directors of Coker College plan to construct a general service building. The estimated cost is $120,000.

✚Atlanta, Ga.—The contract for the construction of a three-story apartment at Piedmont Ave. and 14th St. for the

North Park Investment Co. has been awarded to the MACKLE CONSTRUCTION CO. Estimated cost, $50,000.

Bellaire, Ohio—Plans have been prepared by C. W. Gates, Arch., Wheeling, W. Va., for the construction of a three-story building at 32d and Union St. for the Farmers' & Merchants' National Bank. Estimated cost, $40,000.

+Cincinnati, Ohio—The OHIO BUILDING & CONSTRUCTION CO., 1434 Main St., Cincinnati, at $120,097, has been awarded the contract for the construction of the Warsaw School on Glenway near Sunset Ave. Noted Mar. 25.

Cleveland, Ohio—Plans are being prepared by W. R. McCormack, Arch. of Bd. of Education, Rockwell and East Sixth St. for the construction of the High School of Commerce and Administration Bldg The estimated cost is $1,000,000. Noted Mar. 25.

Etna, Ohio—Bids will be received until noon, May 18, by S. Parker, Clk., Bd. of Education, for the construction of a grade and high school building. F S. Rusk and C. Sheets, 145 North High St., Columbus, are Arch.

Oxford, Ohio—Plans have been prepared by Louis G. Dittoe, Arch., 617 Provident Bank Bldg., Cincinnati, for the construction of a three-story, 91x231-ft. building to be known as the George G. Ogden Hall at the Miami University. Estimated cost, $260,000. Raymond M. Hughes is Pres.

Bloomington, Ind.—The Carnegie Library Board has purchased a site at Washington and Sixth St. for the construction of a library. Estimated cost, $40,000.

Whitestown, Ind.—Bids will be received by Walter Schooler, Trustee of the School Bd., until 1 p.m., May 15, for the construction of a high school.

Detroit, Mich.—The Detroit City Gas Co., Clifford St. and Washington Blvd., has purchased a site at Bagley Ave. and Clifford St. The company plans to construct an office building. Victor F. Dewey is Gen. Mgr.

Detroit, Mich.—The Delray Lodge, No. 177, Knights of Pythias, plans to build a three-story temple on Fort St., to cost $50,000. Varney & Varney, 307 Palmer Bldg., is Arch.

+Flint, Mich.—The contract for the construction of the Fairview Grammar School has been awarded to BURKE, SMITH & NELSON, Flint. Estimated cost, $50,000. Noted Feb. 4.

Lansing, Mich.—The State House of Representatives has passed a bill appropriating $60,000 for rebuilding the main building at the Michigan School for the Blind.

Chicago, Ill.—Plans are being considered by the County Commissioners for the construction of a county jail. The estimated cost is $2,000,000. Noted Apr. 8.

Chicago, Ill.—Jones, Linick & Schaefer, 110 South State St., is having plans prepared for a motion-picture theater on State St., to cost $600,000. Marshall & Fox, 38 South Dearborn St., is Arch.

Chicago, Ill.—John Burnham & Co., 39 South La Salle St., contemplates the building of a motion-picture theater and restaurant on State St., estimated to cost $1,000,000. Holabird & Roche, 104 South Michigan Ave., is Arch.

Rock Island, Ill.—Plans have been prepared by C. D. McLane, Arch., 301 Robinson Bldg., for the construction of a three-story, 42x120-ft. jail. The estimated cost is $75,000. Contracts will be awarded about May 25. Noted Mar. 4.

Eau Claire, Wis.—The citizens voted in favor of issuing $50,000 in bonds, the proceeds of which will be used for the construction of a city hall. Noted Mar. 11.

+Green Bay, Wis.—The Wisconsin Deaconess Hospital Association has awarded the following contracts for the construction of its $65,000 hospital: General contract, APPLETON CONSTRUCTION CO., Appleton, Wis.; heating, INDUSTRIAL HEATING CO., Milwaukee, Wis.; plumbing, GEORGE F. REEKE, Green Bay, Wis. P. T. Benton, 605 Manhattan Bldg., is Arch. Noted Mar. 4.

Green Bay, Wis.—Foeller & Schober, Arch., is preparing plans for a two-story, 50x100-ft. brick addition to the McCartney National Bank. The estimated cost is $75,000. Bids will be asked about May 10.

La Crosse, Wis.—(Official)—Bids will be opened about May 1 by Parkinson & Dockendorff, Arch., for the construction of a four-story, 45x46-ft., and a three-story, 41x48-ft. wing to the hospital of the Sisters of St. Francis. The estimated cost is $100,000. Noted Mar. 11 and 18.

Madison, Wis.—Plans have been prepared for the construction of an armory at Camp Randall. The estimated cost is $250,000. T. G. Wrightson, University of Wisconsin, is interested.

Milwaukee, Wis.—Bids will be received until 10:30 a.m., May 6, by the Department of Public Works for the construction of a municipal hospital for contagious diseases on Mitchell St., between 18th and 19th Ave. P. Braman is Deputy Comr. Noted Sept. 10.

Milwaukee, Wis.—Frank M. Harbach, Secy. of Bd. of School Dir., will receive bids until 8 p.m., May 11, for the completion of the Washington High School. The total cost is estimated at $325,000. Van Ryn & De Gelleke is Arch. Noted Feb. 11.

Milwaukee, Wis.—Armand D. Koch, Arch., Wells Bldg., will soon award the contract for the construction of a ten-story, 80x135-ft., steel and tile mercantile building for the Ticonic Investment Co. It is estimated to cost $250,000. Noted Nov. 5, 1914.

Waterloo, Iowa—The Forum Land & Improvement Co. was recently incorporated with a capital of $135,000. The company plans to construct a coliseum and exposition hall at 11th and Sycamore St. J. R. Sims is Secy.

Milaca, Minn.—Kirby T. Snyder, Arch., Plymouth Bldg., Minneapolis, has prepared plans for the construction of a high school at Milaca. The estimated cost is $70,000.

Milan, Minn.—Bids will be received by C. R. C. Blom, Clk. of the School Bd., until May 4 for the construction of a high school. C. E. Edwins, 911 Northwestern Bldg., Minneapolis, Minn., is Arch.

St. Paul, Minn.—The Legislature has passed a bill appropriating $500,000 for the construction of a building at Cedar and Central St. for the State Historical Society. The State Board of Control is in charge. C. H. Johnson, Capital Bank Bldg., is Arch. Noted Nov. 26.

Hastings, Neb.—(Official)—At a recent election the question of issuing $130,000 in bonds was defeated. The proceeds was to have been used for remodeling schools at Hastings. R. S. Ramsey is Secy. of Bd. of Education Noted Apr. 15.

Lincoln, Neb.—Plans are being prepared by Berlinghoff & Davis, Arch., 610 Security Mutual Bldg, for remodeling a 15-story building at 12th and O St. for the Security Mutual Life Insurance Co. Estimated cost, $175,000.

Omaha, Neb.—The State Senate has passed a bill appropriating $150,000 for the construction of a hospital at the Omaha Medical College.

Havre, Mont.—Bonds to the amount of $125,000 have been sold. The proceeds will be used for the construction of a courthouse. Noted Dec. 31.

Lewistown, Mont.—Plans are being prepared by Link & Haire, Arch., Billings, for the construction of a church, to cost about $50,000.

Miles City, Mont.—Official)—Bids will be received until 2 p.m., May 11, for the construction of a school. Estimated cost, $60,000. J. B. Collins is Clk. of School District No. 1. Custer County. Noted Mar. 11.

Columbia, Mo.—The Columbia Hotel Operating Co. plans to construct a hotel at Columbia. Estimated cost, $120,000. George D. Barnett and Fred W. Schramm, St. Louis, are interested.

Rolla, Mo.—Bids will be received by the Board of Education until 8 p.m., May 1, for the construction of a high school. H. H. Hohenschild, 310 Navarre Bldg., St. Louis, Mo., is Arch. C. M. Knapp is Pres. of Bd. of Education.

Beaumont, Tex.—A site has been purchased on Forsythe St. by Jefferson Lodge No. 55, Knights of Pythias, for the construction of four-story, 60x90-ft. brick hall, to cost $40,000. Walter J. Crawford is Chn. Bldg. Com.

+Dallas, Tex.—WALTON CONSTRUCTION CO. has been awarded the contract for the erection of a lodge building for Knights of Pythias of Texas, at an estimated cost of $73,600. W. Sydney Pittman is Arch.

Okmulgee, Okla.—(Official)—At the election recently held the question of issuing $150,000 in bonds for the construction of a county courthouse failed to carry. C. W. Gorce is County Clk. Noted Mar. 11.

Okmulgee, Okla.—(Official)—Bids will be received about May 15 for the construction of a high school. Smith, Rea & Lovitt, 602 Finance Bldg., Kansas City, Mo., is Arch. The estimated cost is $100,000. Noted Apr. 15.

Perry, Okla.—The citizens will vote May 18 on the question of issuing $100,000 in bonds, the proceeds to be used for the construction of a courthouse.

Denver, Colo.—(Official)—J. B. Benedict, Arch., has prepared plans for the construction of a three-story hospital with two 40x240-ft. wings. The estimated cost is $300,000. An election will be held May 18 to vote on the question of issuing bonds for this purpose. Noted Apr. 8.

Denver, Colo.—(Official)—An election will be held May 18 to vote on the question of issuing bonds for the construction of a municipal building to be used as fire and police headquarters. Walter L. Rice, City Hall, is Ch. of Bldg. Dept. and J. H. Mitchell is Secy. Noted Apr. 8.

Salt Lake City, Utah—(Official)—Bids will be received until May 5 by the Board of Education, for the construction of the first unit of the 26-room school at 13th E. and Seventh S. St. F. D. Rutherford is Arch. The estimated cost of the first unit is $82,000. Noted Apr. 8.

Port Townsend, Wash.—The Seattle, Port Angeles & Lake Crescent Railway Co. plans to construct terminals in Port Townsend. Estimated cost, $50,000. E. O. Reeder, Seattle, is Ch. Engr.

Grants Pass, Ore.—The date for receiving bids for the construction of a three-story courthouse has been extended to May 5 by the County Commissioners. Estimated cost, $100,000. E. E. McClaren, 525 Lumber Exchange Bldg., Portland, is Arch. Noted Mar. 4 and 25.

Portland, Ore.—Construction work will soon begin on the building at Fifth and Stark St. for the First National Bank and the Security Savings & Trust Bank. Estimated cost, $400,000. Noted July 30, Sept. 10 and Dec. 3.

+Portland, Ore.—A. C. MEYER, Portland, has been awarded the contract for the construction of a four-story, 90x100-ft. building at Broadway and Davis St. for Gay Lombard. Estimated cost, $40,000.

The Dalles, Ore.—The Knights of Pythias are planning to construct a three-story building. Estimated cost, $50,000.

Los Angeles, Calif.—The Bellevue Hospital Corporation, recently incorporated, plans to build a hospital, to cost $60,000. G. T. Renaker is interested.

Oakland, Calif.—The trustees of the Second Church of Christ, Scientist, have awarded the contract for the construction of a church to the VAN-SANT-HOUGHTON CO., 503 Market St., San Francisco, at $63,000.

INDUSTRIAL NOTE

The Wyckoff Pipe & Creosoting Co., Inc., has removed its offices from 50 Church St. to the Forty-Second St. Bldg., 30 East 42d St., New York, N. Y.

New Engineering and Contracting Co.—John W. Cowper, for many years Vice-President of the Lackawanna Bridge Co., Buffalo, has resigned to take the Presidency of the John W. Cowper Co., Inc., recently organized, to do a general engineering and contracting business with offices in the Fidelity Bldg., Buffalo. F. D. Huntington, Vice-Pres., was for some years connected with the J. G. White Co., in its English contract department and more recently with the Brazil Rys. The new company will specialize in building contracts of all kinds.

BUSINESS STEADILY INCREASING IN VOLUME

Every indication points to a period of prosperity for this country, the like of which has never been seen. Increased business is slowly being built on the foundation of unusual returns to agricultural interests. The self-denial of the last few months, following a period of personal retrenchment over a series of years, has resulted in the accumulation of a vast fund which is now awaiting investment. The financial condition of the country was probably never on a more stable basis, nor were there ever such opportunities for the extension of credit. In many lines there has been no increase in business felt, but in others, particularly those related to munitions of war, the business booked has been phenomenal.

A large part of the increased business is due to the unbounded confidence of men of large affairs who are willing to risk their time and capital in new enterprises. The machine tool builders have enjoyed a period of activity they scarcely dared to hope for, and this is extending throughout the lines of metalworking machinery.

The Construction News Department last week published more items of new construction than ever before in the history of the paper. A great many of these reports were projects, but they indicate that construction work will soon go ahead.

Every effort was made by bankers and financial institutions to keep down construction work to the lowest possible point from early last spring until recently. Now that financial institutions have a plethora of money they have been anxious to let it go out on short-term loans. Since this is impossible in many cases, they are letting down the bars for long-time investments. It is natural, under such circumstances, that there should be more projects developed than before in many months. While there is no likelihood of there being a surplus of work for some time, it is more than possible that it will be difficult to secure labor later in the year to complete much of the work under way.

It is estimated that it will be impossible to operate the steel mills to full capacity because of the shortage of raw labor and the inability to secure more from abroad. If such is the case in the steel trade, it will appear much more in the construction field.

It was said a few years ago by one versed in business, that the price of copper served as more of a barometer of trade activity than the price of pig iron. Events since that time, while they have not proven such a theory, have at least showed that there is substantial ground for the statement. If this is true, we are on the threshold of a veritable boom, because copper is now at a higher price than at any time during the last eight years, and the demand continues unabated.

Sales of pig iron in the last two months were about three times as much as during the first two months of the year.

Building returns show a steady gain in almost all sections of the country except New England and the Pacific Coast States.

Orders for munitions of war are coming in so fast that most of the shops able to do work of this character have all they can do. The activity is stimulated all along the line for what one shop is unable to manufacture is turned over to another.

Some long delayed projects are being reopened—the Muscle Shoals Development in Alabama, the Municipal Bridge at St. Louis, the Transit System in Philadelphia and a terminal in Chicago.

LABOR

A few strikes have occurred, and the building strike in Chicago was of some importance. In general, however, labor seems to be awaiting a more propitious time before making further demands. There is a general impression that a shortage of rough labor will develop later in the year unless more workers come from the south of Europe, which seems highly improbable at this writing.

CEMENT, LIME AND BRICK

Portland Cement—Some extremely low prices have been made in the New York market. It is reported on excellent authority that $1.19 has been done. This is equivalent to about 53c. per bbl. in bulk at the mill. How any of the mills which would sell at a figure like that can make cement anywhere near that price is a question. It is probably below cost. Other mills are quite generally asking $1.23, but one important interest is getting $1.31. To describe the market as far as New York and vicinity are concerned would be to say that is is spotty. There is no other term which can readily be applied to it. Dealers are stocked up and have large supplies on hand. Sellers of reinforcing steel report that they are busier figuring on estimates and that the outlook is very satisfactory. Cement manufacturers can see no hope in the future. It is perhaps the dullest time in the cement trade that there has been in the last four years. Unless signs fail, the cement industry will pick up very shortly, and the gain will probably be more rapid than in other lines of industry. Some concerted effort has been made to establish export trade, but without any particularly great success. In New Jersey quite a little cutting is evident, particularly for one mill. In the West prices are fairly strong.

Quotations for cement, less the charge of 40c. made for bags, are as follows:

Chicago	$1.11	Boston	$1.46
Detroit	1.19	Cleveland	1.16
Jersey City	0.74	Duluth	1.32
New York	0.82	Minneapolis	1.30
St. Paul	1.30	Pittsburgh	1.00

Brick—The market for brick shows more activity and prices are slightly firmer. As yet there is not enough business to seriously test quotations, and it remains to be seen whether an attractive offer would not bring somewhat lower prices. The delivery of brick to the New York market has been much larger so far this year than in the corresponding period last year. Hudson River common in New York are quoted at $5.75 to $6. In Newark, from yard, the price is $6.75.

Crushed Stone—Business is light, with no change in price. Sellers of crushed stone are not anxious to load up with long-time contracts at these prices, but on the other hand, if they do not take the business, some one else will. Some contracts are being made at the prevailing quotation, which is comparatively low, at 95c. for 1½-in. stone, $1.05 for ¾-in. stone.

Gravel—The prices of gravel are lower, and extremely low quotations have been made on subway gravel to stimulate business. Gravel which will pass Public Service Commission specifications, commonly known as subway gravel, sells at 95c. to $1. For 1½-in. gravel the price is 80c., while ¾-in. commands 85c. These prices are for barge lots of 500 cu.yd. delivered alongside of docks, New York.

Lime—Prices are somewhat easier, standard 300-lb. special finishing selling at $1.55 to $1.60, Eastern common at $1.15.

IRON AND STEEL

Pig Iron—After the excitement caused by the Buffalo buying movement, reported last month, pig iron was quiet. The amount of business that was uncovered by the reduction is considered a sign that general conditions are much more satisfactory than has appeared on the surface. In fact since that time and during all of April the character of the business done both by northern and southern furnaces indicated a healthy tone underlying the situation. Numerous orders were forthcoming. Prices remained normal except in the instance of the Birmingham furnaces selling at a 50c. reduction on one special lot of orders amounting to 100,000 tons, generally understood to be for speculation, although some mystery seems to be attached to the transactions. During April pig iron sales in all quarters amounted to about 550,000 tons, the bulk of the large orders being placed during the last week of the month. About one-half of the recent sales were made by southern furnaces at an advance of 25c. to 50c. per ton, but mostly at minimum prices as in other sections of the country. Nearly all of the transactions reported were for delivery over the second half of the year. Some improvement in buying of small lots for nearby shipment was to be noted. During March and April consuming and speculative interests purchased about 1,150,000 tons, while during January and February the total sales were only about 425,000 tons.

Prices for lots of 100 tons or over at the points named, are as follows: Cincinnati, Southern Foundry No. 2, $12.50 to $12.75; Cincinnati Northern Foundry No. 2, $14 to $14.50; Cincinnati Northern Foundry No. 3, $13.75 to $14. In New York quotations are as follows: No. 2X Northern Foundry, $14 to $14.25; No. 2 plain Northern Foundry, $13.75 to $14; No. 2 Southern Foundry delivered, $14 to $14.25. In Birmingham Southern Foundry No. 2, $9.50 to $9.75; Chicago Northern Foundry, $13.25 to $13.75; Pittsburgh bessemer iron is $14.55 and basic $13.45 including the 95c. freight rate from the valley to the Pittsburgh district.

Steel Rails—It was generally expected in the steel trade that the Pennsylvania R.R. would let its contracts for 160,000 tons of rails, or thereabouts, shortly after the bids were asked on about $25,000,000 worth of equipment, which announcement was made near the middle of the month. The company, however, did not make any move in that direction, and rail business has been extremely quiet. There seems to be no reason why the railroad should be in any haste to place contracts, as the mills have little or nothing to do and there is no danger that deliveries will be long delayed, even should orders go in late in the season.

The Chicago Rys. placed an important order involving 20,000 tons of girder rails with the Lorain Steel Co., and the Atlantic Coast Line bought 6000 tons, which went to the Tennessee Coal & Iron Co. The Burlington bought 2000 tons, and the Buffalo, Rochester & Pittsburgh about the same amount.

It is recognized that the railways have considerable tonnage left over from last year. It is more or less generally understood that there has been considerable bickering regarding the price. The mills have steadfastly refused to make any concessions, nor is it likely that they will. The Public Service Commission of New York will soon put out its specifications for 5000 tons of 100-lb. rails, a Western railway has purchased 5000 tons. For the first time in several years there has been a fairly spirited demand for bolts, spikes, tieplates, and other track fastenings. This has had no effect on prices as yet, all of which are low. The standard prices for lots of 1000 tons are as follows: Standard sections of bessemer, $28; open hearth, $30; both per net ton and f.o.b. Pittsburgh; girder rails in 30-ft. lengths are $36.40 per gross ton, and in 60-ft. lengths $38.40 per gross ton, both f.o.b. New York. Other quotations f.o.b. Pittsburgh for large lots, the price being given in cents per pound, are as follows: Standard sections, 1.25c.; 25 to 30 lb., 1.15c.; 15 to 20 lb., 1.20c.; 12 to 18 lb., 1.25c.; 8 to 12 lb., 1.30c. Relaying rails, standard sections both Pittsburgh and Chicago, are held at $23 to $24. Light relaying rails can be had at around $22 to $22.50 Chicago.

Structural Shapes—The price of 1.20c. is generally asked, although it is cut frequently. The favorite method is to offer concessions on fabricated steel work. Some extremely low prices have been made, particularly for subway work in New York and one or two apartment houses, which developed unusually keen competition. One of the largest jobs is for 24,000 tons of fabricated work for the approach to the Municipal Bridge, St. Louis. This matter has been dragging through the courts and various injunctions for several years, but now bids fair to be completed. Numerous jobs have been awarded within the last month; one of the large ones outside of the subway work is for the Frick Arcade in Pittsburgh, involving 6000 tons, but most of the work has been small. Competition, however, has been particularly keen. Quotations are slightly firmer; while the base price is $1.20 yet there is some question whether this has been strictly maintained. For I-beams 3 to 15 in., channels 3 to 15 in., angles 3 to 6 in., T's 2 to 3 in. and over, $1.20. Other quotations quote I-beams over 18 in., H-beams over 18 in., channels over 15 in., angles over 4 in., $1.25. T's $1.25, deck beams and bulb angles $1.55, handrail T's $2. Cutting to specified lengths is charged at the following rates: 3 ft. to 2 ft. inclusive, 25c. per 100 lb.; 2 ft. to 1 ft. inclusive, 50c. per 100 lb.; less than 1 ft., $1.55. No charge is made for cutting to lengths over 3 ft. In Chicago, the base price for mill deliveries is $1.39. In Philadelphia, the base price is $1.31, and in New York the base price is $1.36. In San Francisco quotations vary from $2 to $2.05. All these prices are per 100 lb.

Plates—No contracts have been taken during the month for shipbuilding work, but the plants seem to be fairly busy. There is room, however, for considerable improvement in this direction. The price is more firmly held than at any time within the last few months; but occasional concessions are made, amounting to a dollar per ton, from the regular quotation of $1.20 Pittsburgh. This is equivalent to $1.29 Chicago, $1.30 to $1.35 Philadelphia, and $1.32 to $1.37 New York. Of particular importance was the announcement that the Pennsylvania R.R. would buy or build in its own shops more than 16,000 freight cars, nearly 200 locomotives, and 181 all-steel passenger cars. The outlay for this equipment will aggregate $25,000,000. This is probably the largest equipment order or inquiry ever put out at one time, although last year the New York Central purchased 12,000 cars and the previous year the Pennsylvania bought 12,300 and the Harriman lines over 13,000. It is semi-officially announced that this order is simply to replace equipment, either worn out or obsolete, on the line, and does not really make any addition to the carrying capacity of the railway, except where cars of larger capacity are substituted for comparatively small cars. The Chicago & Northwestern has an inquiry in the market for 2000 box cars, the International Great Northern one for 1000 cars, and some small orders for various kinds of equipment are on the market.

Cast-Iron Pipe—The market is spotty. In Birmingham and Chicago, prices are slightly lower, but in New York somewhat higher. Philadelphia is in the market for about 10,000 tons of pipe, and Newark has a large inquiry in the market, but in general, cast-iron pipe is dull. One reason for this is the heavy buying in January and February, and comparatively little new work is coming up just at present. There is, however, a great deal of projected work, which will probably mean a largely increased demand for pipe later in the year. Prices for cast-iron pipe are as follows, per net ton: In Birmingham, 4 in. and larger, $19.50; in New York, 4 in., $21.50 to $22; 6 in., $20.50 to $21; in Chicago, 6 to 12 in., $24., larger sizes, $23; in Cleveland, 6 in. and larger, $24. Gas pipe can be had at $1 per ton higher in all markets.

Pipe—A few inquiries are coming out, but there have been no large orders, except 19 miles of 8-in. and 12 miles of 12-in. line pipe. Galvanized pipe is in fair demand, but prices are so high that it is only purchased when the purchaser has a good idea of where it can be sold. It is generally conceded that just as soon as the abnormal conditions incident to the war are over, galvanized pipe will be materially cheaper. In small sizes, pipe is not in very great demand, but jobbers and retailers are both allowing their stocks to remain at practically the minimum, though with any return of a good demand, the mills should quickly feel it. Discounts are unchanged, and for orders amounting to a carload or more, are as follows:

	Black	Galvanized
¾- to 2-in. steel, butt welded	80%	69½%
2½- to 6-in. steel, lap welded	79%	68½%
7- to 12-in. steel, lap welded	77%	66½%

At these discounts, the net prices of pipe per foot, in large lots, at Pittsburgh are as follows:

Diameter	Cents		Diameter	Cents	
	Black	Galvanized		Black	Galvanized
¾-in.	2.20	3.50	5-in.	31.00	47.00
1-in.	3.40	5.20	6-in.	40.40	61.00
1¼-in.	4.60	7.00	7-in.	55.00	80.00
1½-in.	5.50	8.40	8-in.	57.50	84.00
2-in.	7.40	11.15	9-in.	79.50	$1.16
2½-in.	12.20	18.60	10-in.	95.00	$1.38
3-in	16.10	24.20	11-in.	$1.06	$1.55
4-in.	22.90	34.50	12-in.	$1.17	$1.70

Sheets—The market is extremely uneven. Some of the independent mills are operating to full capacity, and those of a leading consumer to about 70% of maximum capacity. The demand for galvanized sheets is fair, but the price is so abnormal that no one wishes to lay in stocks nor contract for deliveries any distance ahead. This means that the market is subject to violent fluctuations at times, incident to the rise and fall of the spelter market. During the month a cut of $3 per ton was made in galvanized sheets, which was quickly followed by putting the price back to the old basis. Black sheets are in larger demand than galvanized, and there is no doubt that the high price of galvanized is restricting consumption. The following quotations are for large lots of sheets, Pittsburgh, and small lots from store, New York:

	Cents per Pound			
	Large lots Pittsburgh		Warehouse delivery New York	
	Black	Galv.	Black	Galv
No. 10	1.55	2.40	....	....
No. 12	1.55	2.50	....	....
No. 14	1.60	2.50	....	....
No. 16	1.65	2.60	2.35	3.25
Nos. 18 and 20	1.70	2.80	2.40	3.40
Nos. 22 and 24	1.75	2.90	2.45	3.55
No. 26	1.80	3.05	2.50	3.70
No. 27	1.85	3.25	2.55	3.85
No. 28	1.90	3.40	2.60	4.00

Steel Sheet Piling—Prices are practically without change at 1.50 to 1.60c. per lb., f.o.b. Pittsburgh.

Wire Rope—Manufacturers of rope report that business is somewhat better, but still not up to normal. Discounts are unchanged at 47 and 5 per cent., list, for galvanized, and 55 and 5 per cent. for bright. At these discounts the net prices of wire rope at the mills are as follows:

Diameter in Inches	Price per Foot		
	Cast Steel	Crucible Steel	Plow Steel
2½	$0.75	$0.90	$1.07
2¼	0.61	0.73	0.86
2	0.47	0.57	0.67
1¾	0.39	0.49	0.58
1½	0.28	0.34	0.40
1¼	0.20	0.24	0.27
1	0.13	0.15	0.18
¾	0.08	0.09	0.11
⅝	0.06	0.07	0.08

Freight Rates—The freight rates on finished steel products from the Pittsburgh district, including plates, structural shapes, merchant steel, bars, pipe fittings, plain and galvanized, wire nails, rivets, spikes, bolts, black sheets (except planished), chain, etc., are as follows, in cents per 100 lb.: Boston, 18.9c.; Buffalo, 11.6c.; Baltimore, 15.4c.; Cleveland, 10.5c.; Cincinnati, 15.8c.; Chicago, 18.9c.; Denver, Colo., 68.6c.; New Orleans, 30c.; New York, 16.9c.; Philadelphia, 15.9c.; St. Louis, 23.6c.; Minnesota and St. Paul, 32.9c.; Pacific Coast (all rail), 80c.

Merchant Steel—Jobbers have had more business within the last month than in several months past. The dealers have not advanced their quotations, and consumers who have formerly dealt in carload lots are now more willing to buy in small quantities and wait to see how the market will develop. Prices for small lots from jobbers' store of bar iron, steel angles, shapes, are as follows:

	Cents Per Pound
Refined iron:	
1 to 1⅞ in., round and square	1.85
1½ to 4 in. x ⅜ to 1 in.	1.85
1½ to 4 in. x ¼ to 5/16 in.	2.05
Norway bars	3.20
Burdens bar iron	3.15
Soft steel:	
¾ to 3 in., round and square	1.85
1 to 6 in. x ⅜ to 1 in.	1.85
1 to 6 in. x ¼ and 5/16	2.00
Rods—⅝ and 11/16 in.	1.95
Bands—1½ to 6x3/16 in. to No. 8	2.15
Beams and channels—3 to 15 in.	1.90
Angles:	
3 in. x ¼ in. and larger	1.90
3 in. x 3/16 in. and ⅛ in.	2.35
1½ to 2¾ in. x 3/16 in. and thicker	2.00
11½ to 2½ in. x ⅛ in.	2.10
1 to 1¼ in. x 3/16 in.	2.10
1 to 1¼ in. x ⅛ in.	2.15
Tees:	
1½ to 2½x¼ in.	2.05
1½ to 2½x3/16 in.	2.15
3 in. and larger	1.95

Old Materials—From all parts of the country similar reports are current. The market for old materials is lower; there is less doing than a month ago. In New York quotations have not been revised so drastically as in other parts of the country, but prices for pipes and flues are considerably lower. Quotations for scrap in that market, per gross ton, are as follows:

	Per Gross Ton
Heavy-melting steel scrap	$8.75 to $9.00
Pipes and flues	7.25 to 7.75
No. 1 railroad wrought	10.50 to 11.00
Stove plate	7.75 to 8.00
No. 1 machinery cast	10.50 to 11.00
Wrought turnings	6.25 to 6.50

In Chicago, quotations are lower than a month ago. There seems to be scarcely anything doing. Stocks are accumulating, and the railroads wish to turn their scrap into money, even at prevailing low prices. The following quotations are current for scrap in Chicago:

	Per Gross Ton
Heavy-melting steel scrap	$9.25 to $9.50
	Per Net Ton
No. 1 railroad wrought	$8.50 to $9.00
No. 2 railroad wrought	8.00 to 8.50
No. 1 cast scrap	9.00 to 9.25
Pipes and flues	6.75 to 7.25
Agricultural malleable	6.25 to 6.75
Railroad malleable	7.75 to 8.25

In Pittsburgh the only exception to the general downward revision is an advance of 25c. per ton in rerolling rails. There is very little inquiry in that market, particularly in the steel mills.

	Per Gross Ton
Heavy-melting steel scrap	$11.75 to $12.00
Rerolling rails	12.00 to 12.50
No. 1 foundry cast	11.75 to 12.00
Old car wheels	11.00 to 11.50
Machine shop turnings	7.75 to 8.00
Railroad malleable	9.75 to 10.00

Wire—Demands from abroad are neither so heavy nor so insistent as a month ago. The high price of spelter is limiting the production of galvanized wire. The advance to $1.60 which was made during the month in wire nails was not held. Annealed fence-wire sells at $1.35 to $1.40, galvanized wire in some cases $2.10 to $2.20; painted barbed wire, $1.60, all f.o.b. Pittsburgh. Woven wire fencing is quoted at 72% discount for carloads, 71% off list in 1000-rod lots, and 70% for small lots f.o.b. Pittsburgh.

Coke—An order for about 20,000 tons furnace coke for the year commencing July 1 has been closed. Another interest is asking prices on 15,000 tons per month, and still another on 12,000 tons per month. Prices continue low, and for prompt shipment $1.50 to $1.60 can be done. On contracts up to July 1 the price is $1.65, and for delivery during the remainder of 1915, $1.75. Foundry coke sells at $2 to $2.25 per lb., $2.15 to $2.30 on contract.

Swedish (Norway) Iron—A more decided activity is reported in the demand for this material. Little difficulty has been experienced in securing supplies, still there has been a slight increase in price. In general, the consumer's price per 100 lb. is quoted at $3.75 to $4. However, very large orders can be had at $3.25 at New York. On the other side, the mills are reported to be very busy and a rumor, to the effect that Germany has placed some large war orders, is current.

REINFORCING MATERIALS

Bars, Concrete Reinforcing—Inquiries are frequent, but only a small part of these has been turned into actual orders. The prospects are excellent and it would not be surprising to some if bars were scarce later in the year. The price is steady at 1.20c., Pittsburgh.

	Cents per Pound		
Size	Mill Shipments Pittsburgh	*Warehouse Pittsburgh	Delivered from *Warehouse New York
¾-in. and larger	1.20	1.55	2.00 to 2.05
⅝-in.	1.25	1.70	2.05 to 2.10
½-in.	1.40	1.85	2.20 to 2.25
⅜-in.	1.50	1.95	2.30 to 2.35
¼-in.	1.80	2.25	2.65 to 2.70

*Bars from warehouse are cut to desired length without extra charge.

Triangle Mesh—Prices continue steady and there is a fair inquiry:

PRICE PER 100 SQ.FT.

		Plain Material		Galvanized

42	0.151	1.55	1.88	1.72	2.05
†43	0.101	1.10	1.34	1.23	1.46

†This material is made in regular widths of 18, 22, 26, 30, 34, 42, 46, 50, 54 and 58 in. Standard lengths in rolls are 150, 250, 300 and 600 ft.

Copper—The continued demand by the belligerent countries for war materials has maintained the market in copper, and on the whole the position of copper remains strong. During the past month there have been occasional declines in the prevailing high prices but they have been of a temporary nature and quickly recovered. Transactions have been heavy and production has increased. Surplus stocks moreover have vanished—indicating larger demand than supply. Speculation has entered too, to such an extent that prices have been affected mostly in favor of advances. Electrolytic has sold during the month as high as 19c. although among the trade it is generally understood that orders at that price have not been numerous. The prevailing prices at the close of the month was at 18½c. for electrolytic and 22c. for ordinary grades of Lake and 23c. for special brands. More or less irregularity prevailed at London which was reflected in the local market toward the end of the month. During the first quarter of this year imports amounted to 35,000 tons against 41,700 last year, for the same period. During April imports at Atlantic ports have been 3725 tons of copper, 1515 tons of Matte and 5925 tons of ore. Exports during April amounted to 15,473 tons, 4431 being exported during the last week. Prices are expected to be well maintained during the life of the war as the market absorbs production as fast as it can be increased. Moreover German interests have bought copper for shipment immediately after the end of the war.

Tin—The arrival of several large cargoes of tin during the past two weeks has relieved the stringency that existed a month ago in the tin trade. Prices have declined appreciably and dealers are able to fulfill contracts without fear of a shortage of stocks. April arrivals at ports in the United States were 4310 tons and deliveries into consumption were reported at 3200 tons of which 2100 tons were delivered from Atlantic ports and 1100 tons from Pacific ports. Stocks in warehouse and landing April 30 were 3041 tons. Cargoes reported afloat for the United States ports amounted to 2200 tons. Spot tin was held at 39½c. in the open market, with futures quoted at lower prices July being sold at 35½ and August at 35c. The decline since the first of April amounted to about 9c.

Lead—Prices for lead have remained steady with a fair demand. Good merchantable brands are quoted on call New York spot, 4.20c.; East St. Louis, 4.15c., in lots of not less than 50,000 lb.

Spelter—The market during the past month has been erratic with a marked tendency upward although it was more or less nominal. Transactions were not large but shipments abroad were responsible for some reduction in stocks. Spot was quoted at New York at 14½c. and at East St. Louis 14c. These prices are about 7c. per lb. higher than one year ago.

Old Metals—Selling prices of old metals are as follows:

	Cents per Lb.
Copper, heavy and crucible	16.00 to 16.50
Copper, heavy and wire	15.25 to 15.50
Copper, light and bottoms	13.25 to 13.50
Heavy machine composition	12.50 to 13.00
Brass, heavy	10.25 to 10.50
Brass, light	8.00 to 8.25
Clean brass turnings	10.00 to 10.25
Composition turnings	10.75 to 11.00
Lead, heavy	3.80
Lead, tea	3.50
Zinc, scrap	8.00

Miscellaneous Metals—The prices of various metals from jobbers' warehouse, New York, are as follows:

	Per Pound
Brass tubes, iron-pipe sizes:	
½ in.	25.00
¾ in. to 3 in.	24.00
3½ in	24.00
4 in.	25.00
Brass rods	20.25
Brass sheets	20.75
Solder	29.00
Copper tubes	25.00
Zinc sheets	15.00 to 15.25
Copper sheets	23.00
Pig tin (five-ton lots, cash)	45.00
Bismuth	$3.75 to $4.00

CLAY PRODUCTS

Sewer Pipe—Indications of a general improvement in the market have been visible. Inquiries resulting in fair sized orders come from the arrival of increased activities in the construction field. On 3-in. to 24-in. sizes, the discount has slightly increased, being 80% off list; on other sizes the discounts remain unchanged as follows: 27 and 30 in., 70%; 30 and 36 in., 65%. At these discounts, prices are as follows:

PRICE OF SEWER PIPE PER FOOT

Size		Size	
3-in.	$0.05	18-in.	$0.33
4-in.	0.05	20-in.	0.45
5-in.	0.08	22-in.	0.60
6-in.	0.08	24-in.	0.65
8-in.	0.11	27-in.	1.35
10-in.	0.16	30-in.	1.65
12-in.	0.20	33-in.	2.20
15-in.	0.27	36-in.	2.45

Flue Lining—Only a slight improvement has been noticed during the past month, and discounts remain unchanged at 80% off list. At this rate prices are as follows:

FLUE LINING PRICE PER FOOT

Size	Weight in Lb.	Price per Ft.	Size	Weight in Lb.	Price per Ft.
4½x8½-in	14	$0.07	8½x18-in	45	$0.18
4½x13-in	20	0.09	13x13-in	45	0.17
7½x7½-in	15	0.08	13x18-in	57	0.24
8½x8½-in	18	0.09	18x18-in	75	0.40
8½x13-in	28	0.13			

MISCELLANEOUS

Railway Ties—Business is reported as being very quiet. The railroads refuse to place any orders at present, the general tendency being to reserve funds. First class standard ties, 7x9 in. by 8 ft. 6 in., have sold at 73c.; 6x8 in. by 8 ft. are quoted at 60c. These prices are f.o.b. New York.

Lumber—Wholesalers of lumber have slightly more confidence in the situation than three months ago, but the trade is undeniably dull. Hemlock shows a little improvement. On the Pacific Coast things are extremely dull, and not as much business is being booked for shipment through the Panama Canal as was expected. North Carolina pine shows some improvement, and in long-leaf yellow pine there is real betterment in the demand. Eastern spruce shows a little more activity, though prices continue low, 2x4-in. in 18- and 20-ft. lengths selling at $26; merchantable yellow pine from 8- to 12-in. at $25, while 14- and 16-in. sells at $32. Yellow pine is very dull. Mixed carloads of hemlock, New York, sell at $19.50 to $20.

STEADY INCREASE IN EASTERN BUILDING OPERATIONS

Continuing the gain of the previous months, 17 cities in the Eastern States show a gain of 23% in the estimated cost of operations from plans filed in April compared with the same month last year. In the same cities in the first four months of the year the gain was about 14%. In the South the ill-effects of low-priced cotton are wearing off, for the loss in seven cities in April was 17% and 42%. At this rate the return should soon be far more satisfactory.

Excellent returns from a few cities in the Middle West fail to bring the total for 14 cities up to that of a year ago. The loss amounted to 9% for the first four months of the year. The loss in these cities was 14% or $4,300,000.

Building returns from about 30 cities, which have not as yet been received, will be published in the next issue.

RAILWAYS

New Jersey—Philadelphia & Reading Ry.—In accordance with a decision of the Board of Public Utility Commissioners, this company is preparing plans for the construction of a tunnel at Bryn Mawr Ave., Trenton, N. J. Estimated cost, $30,000. C. Dillenbeck, Philadelphia, Penn., is Ch. Engr.

Pennsylvania—Western Maryland Ry.—This company has arranged for the use of the tracks of two lines of the Baltimore & Ohio R.R., one from Rockwood, Penn., for about 20 miles into Somerset County and the other from Connellsville, Penn., to Fairmont, W. Va. In each case the company will construct several spurs to coal mines. H. R. Pratt, Baltimore, Md., is Ch. Engr.

Virginia—Mt. Airy & Eastern Ry. of Alexandria—This company has been incorporated to construct a 30-mile extension in Patrick County of the line from Mt. Airy, N. C., to Kibler, Va. Joseph C. Sheehy, Washington, D. C., is Pres.

Virginia—Richmond & Eastern Ry.—This company has been incorporated to construct a railway from Richmond to Ft. Lee, about five miles. The incorporators are: John C. Robertson, J. Taylor Robertson, K. T. Crawley, Haskins, Hobson and C. B. Anderson, all of Richmond.

West Virginia—Kanawha, Glen Jean & Eastern R.R.—Plans are being considered by this company for the construction of a two-mile extension to its line from Glen Jean, W. Va. Thomas Nichol, Glen Jean, is Gen. Supt. and Ch. Engr.

Georgia—Central of Georgia Ry.—This company plans to start work soon on the extension of its line from Rossville to Alton Park, Ga. C. K. Lawrence, Savannah, is Ch. Engr.

Georgia—Midland Ry.—This company is being organized for the purpose of constructing a railway from Savannah to Milledgeville, Ga., about 150 miles. The incorporators are W. M. Exley, J. D. Johnson, W. H. Webb, L. M. Mikel, O. D. Kessler, K. I. Helmey, C. M. Leitner and C. A. Johnson, all of Springfield, Ga.

Alabama—Alabama, Tennessee & Northern Ry.—Plans are being considered by this company for the extension of its line from Reform, Ala., to a connection with the Illinois Central R.R., about 65 miles. William Toxey, Mobile, Ala., is Ch. Engr.

Tennessee—Chesapeake & Ohio Ry.—Plans have been prepared by this company for the construction of a railway from Greenville to Kingsport, Tenn. F. I. Cabell, Richmond, Va., is Ch. Engr.

Kentucky—Louisville & Nashville R.R.—The construction of a 23-mile extension from McRoberts to Elk Horn, Ky., is contemplated by this company. W. H. Courtenay, Louisville, Ky., is Ch. Engr.

Ohio—Baltimore & Ohio R.R. Co.—This company has purchased 920 ft. of frontage along its right of way in Cincinnati, Ohio, for the purpose of establishing yards and trackage. A. M. Kinsman, Cincinnati, is Engr. Const.

North Dakota—Great Northern Ry.—According to press reports this company will soon start work on the construction of its proposed line from New Rockford, N. D. A. H. Hoagland, St. Paul, Minn., is Ch. Engr.

Wyoming—Northern Wyoming R.R.—This company has been incorporated to construct a railway to connect Sheridan, Big Horn and Beaver Hills. The incorporators are: George L. Forsyth, Olaf Nelson, D. P. B. Marshell, H. Batchelor and E. Forsyth. Noted Apr. 1.

Washington—J. E. Morrison, Bellingham, Wash., has appeared before the Chamber of Commerce of that city, asking that the sum of $250,000 be pledged to cover right-of-way expense in connection with the proposed transcontinental line from Hudson Bay to Puget Sound.

Oregon—The city of Roseburg will hold a special election on June 3 at which the question of a $300,000 bond issue will be submitted to the voters, the proceeds to be used in constructing a railroad from the city to the boundary of the national forest, a distance of 30 miles. Noted Apr. 29.

California—Atchison, Topeka & Santa Fé Ry.—An expenditure of $75,000 is contemplated by this company for track improvement near Corona, Calif. F. M. Bisbee, Amarillo, Tex., is Ch. Engr. Western Lines.

✚British Columbia—Canadian Pacific Ry.—Foley Bros., Vancouver, general contractor for the new tunnel being built near Glacier, B. C., for this company, has awarded to the BATES & ROGERS CONSTRUCTION CO., Vancouver, the contract for lining the tunnel, at an approximate cost of $300,000. The tunnel will be five miles long, and will cost approximately $5,000,000.

ELECTRIC RAILWAYS

Methuen, Mass.—The Bay State St. Ry. Co. has applied to the City Council for a franchise to extend and improve its lines in Methuen. R. S. Goff, Boston, is Vice-Pres. and Gen. Mgr.

Mayville, N. Y.—The Columbus Mayville Ry. Co. has applied to the Council for a franchise to construct an electric railway in Mayville. C. P. Northrup, Corry, Penn., is Pres.

White Plains, N. Y.—According to press reports the Westchester & Northern Ry. Co. will soon start work on the construction of an electric railway from the terminus of the New York, Westchester & Boston R.R. to Danbury, Conn.

Grove City, Penn.—The Butler & Grove City Ry. Co. plans to start work soon on the construction of an electric railway from Grove City to Slippery Rock. James A. Jolliffe, Grove City, is Mgr. Noted June 25.

Hershey, Penn.—Plans are being made by the Hershey Transit Co. to start work about May 15 on the construction of an extension from Hershey to Jonestown. J B. Lightheiser, Hershey, is Gen. Mgr.

Petersburg, Va.—The Petersburg & Appomattox Ry. Co., recently granted a franchise to construct an electric railway from Petersburg to City Point, about 10 miles, plans to start work within two months. W. W. La Prade is Ch. Engr. Noted Apr. 8 and 29.

✚Jacksonville, Fla.—The Commissioners of the Port have awarded the contract to A. J. MILLS, Jacksonville, to construct a railway to connect the municipal docks Noted Dec. 3.

Cleveland, Ohio—The Cleveland Electric Ry. Co. is preparing to extend its Payne Ave. line. George L. Radcliffe, Cleveland, is Gen. Mgr. Noted Apr. 8.

Battle Creek, Mich.—The Battle Creek, Coldwater & Southern Ry. Co. will soon award contracts for the construction of an electric railway to connect Battle Creek, Coldwater and Girard. T. A. Hilton, Coldwater, is Pres.

Kankakee, Ill.—The Kankakee-LaFayette Electric Ry. Co. is preparing to start work soon on the construction of an electric railway from Kankakee to LaFayette. O. L. Brown is Gen. Mgr. Noted Feb. 4.

La Salle, Ill.—The La Salle Ry. Co. is making surveys for the construction of an electric railway from Oglesby and La Salle. B. M. McDonald, Chicago, is Secy.

Halstead, Kan.—The Arkansas Valley Interurban Ry. Co plans to start work soon on the extension of its line from Halstead to Hutchinson, about 22 miles. Charles D. Bell, Wichita, is Supt. Noted Feb. 11 and Apr. 29.

Columbus, Ark.—Preliminary arrangements are being made by Rufus S. Stout, Pine Bluff, for the construction of an electric railway from Columbus to Washington, Ark.

Ft. Smith, Ark.—The Ft. Smith Light & Traction Co. contemplates an expenditure of $60,000 for the reconstruction of several of its railway lines. R. L. Orton, Ft. Smith, is Ch. Engr.

Pocatello, Utah—The Council has granted a franchise to J. R. Munn, Salt Lake City, for the construction of an electric railway in Pocatello.

Phoenix, Ariz.—The Phoenix Ry. Co. is considering plans for the construction of a loop to connect Monroe, Fourth, Washington, Roosevelt and First St. Samuel H. Mitchell, Phoenix, is Gen. Mgr. and Pur. Agt.

Linnton, Ore.—Preliminary arrangements are being made by O. M. Clark, Richard Shepard and J. B. Holbrook for the construction of an electric railway in Linnton. This is part of a proposed line to connect Linnton and Portland.

Salem, Ore.—The Willamette Valley Southern Ry. Co. contemplates the construction of an extension from Mt. Angel to Salem. F. W. Hild, Portland, is Gen. Mgr.

Niagara Falls, Ont.—The Department of Public Works is considering plans for the construction of a sight-seeing electric railway across Whirlpool Rapids.

Toronto, Ont.—The Toronto Ry. Co. is preparing plans for the construction of an electric railway on College St. from Bathurst St., westward. F. G. Clark, Toronto, is Ch. Engr.

Brandon, Man.—The Brandon Municipal Ry. Co. will lay new tracks on 13th, 14th and College St. in Brandon. R. E. Speakman is Engr.

Transcona, Man.—W. J. Christie, Union Bank Bldg., Winnipeg, is interested in the construction of an electric railway from Oxford and Regent St. to the western limits of the town, to connect with the Winnipeg St. Ry.

LIGHT, HEAT AND POWER

Carmel, Maine—It is reported that the Black Stream Electric Co., recently organized, is making plans to establish an electric plant to supply energy to the towns of Carmel, Hermon, Levant, and possibly Etna, all in Penobscot County. It will cost about $25,000, and will probably be located on the Sowadabscook stream, about one mile from Carmel.

Manchester, N. H.—The Manchester Traction, Light & Power Co. has applied to the State Public Service Commission for authority to issue $1,000,000 in bonds, of which a part of the proceeds will be used to make additions and improvements to its properties during the year. J. Brodie Smith, Manchester, is Vice-Pres. and Gen. Mgr.

New Haven, Conn.—It is reported that the Winchester Repeating Arms Co. plans to build a $22,000 gas plant, a $15,000 tank storage building, a central heating plant to cost $48,000 and a $30,000 scrap shed.

New Haven, Conn.—The H. B. Ives Co., Artizan St., is having plans prepared for a one-story, brick and steel, 24x44-ft. boiler house, and a 125-ft. brick stack. R. W. Foote is Arch.

✚New York, N. Y.—(Borough of Bronx)—Bids were received Apr. 21 by the Department of Education for electrical equipment in the addition to Public School 12, Benson and Frisby Ave., Westchester, Borough of the Bronx, from: New York Construction Co., $4444; T. FREDERICK JACKSON, 99 John St., New York, $4154 (awarded contract); Jandous Electric Co., $4311; Commercial Construction Co., $4473.

Ebensburg, Penn.—The Ebensburg Light, Heat & Power Co. is preparing to install one 800-hp. Blake & Knowles open feed-water heater and one Worthington duplex feed pump. E. F. Craver is Gen. Mgr. and Cont. Agt.

Pottsville, Penn.—The Eastern Pennsylvania Light, Heat & Power Co. contemplates increasing the output of its plant at Palo Alto, a suburb of Pottsville, by 2000 hp. The estimated cost of the work is $200,000. W. B. Rockwell, Pottsville, is Mgr.

Shippensburg, Penn.—The Shippensburg Gas & Electric Co. is installing a hydro-electric plant, which will be capable of generating 450 kw. C. W. Harman is Mgr. and Supt.

St. Michaels, Md.—The Town Commissioners have granted a 20-year franchise to the Talbot Mfg. Co., St. Michaels, to supply the town with electricity for lighting and power purposes. The company has a private electrical system for its packing plant, and will install additional boilers and generators.

Clifton Forge, Va.—It is reported that the Virginia Western Electric Co. will build, within the next few months, a hydro-electric plant and five new substations. It will also construct 42 miles of 44,000-volt, three-phase transmission line, and purchase water-wheel governors, generators, etc. A. C. Ford is Mgr. and Supt.

Lynchburg, Va.—Press reports state that the Lynchburg Traction & Light Co. has appropriated $85,000 for rebuilding its transmission lines. It also contemplates enlarging the Blackwater St. station and the gas plant. J. W. Hancock is Gen. Mgr.

✚Branchland, W. Va.—It is reported that the Huntington Development & Gas Co. has awarded the contract for the construction of a gas compressor plant near Branchland to the MILLER SUPPLY CO. The estimated cost is $100,000.

Parkersburg, W. Va.—The Parkersburg, Marietta & Interurban R.R. Co. has chosen the site for the construction of its new generating station in Parkersburg to replace the present power house. The building will be 135x150 ft., and the complete plant is estimated to cost about $500,000. Sanderson & Porter, 52 William St., New York, N. Y., is Engr.-in-Charge. Noted Feb. 25.

Baton Rouge, La.—Press reports state that the Baton Rouge Electric Co. will build a new power plant to cost about $200,000. Donald Stewart, Baton Rouge, is Mgr.

New Orleans, La.—It is reported that the New Orleans Ry. & Light Co. will spend about $125,000 in enlarging its power plant on Market St.

Paducah, Ky.—The Kentucky-Southwestern Electric Ry., Light & Power Co. will build a new power house in connection with its traction line from Paducah to Murray. H. C. Rhodes, Paducah, is Pres. F. M. Smith is Gen. Mgr.

✚Cleveland, Ohio—The Diebolt Brewing Co., Pittsburg Ave., has awarded the contract for the construction of a new boiler house to the GEORGE B. McMILLAN CO., 1794 East 55th St., Cleveland. It will cost about $15,000. Louis Lehle, 64 West Randolph St., Chicago, Ill., is Arch.

Hilliards, Ohio—The Hilliards Light & Power Co., recently organized with a capital stock of $10,000, will install a plant to furnish the town with electricity. LeRoy Bobyns, T. C. Latham and associates are interested.

Lisbon, Ohio—The Ohio Gas & Electric Co., lately organized, plans to install an electric-light plant in Lisbon. Service is now furnished to the town by the New Lisbon Gas Co., which purchases energy from the Youngstown & Ohio River R.R. Co. Joseph S. Grayden is interested in the Ohio Gas & Electric Co.

Oxford, Ohio—(Official)—Bids will be received until noon, May 29, by the Board of Trustees of Miami University for alterations and additions to the power plant of the University. The work includes boiler- and engine-room extensions to power building, boiler, feed-water heater, vacuum heating pumps, boiler-feed pumps, power equipment changes and additions. W. L. Tobey, Hamilton, Ohio, is Chn. of Bldg. Com. of the Bd. of Trustees of Miami University. Walter G. Franz, Cincinnati, is Consult. Engr. Noted Apr. 22.

Painesville, Ohio—The City Council has rejected the terms of the Cleveland, Painesville & Eastern R.R. Co., Willoughby, to supply electricity to the city, and has authorized an issue of $35,000 in bonds, the proceeds of which will be used to make improvements and buy new equipment for the municipal electric-light plant.

✚Toledo, Ohio—The Board of Education has awarded contracts in connection with the construction of the new Nebraska School as follows: Electrical work, R. H. WINTERS CO., Toledo, $2197; plumbing, LARSEN & WOOD, Toledo, $15,003; heating and ventilating, ROBERT RAITZ & CO., Toledo, $19,775; temperature regulation, JOHNSON SERVICE CO., Milwaukee, Wis., $3540.

Trenton, Ohio—(Official)—Bids will be received until noon, May 20, by J. H. Kerr, Village Clk., for lighting the streets, alleys and public places of the village for a period of 10 years.

Ann Arbor, Mich.—The City Engineer has submitted tentative plans to the City Council for the installation of a municipal electric plant for lighting the streets and public buildings of the city. The estimated cost is $55,585. Manly Osgood is City Engr.

Ute, Iowa—It is reported that a company is being organized to construct and operate an electric-lighting system in Ute. The estimated cost is $10,000.

Stillwater, Minn.—The Lighting Committee of the City Council has engaged Earle D. Jackson, Capital Bank Bldg., St. Paul, to prepare plans for a municipal electric-light plant, including an ornamental lighting system, or a lighting system without ornamental lamps. Noted Dec. 24.

Hays, Kan.—The City Council is considering the installation of a municipal electric-light plant. The estimated cost is $27,000.

Brock, Neb.—The citizens have voted a bond issue for the purpose of constructing a transmission line from Auburn, 11 miles distant, to supply the town with electricity from the plant of the Auburn Mutual Lighting & Power Co.

Victoria, Tex.—At an election held Apr. 26, the citizens voted in favor of issuing $40,000 in bonds, the proceeds of which will be used for the installation of a municipal electric-light plant. Noted Apr. 1.

Ada, Okla.—The Ada Oil & Gas Co. has applied to the City Council for a franchise to install a natural gas distributing system in the town.

Duchesne, Utah—An electric-light plant to cost about $10,000 will be installed soon in Duchesne. M. Pope, R. W. Kroupa, Duchesne, and John Glenn, Vernal, Utah, are interested.

Elsinore, Calif.—It is reported that D. W. Campbell is preparing to install a gas plant in Elsinore.

✚Los Angeles, Calif.—The Los Angeles Gas & Electric Corporation has awarded a contract for two boilers to the BABCOCK & WILCOX CO., 85 Liberty St., New York, N. Y., at $15,978.

BRIDGES

Lawrence, Mass.—(Official)—Bids will be received until 9:30 a.m., May 10, by the Commissioners of Essex County, Salem, for rebuilding the bridge over the Shawsheen River at Merrimac St., Lawrence. It will be a reinforced-concrete structure, 50 ft. long and 60 ft. wide. Moody Kimball, Salem, is Chn. of Comrs.

✚Lee, Mass.—The Town Council has awarded the contract for the construction of a concrete bridge on Pleasant St. to M. L. CARMARCO, Lee, at approximately $10,000.

Lowell, Mass.—(Official)—We are advised by Stephen Kearney, City Engr., that the new bridge at Pawtucket Falls will be built entirely by city forces. The estimated cost is $80,000, exclusive of land damages. Noted Apr. 29.

Woonsocket, R. I.—The City Council has appropriated $60,000 for building two concrete bridges on Hamlet Ave., and straightening the approaches to them. The Council has also appropriated $20,000 for the construction of a new bridge at Fairmount St. F. A. Mills is City Engr. Noted Dec. 24.

Albany, N. Y.—The State Assembly has passed bills appropriating $100,000 for the construction of a bridge over the Mohawk River between Albany and Saratoga Counties at Dunsbach Ferry; $50,000 for a bridge at Minetto over the Oswego River and the Barge Canal, and $18,000 for a bridge at Stillwater over Twitchell Creek.

Jersey City, N. J.—It is reported that the Central R.R. of New Jersey contemplates building a new bridge over Jackson Ave., Jersey City. J. J. Yates, New York, N. Y., is Bridge Engr.

✚Gettysburg, Penn.—(Official) — The Commissioners of Adams and York Counties have awarded the contract for the construction of a reinforced-concrete arch over Beaver Creek between Adams and York Counties, to A. G. & M. WAGMAN, Dallastown, Penn. Seven other bids were received. Noted Apr. 8.

★✚Philadelphia, Penn.—Bids were received Apr. 29 by the Department of Public Works for the construction of a reinforced-concrete arch, 60 ft. long and 30 ft. wide, on the line of 58th St. over the Philadelphia & Baltimore Central R.R., (A) lump sum, (B) aggregate bid including extra items, from: M. & J. B. McHUGH, (A) $11,900, (B) $12,235 (awarded contract); Cantrell Construction Co., (A) $11,881; (B) $12,506; Charles P. Bower, (A) $14,300, (B) $14,713; William H. Johnson, Jr., (A) $14,495, (B) $14,797; T. F. Reilly, (A) $14,500, (B) $14,839; F. J. Boas, (A) $14,700, (B) $15,030; Carl R. Camp, (A) $15,360, (B) $15,754; Richard Walsh & Sons, Inc., (A) $15,695, (B) $15,979; Brann & Stuart Co., (A) $15,750, (B) $16,190; Pugh & Hubbard Co., (A) $16,549; (B) $17,020; Peoples Bros., Inc., (A) $16,774, (B) $17,214; Brown King Construction Co., (A) $16,948, (B) $17,339. Noted Apr. 22.

Reading, Penn.—(Official)—Bids will be received until 10 a.m., May 14, by D. K. Hoch, Controller of Berks County, for the construction of a reinforced-concrete bridge over the Schuylkill River between the Borough of West Leesport and Ontelaunee Township, Berks County. Bids will also be received at the same time for furnishing from 1800 to 2500 bbl. of portland cement for the Leesport Bridge. Noted Dec. 17, Jan. 7 and Feb. 25.

✚Reading, Penn.—(Official)—The Commissioners of Berks County have awarded the contract for the construction of the Fleetwood Bridge across Willow Creek in Richmond Township, to the READING CONTRACTING CO., Reading. Noted Apr. 22.

Washington, Penn.—Bids will be received until noon, May 11, by the Board of Commissioners of Washington County for the construction of small bridges and culverts in the county. T. J. Underwood is County Controller. Chaney & Armstrong is Engr.-in-Charge.

York, Penn.—Bids will be received until May 13 by the Commissioners of York County and the County Controller, for the construction of four reinforced-concrete bridges and one stone arch in the county.

Easton, Md.—(Official)—We are advised by Frank W. Seth, County Engr. of Talbot County, that all bids received Apr. 13 for the construction of the Leeds Creek Bridge on the Tunis Mills Rd., were rejected. Noted Apr. 8 and 29.

✚Bedford City, Va.—(Official)—The Commissioners of Bedford County have awarded the contract for the construction of a 209-ft. bridge over Elk Creek to the CAMDEN IRON WORKS, Roanoke, Va. Noted Feb. 4.

✚Durham, N. C.—(Official)—The Board of Commissioners of Durham County has awarded the contract for the construction of four steel bridges with concrete substructures to the CAMDEN IRON WORKS, Roanoke, Va., at $10,904 for the steel, and $5.80 and $5.90 per cu.yd. for the concrete. P. C. Crompton is County Audr. Noted Mar. 25.

Birmingham, Ala.—The Board of City Commissioners has instructed the City Engineer to prepare an ordinance providing for the construction of a reinforced-concrete viaduct over the railway tracks on 21st St. between First Ave. and Ave. A. The structure will be about 1000 ft. long. Julian Kendrick is City. Engr.

Bryan, Ohio—It is reported that the Board of Commissioners of Williams County will shortly advertise for bids for the construction of five steel bridges, ranging from 50 to 144 ft. in length. C. R. Lowe is Clk. of Comrs.

Cambridge, Ohio—(Official)—The Board of Commissioners of Guernsey County has rejected all bids received Apr. 13 for building abutments for the Dewey Ave. Bridge over Wills Creek in the City of Cambridge. The matter will not be considered again before next fall, and possibly not until the spring of 1916. It is possible that the Baltimore & Ohio R.R. Co., in conjunction with the city, will build a viaduct to replace the present bridge at this point. T. C. White is County Audr. Noted Mar. 25.

✚Chillicothe, Ohio—The Board of Commissioners of Ross County has awarded contracts for the construction of a 243-ft. bridge at Frankfort to OATHER M. JUNK, Chillicothe, at $8298 for the substructure, and E. M. SCULLY, Columbus, at $14,995 for the superstructure. The contract for the construction of the Crooked Bridge near Bainbridge was awarded by the Commissioners to the CAPITOL CONSTRUCTION CO., Columbus, at $12,175.

Cleveland, Ohio—Bids will be received until May 19 by the Board of Commissioners of Cuyahoga County for county bridge work, Report No. 3510. W. A. Stinchcomb is County Surv. E. G. Krause is Clk. of Comrs.

✚Coshocton, Ohio—The Board of Commissioners of Coshocton County has awarded contracts for repairing the Miskimen and Fresno Bridges to GEORGE J. BOCK & SON, Coshocton, $3265 and $3510 respectively.

Hamilton, Ohio—It is reported that the low bidder for the construction of a steel bridge at Woodsdale was the Penn Bridge Co., Beaver Falls, Penn., at $19,540 and $18,720 for the superstructure, (alternate plans), and $20,000 and $19,470 for the substructure. The lowest bid for a concrete bridge was that of the Cleary-White Construction Co., Chicago, Ill. Bids were received Apr. 17. Noted July 23, Aug. 13, Dec. 10, 1914; Feb. 25, Mar. 11 and Apr. 1, 1915.

✚Hamilton, Ohio—The Board of County Commissioners has awarded the contract for the construction of the Woodsdale Bridge to the CLEARY-WHITE CONSTRUCTION CO., 17 North La Salle St., Chicago, at $76,289. It will be of concrete, six 100-ft. spans.

Logan, Ohio—(Official)—Bids will be received until 1 p.m., May 14, by the Board of Commissioners of Hocking County for the superstructure of a bridge across Rush Creek in Marion Township. George H. Shaw is Chn. of Comrs.

✚Tiffin, Ohio—(Official)—The Board of Commissioners of Seneca County has awarded contracts for the construction of Bridge No. 230 in Empire Township, and Bridge No. 96 in Bloom Township, to the BURK CONSTRUCTION CO., Newcastle, Ind., at $5586 and $3403, respectively. J. E. Hershberger is County Engr. Noted Apr. 8.

Auburn, Ind.—Plans are being prepared by Charles Wagoner, County Engr. of De Kalb County, for two steel bridges the Farrington Bridge, 60 ft. long, and the Grube Bridge, 12 ft. long. A. W. Madden is County Audr.

Mt. Vernon, Ind.—It is reported that the Commissioners of Posey County will advertise about July 1 for the construction of several steel and concrete bridges. T. J. Johnson is County Surv. J. R. Haines is Audr.

Dixon, Ill.—Press reports state that the Illinois Central R.R. will raze the present bridge over the Rock River at Dixon, and will replace it with a new structure. M. Johnson, Chicago, is Engr. of Bridges and Bldgs.

✚Lincoln, Ill.—The Streets and Alleys Committee of the City Council has awarded the contract for the construction of a reinforced-concrete bridge over Brainerd's Branch on Union St. to H. K. RHOADS at $11,067.

Atlantic, Iowa—The Board of Supervisors of Cass County has passed a resolution of necessity for the construction of eight new bridges and culverts in the county. C. E. Keingel is County Audr.

Council Bluffs, Iowa—(Official)—Bids will be received until 2 p.m., May 7, by the Board of Supervisors of Pottawattamie County for the construction of five steel bridges, ranging from 40 to 100 ft. in length. J. D. Hannan is County Audr.

Council Bluffs, Iowa—The City Council contemplates the construction of a new bridge across Indian Creek. The bridge will be 26 ft. wide, and the estimated cost is $5000. E. E. Spetman is City Engr.

Forest City, Iowa—(Official)—Bids will be received until 11 a.m., May 11, by C. K. Nelson, Audr. of Winnebago County, for the construction of two reinforced-concrete bridges. The first is estimated to cost $3828, and the other $2460. O. N. Gjellefald is Engr.

Idagrove, Iowa—The Board of Supervisors of Ida County will shortly receive bids for the construction of 13 new county bridges. Plans were prepared by the State Highway Commission, Des Moines. Thomas H. MacDonald is State Engr.

✚Manchester, Iowa—(Official)—The Board of Supervisors of Delaware County has awarded the contract for the construction of a number of county bridges to the MARSH ENGINEERING CO., Des Moines, at $8875. Bids were received Apr. 24. C. H. Bunker is County Audr. Noted Apr. 22.

Red Oak, Iowa—Bids will be received until 1 p.m., May 30, by the County Auditor of Montgomery County for the construction of bridges and culverts in the county.

✚Austin, Minn.—(Official)—The Commissioners of Mower County have awarded contracts for the construction of 14 reinforced-concrete bridges as follows: H. F. GARBISH, Austin, $334 for seven bridges; IOWA BRIDGE CO., Des Moines, Iowa, $7099 for five bridges; WILLIAM O'SHEA & SONS, Minneapolis, $2617 for two bridges. O. J. Simmons is County Audr. Noted Apr. 22.

Duluth, Minn.—(Official)—We are advised by D. A. Reed, Mgr. of the Water and Light Dept., that plans are not yet completed for a bridge over Tischer's Creek at First St., and bids have not been advertised. Contracts to Be Let

Bids received until May 17, 1915.

Contract 8—Nepaug Reservoir

Hartford, Conn.

Sealed proposals, addressed to the Board of Water Commissioners of the City of Hartford, for the construction of a new gravel surface road north of Nepaug Reservoir in the Town of New Hartford, Conn., will be received at the office of the Board, City Hall, Hartford, until 3:00 p.m., Monday, May 17, 1915.

Contract 8 comprises the construction of a gravel road about 1½ miles long through new country. The road will have a travel path 14 feet wide with 8 inches of gravel surfacing, together with the necessary culverts and guard fences.

Plans and specifications may be obtained at the office of the Chief Engineer, Pilgard Building, Hartford, Conn., on deposit of $5.00, which amount will be refunded if the plans and specifications are returned in good order before June 17, 1915. Specifications used in making a bid will be considered as returned.

A certified check or cashier's check for $2,000 must accompany each bid and the successful bidder will be required to furnish bonds in the sum of $20,000. The right is reserved to reject any and all bids.

It is expected to let contracts in the near future for the following work, which is in the immediate vicinity of this location and which may be looked over by prospective bidders at the same time that the road work on Contract 8 is examined:

Contract 9—East Dike. Contract probably will be advertised about June 1st and calls for the construction of an earth dam about 25 feet high and 600 feet long, containing about 28,000 cubic yards of earth embankment and 1,500 cubic yards of masonry core wall.

Contract 10—Richards Corner Dam. Contract probably will be advertised about June 15th and calls for the construction of an earth dam 70 feet high and 800 feet long, containing about 250,000 cubic yards of soil and gravel filling, 13,000 cubic yards of masonry core wall, 10,000 cubic yards of rock excavation and a concrete conduit and stream control for a drainage area of 62 square miles.

Later in the year a contract will be let for clearing the entire Nepaug Reservoir area of about 900 acres and grubbing about 125 acres of shore line.

BOARD OF WATER COMMISSIONERS,
WALTER S. GARDE, President.
FRED D. BERRY, Secretary.
CALEB MILLS SAVILLE, Chief Engineer.

⁂

Bids received until May 14, 1915.

To Paving Contractors

Greenville, S. C.

Sealed proposals on blank forms furnished by the City, and addressed to the City Engineer, will be received by the Mayor, City Council and Paving Commission until 11:00 A.M., May 14th, 1915, for furnishing material, equipment, labor, etc., to construct complete street and sidewalk paving in the City of Greenville, S. C.

The work consists of approximately 70,000 sq.yds. of Street Paving; 20,000 sq.yds. of Sidewalk Paving; 25,000 lin.ft. of Granite Curb; 10,000 lin.ft. of combination Cement Curb and Gutter; also, necessary storm sewers, catch basins, manholes, etc., to make a complete job.

Each bid on proposal No. 1 must be accompanied by a certified check made payable to the City Clerk and Treas. for not less than five per cent. (5%) of the total amount of bid. Each bid on proposal No. 2 must be accompanied by a certified check made payable same as above for not less than $2,000.00.

The right is reserved by the City to reject any or all bids.

Plans and Specifications can be seen at the Office of the City Engineer, Greenville, South Carolina.

JOHN B. MARSHALL, Mayor.
G. FRANK LEAGUE, City Clerk & Treas.
C. P. BALLENGER, City Engineer.

Bids received until May 11, 1915.

Sewers and Disposal Plant

Palisades Park, N. J.

SEALED PROPOSALS will be received by the Mayor and Council of the Borough of Palisades Park, N. J., at the Borough Hall, on Tuesday, May 11th, 1915, at 8 o'clock P.M., for the construction of a Sedimentation tank of the Imhoff type, Sludge drying beds and all other appurtenances, also, for a system of sewers, consisting of

about 1430 ft. 20 inch Pipe sewer.
" 4380 " 15 " " "
" 1450 " 12 " " "
" 4940 " 10 " " "
" 28390 " 8 " " "
" 150 Manholes,

and siphon under tracks of Northern Railroad, etc.

Plans and specifications can be seen at the office of Lemuel Lozier, Borough Engineer, Central Boulevard and Broad Avenue, Palisades Park, N. J.

Prospective bidders can obtain a copy of the plans and specifications for a deposit of Ten ($10.00) Dollars, which deposit will be refunded upon the return of the plans and specifications in good condition.

All proposals must be made upon the forms furnished and in full conformity with all the requirements and conditions expressed therein.

The work will be divided into two sections, "A," including the sewers, manholes, etc., "B," including the sedimentation tank, drying beds, etc.

Bidders are invited to offer proposals either for Section "A" or Section "B" or for both Section "A" and "B."

A certified check drawn to the order of the Mayor and Council of the Borough of Palisades Park in the sum of Five Thousand Dollars ($5000.00) must accompany each proposal for Section "A," in the sum of Two Thousand ($2000.00) Dollars for Section "B," or in the sum of Seven Thousand ($7000.00) Dollars for both Sections "A" and "B" as surety that contract will be entered into if proposal is accepted.

A Surety Company bond equal to the amount of the contract will be required in each contract.

Bidders are particularly notified that no bids will be received after the time named above, 8 o'clock P.M., May 11th, under any circumstance.

The Mayor and Council of Palisades Park reserve the right to reject any or all bids.

BENJAMIN E. BUDDS, Mayor.
GEORGE F. WILSON,
Chairman Sewer Committee.
EDGAR R. DAVIS, Borough Clerk.

⁂

Bids received until May 17, 1915.

Concrete Reservoir

Salem, Mass.

Sealed proposals will be received by the Director of Public Works of the City of Salem, Mass., until ten o'clock A.M., May 17, 1915, for the construction of a covered concrete reservoir of 10,000,000 gallons capacity.

Plans may be seen and specifications obtained at the office of the City Engineer at Salem, Mass., or at the office of William S. Johnson, Consulting Engineer, 101 Tremont Street, Boston, Mass. A deposit of five dollars ($5.00) will be required for copies of the plans, which deposit will be refunded upon the return of the plans in good condition within two weeks after the bids are opened.

Each bid must be accompanied by a certified check for three thousand dollars ($3,000) payable to the City of Salem. The bidder to whom the contract is awarded will be required to furnish a bond in the sum of twenty-five thousand dollars ($25,000).

The right is reserved to reject any or all bids at the discretion of the Director.

P. J. KELLEY,
Director of Public Works.
GEORGE F. ASHTON, City Engineer.

STEADY GAIN IN EASTERN BUILDING

Contemplated building operations in 23 cities in the Eastern States from plans filed in April show a gain of $4,000,000 or 16% compared with the same month last year. This gain is progressive for in March it was only slightly over $1,000,000, in February $3,000,000 and in January about the same. It is the largest gain recorded for more than a year. For the first four months the gain in these cities aggregated $9,000,000 or 11%.

A falling off of $1,000,000 is recorded in 25 Central cities, compares with one of more than $3,000,000 last month and nearly as much in each of the two previous ones. The loss of $1,300,000 in 14 Southern cities compares with one of over $2,500,000 in the previous month. Even on the Pacific coast in the Western States there is a loss of slightly more than $1,000,000 in April compared with $4,000,000 last month and nearly $19,000,000 during the first four months of the year.

EASTERN STATES

	Month of April		First Four Months of Year	
	1915	1914	1915	1914

✚McConnellsburg, Penn.—The McConnellsburg and Ft. London Ry. Co. has awarded the contract to REED & CO., Hazelton, for the construction of an electric railway from McConnellsburg to Ft. London. Noted Mar. 11.

Mayfield, Ky.—Plans are being made to revive the project to construct an electric railway from Mayfield, Ky., to Humboldt, Tenn. R. H. McNeely, Paducah, Ky., is interested.

Columbus, Ohio—The City Council has granted a franchise to the East Linden Electric Ry. Co. to construct an electric railway on Leonard and Joyce Ave.

Joliet, Ill.—Work will soon be started on the construction of the proposed extension of the Hickory St. line in Joliet from Smith St. to Theilers Park by the Chicago & Joliet Electric Ry. Co. J. R. Blackhall, Joliet, is Gen. Mgr.

Quincy, Il.—The Quincy Ry. Co. contemplates the reconstruction of its line on Maine St. from Eighth to 18th St. H. J. Vance, Peoria, is Pur. Agt.

Iowa City, Iowa—The Iowa City Electric Ry. Co. is making plans for the extension of its line to the Manville Heights Addition. J. O. Schulze, Iowa City, is Pres., Gen. Mgr. and Pur. Agt.

Kansas City, Mo.—The Kansas City Ry. & Light Co. plans to construct 14 miles of double-track extensions in Kansas City. John M. Egan is Pres.

Springfield, Mo.—The Springfield Ry. & Light Co. contemplates the construction of an extension of the Monroe St. line to Phelps Grove Park, Springfield. Charles H. Guckel is Gen. Mgr.

Cleburne, Tex.—John W. Floore, Sr., who recently purchased the street railway system of the Cleburne St. Ry. Co. at receiver's sale will make extensive improvements to the property. The system embraces six miles of track.

Corpus Christi, Tex.—J. H. Caswell, San Diego, Calif., and associates plan to construct a system of interurban electric railways in this section and to build a local system of street railways. The interurban lines will run from Corpus Christi to Kingsville, via Bishop; from Corpus Christi to Portland and from Corpus Christi to Oso. The construction of a large electric-power plant is planned in connection with the project.

✚Glen Rose, Tex.—(Official)—The Glen Rose & Walnut Springs Ry. Co. has awarded the contract for the construction of its proposed electric railway from Glen Rose to Walnut Springs, about 11 miles, to the RAIL ROAD CONSTRUCTION CO., 80 Fifth Ave., New York, N. Y. Noted Oct. 1.

Houston, Tex.—The Houston, Richmond & Western Traction Co. has been organized for the purpose of constructing an interurban electric railway from Houston to Richmond, about 35 miles. The incorporators are Edward Kennedy, W. W. Thomas and J. C. Eganhouse.

Fresno, Calif.—The Fresno Interurban Ry. Co. is preparing to extend its electric line to the Gould Colony and build a spur track to the Barton Winery.

Windsor, Ont.—The Sandwich, Windsor & Amherstburg St. Ry. Co. has applied for permission to construct a loop on Ferry Ave. in Windsor. James Anderson, Windsor, is Gen. Mgr. and Pur. Agt.

Brandon, Man.—The Brandon Municipal Ry. will make the following extensions: Princess Ave. from 22nd St. to 24th St.; from the present terminals on Victoria Ave. and Princess Ave. east to Percy St.; on 18th St., from Victoria Ave. to College Ave. and along College Ave. to 13th St. R. E. Speakman is Engr. Noted May 6.

LIGHT, HEAT AND POWER

Standish, Maine—The Cumberland County Power & Light Co., Portland, has made application for a franchise to supply electricity to the town of Standish. A. H. Ford, Portland, is Gen. Mgr. of the company.

Reading, Mass.—Press reports state that the town of Reading has decided to extend its municipal electric-light service to Lynnfield, North Reading and Wilmington. Arthur G. Sias, 179 Main St., Reading, is Mgr. and Supt. of the Reading municipal plant.

Exeter, R. I.—(Official)—Bids will be received until 10 a.m., May 27, by the Board of Control and Supply, Room 18, State House, Providence, for the installation of central plant equipment and electrical work, steam work in connection with central plant, laundry equipment, water pipe extension and sewer extension for the Rhode Island School for the Feeble Minded at Exeter. William A. Schofield is Chn., Gilbert R. Parker is Secy. of the Bd.

Howard, R. I.—(Official)—Bids will be received until 10 a.m., May 27, by the Board of Control and Supply, State House, Providence, for a cold storage plant, elevator machinery and equipment for a bakery for the General Storehouse and Bakery at Howard. The Richard D. Kimball Co., 6 Beacon St., Boston, Mass., is Engr.

Syracuse, N. Y.—Bids are being received by the Board of Education for the construction of a 50x60-ft. boiler house and equipment in connection with the new vocational high school. A. E. Larkin is Pres. of the Bd.

Trenton, N. J.—The Eureka Flint & Spar Co. is preparing to build a one-story, 36x85-ft. power house.

Scranton, Penn.—It is reported that the Scranton Electric Light Co. will spend about $125,000 for improvements to its steam heating system. About 20,000 ft. of steam mains will be laid. D. D. Campbell is Vice-Pres. and Gen. Mgr.

Walkersville, Md.—The City Council has contracted with the Hagerstown & Frederick Ry. Co. to furnish the town with electricity. The company will build a transmission line, costing about $4000, from Frederick to Walkersville, a distance of five miles.

Kenova, W. Va.—It is reported that the Consolidated Light, Heat & Power Co. plans to double the capacity of its power station. A turbine to generate 8000 hp. and two Babcock & Wilcox boilers will be installed. W. W. Magoon, Huntington, is Gen. Mgr. of the company.

Ocala, Fla.—It is reported that the City Council has engaged Twombly & Henney, Consult. Engr., 55 Liberty St., New York, N. Y., to prepare plans for the improvement of the municipal electric-light plant and water-works system. The estimated cost of the work is $75,000. J. C. Caldwell, Ocala, is Supt. of the municipal light plant.

Cincinnati, Ohio—(Official)—Bids will be received until noon, May 24, by the Board of Education, City Hall, for the installation of electric-lighting systems in the College Hill School, Maple Ave., College Hill, and the Mt. Airy School, Colerain Pike and Mt. Airy Rd., Cincinnati. C. W. Handman is Business Mgr. of the Bd.

Dover, Ohio—(Official)—Bids will be received until noon, June 1, by Clifford Pease, Village Clk., for lighting the streets of the village for a period of 10 years.

Richmond, Ind.—It is reported that the City Council has voted in favor of taking over the property of the Richmond Light, Heat & Power Co., to be operated in conjunction with the municipal electric-light plant. B. A. Bescher is City Clk.

Urbana, Ill.—Bids will be received until June 1 by James B. Dibelka, State Arch., 130 North Fifth Ave., Chicago, for electrical work, heating, ventilating and plumbing equipment for the School of Education, Vivarium and Ceramics buildings of the University of Illinois, Urbana.

Manitowoc, Wis.—The Board of Education has received bids for the installation of a new heating system for the Washington School, as follows: George H. Kallies, Manitowoc, $5600; W. S. Patterson & Co., Appleton, $6162; W. A. Bowers Heating Co., Milwaukee, $6984.

Ceresco, Neb.—Bids will soon be received for the construction of a municipal electric-light plant in Ceresco to cost about $5000. G. Johnson is Village Clk. Grant & Fulton, Lincoln, is Consult. Engr. Noted Apr. 1.

Morrill, Neb.—Bids will be received until May 17 by the Village Clerk for the installation of a complete electric-lighting system for the village.

Tekamah, Neb.—A special election will be held May 18 to vote on the question of issuing $15,000, the proceeds of which will be used for the construction of a municipal electric-light plant. M. S. McGrew is City Clk.

Raymond, S. D.—It is reported that the installation of an electric-light plant in Raymond is under consideration.

Abilene, Tex.—Press reports state that the American Public Service Co., which owns the Abilene Gas & Electric Co. plans to extend the local electric service to Clyde, Putnam, Baird, Cisco, and possibly other towns in the vicinity. The plant at Abilene will serve as a distribution point, and will be equipped with two new boilers of 400 hp. each, and a new turbine engine. George H. Caffrey is Mgr. of the Abilene plant.

Maypearl, Tex.—It is reported that the Texas Power & Light Co., Dallas, plans to install an electric-light system in Maypearl.

Windom, Tex.—It is reported that the Texas Power & Light Co., Dallas, has purchased the local electric-light plant, and will remodel and improve the property. F. R. Slater, Dallas, is Gen. Supt. of the Texas Power & Light Co.

Cushing, Okla.—It is reported that the Cushing Public Service Co., recently organized for the purpose of taking over the plant of the Cushing Electric Light & Power Co., will improve the system at once at an estimated cost of $20,000. H. Askin is Mgr.

Sante Fe, N. M.—The Rio Grande Dam, Light & Power Co., Philadelphia, Penn., has applied to James A. French, State Engr. of New Mexico for permission to build a 100-ft. dam in White Rock Cañon, between Cochiti and Buckman, and to use the waters of the Rio Grande River for power development. The company plans to build a hydro-electric plant to supply power to Albuquerque, Sante Fe, Las Vegas and other towns and to irrigation plants in the Estancia Valley.

Casa Grande, Ariz.—The city has granted a franchise to F. H. Brackett and associates for the installation and operation of an electric-power plant. The plant, including the distributing system, is estimated to cost from $150,000 to $200,000. Noted Feb. 4.

Ellensburg, Wash.—All bids received Apr. 5 for the reconstruction of the municipal electric-light plant were rejected by the City Council, and new bids will be received until May 14. Reuben Crimp is City Clk. Noted Feb. 25, Apr. 1 and 29.

Lake Cushman, Wash.—It is reported that George E. Tilden, Seattle, contemplates building a power plant in or near Lake Cushman to furnish electrical service to towns in Chehalis and Pacific Counties.

Portland, Ore.—It is reported that the Portland Gas & Coke Co. is preparing to lay a 16-in. gas main in East Ninth St. The estimated cost is $50,000.

Lakeport, Calif.—The Mt. Konocti Light & Power Co. plans improvements and extensions to its plant and system to cost about $9000. A. V. Joslin, Lakeport, is Mgr.

Stockton, Calif.—Press reports state that the Western States Gas & Electric Co. of California plans to build a new hydro-electric plant on the American River this year. The estimated cost is $75,000. Samuel Kahn, Stockton, is Gen. Mgr.

Taft, Calif.—The California Natural Gas Co. will shortly lay an 8-in. gas line from the Midway to the Kern River district, a distance of 25 miles.

Tehachapi, Calif.—This city has voted a bond issue of $8000 to be used for the installation of a municipal electric-light plant. Noted Apr. 15

Toronto, Ont.—The Toronto Electric Commission plans to build a new substation at Carlaw Ave. and Gerrard St. The estimated cost of the building is $65,000. H. H. Couzens, Toronto, is Gen. Mgr.

Kamloops, B. C.—It is reported that the city will spend about $85,000 in completing its hydro-electric power plant. The system has already cost about $500,000. C. L. Wain is Supt. and Engr. of the plant.

BRIDGES

★Northampton, Mass.—(Official)—The Commissioners of Hampshire County opened bids May 4 for rebuilding two piers and repairing the superstructure of the Connecticut River Bridge between Northampton and Hadley, as follows: (a) superstructure, (b) substructure): Providence Steel & Iron Co., (a) $19,600; Rendle & Stoddard, (b) $24,303; G. F. Austin, (a) and

(b), $47,500; H. P. Cummings Construction Co., (a) $20,887, (b) $56,600; Holbrook, Cabot & Rollins Corporation, (b) $32,750; Eastern Bridge & Structural Co., (a) $21,870; M. I. O'Connor, (b) $34,900; United Construction Co., (a) $22,160; H. P. Converse Co., (a) $25,291, (b) $34,224; Jobson-Gifford Co., (a) $23,575; Fred T. Ley Co., (b) $35,000; Daniel O'Connell's Sons, (a) $24,000, (b) $40,000; McClintic-Marshall Co., (a) $25,270; W. L. Miller, (b) $42,772; C. A. Sibley, (a) $25,650; the Foundation Co., (b) $46,400; Berlin Construction Co., (a) $32,550. Noted Sept. 4 and Dec. 18, 1913; Jan. 7, Feb. 18, Mar. 11 and Apr. 15, 1915.

✚★**Northampton, Mass.**—(Official)—The Commissioners of Hampshire County, on May 10, awarded contracts for rebuilding the Northampton-Hadley Bridge to the HOLBROOK, CABOT & ROLLINS CORPORATION, Boston, at $32,750 for the substructure, and to the PROVIDENCE STEEL & IRON CO., Providence, R. I., at $19,600 for the superstructure. See preceding item.

★✚**Canton, N. Y.**—We are advised by the Concrete-Steel Engineering Co., Park Row Bldg., New York, that the Town of Canton has awarded the contract for the Grasse River Bridge at Canton to the FLOOD & VAN WIRT CO., Hudson Falls, at $25,000. Noted Apr. 15.

✚**Lancaster, N. Y.**—(Official)—The Town Board has awarded the contract for the construction of a reinforced-concrete arch over Cayuga Creek to HOWARD L. MEYER, Bowmansville, N. Y., at $12,520. Nine other bids were received. F. H. Maute is Town Clk. Noted Apr. 22.

Syracuse, N. Y.—(Official)—Bids will be received until 1:30 p.m., May 17, by the City Council for the construction of a bridge over Onondaga Creek at West Taylor St. A bond issue of $12,000 has recently been authorized for this work. W. T. Wooley is City Engr. Noted Apr. 15.

★**Wallkill, N. Y.**—(Official)—Bids will be received until 2 p.m., May 29, by the Town Clerk for the construction of a concrete-steel arch over the Wallkill River. J. Grant Upwright is Town Supt. of Highways. Noted Dec. 31.

Ft. Dodge, Iowa—W. L. Steele, Arch., United Bank Bldg., Sioux City, is preparing plans for the construction of a two-story church. Estimated cost, $75,000. Edmund Harlan is Pastor.

Linn Grove, Iowa—The Consolidated District voted in favor of issuing $48,000 in bonds, the proceeds of which will be used to construct a school.

✚Sioux City, Iowa—The contract for the construction of the Elks Lodge building at Eighth and Douglas St. has been awarded to COMER & SMALL. Noted Jan. 14 and Feb. 25.

✚Vinton, Iowa—The contract for the construction of the $50,000 Methodist Church has been awarded to THEODORE STARK & CO., Cedar Rapids, Iowa.

Omaha, Neb.—(Official)—Bids will be received about July 1 by J. S. Dales, Secy. of Bd. of Regents, Lincoln, Neb., for the construction of a hospital for the College of Medicine at the University of Nebraska, 42 Dewey Ave. The estimated cost is $150,000. Irving S. Cutter is Secy. of the university and John Latenser is Arch. Noted Apr. 29.

Madison, S. D.—J. H. Taileffer plans to construct a building to cost about $60,000.

Milbank, S. D.—Bonds to the amount of $45,000 have been sold by the County Commissioners of Grant County. The proceeds will be used for the construction of a courthouse.

Butte, Mont.—(Official)—Bids will soon be received by School District No. 1, Silver Bow County, Butte, for the construction of a high school including a 50x140-ft. gymnasium and a 22x60-ft. swimming-pool. The estimated cost is $100,000. Wilson & Cutting is Arch. Noted under Anaconda, Mont., May 6.

Great Falls, Mont.—The Great Falls Tribune plans to construct a two-story office building. Estimated cost, $75,000.

✚Kansas City, Mo.—GEORGE L. BROWN has been awarded the contract for the construction of a five-story, 49x116-ft. building at 12th and Walnut St. for the Chambers Estate. The estimated cost is $118,000.

Kansas City, Mo.—McKecknie & Trask, Arch., is preparing plans for the construction of a six-story, reinforced-concrete building for E. P. Moriarity and J. F. Moriarity. The estimated cost is $100,000.

St. Louis, Mo.—The St. Louis Lodge, No. 3, Loyal Order of Moose, will build a 180x272-ft. lodge to replace the present one at Grand Ave. and West Pine Blvd. The estimated cost is $500,000.

Coldspring, Tex.—The County Commissioners plan to rebuild the courthouse recently destroyed by fire. It will be fireproof and cost about $75,000. W. McMurrey is County Judge.

El Paso, Tex.—Plans are being considered by the Directors of Chamber of Commerce for the construction of a municipal auditorium. The estimated cost is $100,000. F. D. Gustom is interested.

El Paso, Tex.—Plans are being prepared by Trost & Trost, Arch., Mills Bldg., for the construction of a nine-story, fireproof addition to the Paso Del Norte Hotel owned by Z. T. White.

El Paso, Tex.—Trost & Trost, Arch., Mills Bldg., is preparing plans for the construction of a six-story addition to the Popular Dry Goods Store Bldg. The estimated cost is $120,000.

Ft. Worth, Tex.—Contracts will be awarded about July 1 by Van Slyke & Woodruff, Arch., American National Bank Bldg., for the construction of a seven-story hotel, with two wings, on Main St. between 10th and 11th St. for J. C. Ingram. Estimated cost, $500,000. Noted Apr. 22.

Oklahoma, Okla.—Bids will be received until 2 p.m., June 7, by the State Capitol Commission for the construction of the Oklahoma State Capitol. Layton & Smith, 701 Majestic Bldg., is Arch. R. L. Williams is Chn. and Ira Mitchel is Secy. of State Capitol Comn. Noted Apr. 23, Nov. 26 and Dec. 31.

Plainview, Colo.—The National Order of Cowboy Rangers plans to construct a $50,000 clubhouse at Plainview. A. U. Mayfield is interested.

Tyrone, N. M.—The Phelps-Dodge Co., 99 John St., New York, N. Y., plans to expend about $200,000 in the construction of buildings at its new camp in Tyrone. The buildings will include a $100,000 general store and hotel, a $50,000 hospital, and $50,000 for houses for the employees. The entire construction will be of reinforced concrete.

Pocatello, Idaho—(Official)—Bids will be received until May 25, by the Clerk of the School Board for the construction of a high school. The estimated cost is $100,000. F. H. Paradice, Jr., is Arch. Noted Mar. 18, Apr. 8 and May 6.

✚Salt Lake City, Utah—(Official)—The contract for the construction of the first unit of the 26-room school at 13th, East and Seventh South St. has been awarded to J. F. & H. E. SCHRAVEN, Salt Lake City, at $61,636. Other bids were: Campbell Building Co., $70,800; Salt Lake Building & Mfg. Co., $69,680; West & Thornton, $64,749; Rudine & Chytraus, $62,950; Alston & Hoggan, $76,140; A. J. Gellis, $74,954; James Stewart & Co., $65,710; James H. Angel, $74,500. L. R. Judd is Clk., Bd. of Education and F. D. Rutherford, McIntyre Bldg., is Arch. Noted Apr. 8 and 29.

Salt Lake City, Utah—The Desert National Bank plans to construct a 24-story building. Estimated cost, $1,000,000. Parkinson & Bargerstrom, Los Angeles, Calif., is Arch.

Miami, Ariz.—The School Board has retained Trost & Trost, Arch., Mills Bldg., El Paso, Tex., to prepare plans for the construction of a school at Miami. The estimated cost is $75,000.

Phœnix, Ariz.—The City Council is considering the construction of a city hall. The estimated cost is $500,000.

North Yakima, Wash.—Contracts will be awarded about June 10 by N. A. Henderson, 313 South Fourth St., for the construction of a three-story, 100x140-ft. apartment house on Naches Ave. The estimated cost is $85,000. Noted Apr. 15.

Port Townsend, Wash.—(Official)—E. O. Reeder, Ch. Engr. of the Seattle, Port Angeles & Lake Crescent Ry. Co., Seattle, informs us that the company's own forces will construct the $50,000 terminals at Port Townsend. Noted Apr. 29.

✚Seattle, Wash.—The contract for the construction of the nine-story, 110x120-ft. theater at Fifth Ave. and Pike St. for the Coliseum Amusement Co. has been awarded to the PEARSON CONSTRUCTION CO., New York Block, Seattle, at $141,400. Other bids were: Brandt Construction Co., 2327 Fifth Ave., $141,377; Sound Constructon Co., Lowman Bldg., $143,000; Hendrickson Construction Co., New York Block, $143,150; Butler Contracting Co., Central Bldg., $144,100; H. D. Stewart, American Bank Bldg., $145,994; A. W. Quist, Hoge Bldg., $146,799; Hans Pederson, Madison Block, $150,900; Grant Smith & Co., Henry Bldg., $155,500; W. B. Lance, Northern Bank Bldg., $156,507; M. J. Hursen Co., Globe Bldg., $162,500. Noted Mar. 25 and Apr. 15.

Portland, Ore.—E. B. McNaughton, Arch., has prepared plans for the construction of a three-story addition to the building of the Marshall-Wells Hardware Co., 14th, 15th, Kearney and Lovejoy St. The estimated cost is $70,000.

Portland, Ore.—Contracts will be awarded about July 1 by R. H. Thomas, Clk., Bd. of Education, 401 Court House, for the construction of a two-story administration building at the Franklin School. Estimated cost, $125,000. Noted Dec. 24.

✚Atascadero, Calif.—(Dove post office)—The F. O. ENGSTROM CO., Fifth and Seaton St., Los Angeles, has been awarded the contract for the construction of a group of Class A buildings for the Colony Holding Corporation. The estimated cost is $2,000,000. Bliss & Faville, Balboa Bldg., San Francisco, is Arch.

✚Berkley, Calif.—C. L. WOLD & CO., Lombard and Jones St., San Francisco, has been awarded the contract for the construction of a store and apartment building at Derby and College St. for J. M. Booth, 2730 Webster St., Berkeley. The estimated cost is $50,000.

Huntington Beach, Calif.—Plans have been approved by the School Board for the construction of a two-story school at 15th St. and Edgeware Ave. The estimated cost is $70,000. Noted Mar. 11 and Apr. 15.

✚Los Angeles, Calif.—The contract has been awarded to JOHN MULDER at $63,000, for the construction of a five-story apartment and nursery building on Bolsa St., for O. T. Johnson. A. B. Benton is Arch.

✚Los Angeles, Calif.—The contract for the construction of a two-story school at 1517 East 14th St. has been awarded to the JOHN HARNISH CO., 516 Stimson Bldg., Los Angeles, at $78,000. Noted Mar. 18 and Apr. 15.

Los Angeles, Calif.—Bids will be received until 11 a.m., May 18, by William A. Scheldon, Secy. of Bd. of Education, for the construction of a group of buildings for the Franklin High School on 54th Ave. between Irvington Pl. and Hub St. The estimated cost is $146,000.

Los Angeles, Calif.—The Board of Education plans the construction of a two-story school on First and Vermont St. Estimated cost, $120,000. Hunt & Burns, 701 Laughlin Bldg., is Arch.

Los Angeles, Calif.—Contracts will be awarded about Oct. 1 by John F. Blee, Arch., 509 Union League Bldg., for the construction of a five-story, 118x132-ft. loft building at Third and Alameda St. for the Neptune Meter Co. The estimated cost is $135,000. Noted Apr. 8.

Norwalk, Calif.—(Official)—Bids were received by W. F. McClure, State Engr., 625 Forum Bldg., Sacramento, for the construction of a group of buildings for the Norwalk State Hospital for the Insane, as follows: John Mulder, $107,319; Cresmer Mfg. Co., $111,700; J. F. Atkinson, $112,281; L. G. Bergren & Son, $114,872; Los Angeles Planing Mill Co., $116,642; F. O. Engstrum Co., $117,500; Davidson Construction Co., $118,700; John Simpson & Co., $119,420; W. E. Kier Construction Co., $119,850; Nance & Phelps, $120,798; Alta Planing Mill Co., $121,338; Merchant's Realty & Investment Co., $125,450; Robert Jordan, $129,140; James H. Jacobs Co., $129,305; Winget Construction Co., $129,990; C. McNeill, $131,700; C. M. Jordan, $134,497; Weymouth Crowell, $139,900; James P. Dawson, $141,250; John Hayes and J. H. Judy, $159,946. George B. McDougall, Dept. of Engineering, Sacramento, is State Arch. Noted July 23, Aug. 6, Apr. 8 and 22.

Richmond, Calif.—The Y. M. C. A. plans to construct a building to cost about $50,000. Wilbur F. Pierce is interested.

San José, Calif.—Plans have been prepared for the construction of a three-story Y. W. C. A. building, estimated to cost $50,000. Ada Hillman is Acting Secy.

Susanville, Calif.—The County Supervisors have decided to construct a courthouse. The estimated cost is $80,000. Noted Feb. 11.

✚Winters, Calif.—The contract for the construction of a high school has been awarded to HAYES & CO., Sacramento. Estimated cost, $57,000.

Verdun, Que.—(Montreal post office)—The Department of Public Works, Ottawa, Ont., plans to construct a post office at Verdun. Estimated cost $100,000. R. C. Desrochers, Ottawa, is Secy.

✚Hamilton, Ont.—The City Council has awarded the contract for the construction of a hospital to the JAMES FRIED CO., at $90,529. Noted Apr. 22.

TWIN LAKES DAM, SALT LAKE CITY, UTAH
Types Nos. 1 and 2

Bids were received Apr. 21 by the Engineering Department, Salt Lake City, for the construction of the Twin Lakes Dam, Type No. 1, rubble concrete dam, and Type No. 2, reinforced-concrete dam, from: (A) James Stewart & Co.; (B) P. J. Moran Contracting Co.; (C) Sam Williams; (D) John Shea; (E) Ryberg Bros.; (F) Enoch Smith; (G) Bates & Rogers Construction Co.; (H) Stewart Engineering Corporation; (I) Morris-Knudson Co. The item bids for each type of construction were as follows:

TWIN LAKES DAM, SALT LAKE CITY, UTAH

Rubble Concrete Dam, Type No. 1—	A	B	C	D	E	F	G
200 cu.yd. earth and loose rock excavation	$2.25	$1.50	$4.00	$2.00	$1.00	$2.00	$2.00

✚Denotes contract awarded. The names of bidders awarded contracts are set in CAPITALS

RAILWAYS

New York—The Newtonfalls Paper Co. is having surveys made for the construction of a railway from Newtonfalls, N. Y., to its timber tract. James P. Brownell, Carthage, N. Y., is Engr.

South Carolina—Southern Ry.—This company plans to construct a storage yard at Charleston, S. C., in connection with the export coal terminals now being constructed. B. Herman, Washington, D. C., is Ch. Engr.

✚Florida—Palm Beach & Everglades Ry.—This company has awarded a contract to EVERETT P. MAULE, West Palm Beach, for the construction of the first 23 miles of the proposed line from Palm Beach to Lake Okeechobee. Noted Mar. 18.

Ohio—John C. Lake, Pres., Monitor Sad Iron Co., is interested in the construction of a railway from Custaloga to Bigprairie, Ohio.

Ohio—New York Central R.R.—This company has completed surveys for the construction of a cutoff from Doughton to Mosier, Ohio, about six miles. The estimated cost is $500,000. G. C. Cleveland, Cleveland, Ohio, is Ch. Engr.

South Dakota—According to press reports the construction of a railway to connect Waubay, Greenville, Effington, S. D., and Hankinson, N. D., is under consideration.

Texas—International & Great Northern Ry.—Plans are being made by this company for the expenditure of $1,000,000 for the improvement of its lines in Texas. O. H. Crittenden, Houston, Tex., is Ch. Engr.

Arizona—Tucson, Cornelia & Gila Bend R.R.—This company has been incorporated to construct a railway from Gila Bend to Tucson. The incorporators include L. D. Ricketts and J. C. Greenway, Warren, Ariz., and Walter Douglas, Bisbee, Ariz.

ELECTRIC RAILWAYS

Springfield, Mass.—Plans are under consideration by the Springfield St. Ry. Co. for extending its line on St. James Ave., Springfield, to East St., Chicopee. R. G. Tyler is Ch. Engr.

Syracuse, N. Y.—The New York State Rys. Co. has been granted a franchise to construct a single track line on Elm St. from Shuart to Burnet Ave. B. E. Tilton, Syracuse, is Gen. Mgr.

Franklin, Penn.—The Johnstown Traction Co. is making preliminary arrangements for the extension and improvement of its line in Franklin. G. N. Smith is Ch. Engr.

Gretna, La.—Edward L. Slattery and associates are interested in a plan to construct a two-mile street railway from the ferry landing in Gretna.

Rayville, La.—Charles Titche, Pres. Chamber of Commerce of Monroe, and associates contemplate constructing an electric railway from Rayville to Alto and Mangham.

Mayfield, Ky.—R. H. McNeely, Paducah, Ky., is interested in the construction of an electric railway from Mayfield, Ky., to Humboldt, Tenn.

Cleveland, Ohio—The Cleveland Ry. Co. will construct a three-mile extension to its West 25th St. line on State Rd. Estimated cost, $24,000. Charles H. Stanley is Pur. Agt.

Chicago, Ill.—Plans are being prepared by the Chicago Rys. Co. for extending its Chicago Ave. line from North Clark St. to the lake front. Frank L. Hupp is Secy.

Racine, Wis.—The Milwaukee Electric Ry. & Light Co. is considering plans for the extension of its line on Asylum Ave. in Racine. F. V. Bentz is Pur. Agt.

St. Paul, Minn.—The St. Paul City Ry. Co. is considering plans for the extension of its lines on the west side of the city to connect with the Seventh St. and Hill St. lines at Seven Corners via the High Bridge; also a car line in Main Ave. from Seven Corners to Tenth St. and on Rice St. from Rondo to University St. W. Whiteford is Pur. Agt.

Cedar Rapids, Iowa—The Iowa Ry. & Light Co. contemplates the construction of an additional track on Fourth Ave. from Second to Third St. William G. Dows is Gen. Mgr.

Clinton, Iowa—Plans are being considered by the Clinton St. Ry. Co. for the extension of its lines to South Clinton. B. Bohnson is Supt. and Pur. Agt.

Kansas City, Mo.—The Metropolitan St. Ry. Co. has applied to the City Council for a franchise to extend its 13th St. line in Kansas City.

Wichita, Kan.—Plans are being prepared by the Wichita R.R. & Light Co. for the extension of its lines to McLean Park. D. I. Hayworth, Wichita, is Ch. Engr.

Sheridan, Wyo.—Plans are being prepared by the Sheridan Ry. Co. for the construction of a one-mile extension to its line. C. F. Smith is Supt.

Cove, Ark.—J. P. Harpending and associates contemplate constructing an electric railway from the Narrows, Okla. to Cove, Ark.

✚Provo, Utah—The Salt Lake & Utah R.R. Co. has awarded the contract to WILLIAM SMITH, Salt Lake City, for the construction of an electric railway from Provo to Springville, about six miles. Noted Jan. 15 and Apr. 29.

Mill Valley, Calif.—The Marin County Electric Ry. Co. will build an electric road up Cascade Cañon. At present one mile of the road will be constructed, $20,000 having been raised for this purpose.

Toronto, Ont.—A committee of residents of West Toronto has petitioned the City Council to construct a municipal car line on Pacific and Annette St., West Toronto, to connect with the Bloor St. line.

LIGHT, HEAT AND POWER

Lynn, Mass.—It is reported that contracts will be awarded about June 20 by H. L. Gilman and W. A. Armes, Archs., 8 Congress St., Boston, for the construction of a group of buildings for the Lynn Mill Corporation, including a power plant estimated to cost about $100,000.

New York, N. Y.—(Borough of Manhattan)—Bids will be received until June 1 by C. B. J. Snyder, Supt. of School Bldgs., Park Ave. and 59th St., New York, for additions, alterations and repairs to the electrical equipment in Public Schools 25, 31, 44, 62, 177 and 188, Borough of Manhattan.

St. Clair, Penn.—The Borough Council is considering plans for improving the municipal electric-light plant. J. J. Hughes is Supt. of the plant.

Cumberland, Md.—The City Council is considering improvements and additions to the municipal electric-light plant to cost about $15,000. The plans include the installation of a high-speed steam turbine, directly connected, and replacing the present street-lamps with new ones. W. M. Roberts, Jr., is Gen. Mgr. of the municipal plant.

Waynesville, N. C.—At an election held May 4, the citizens voted in favor of issuing $25,000 in bonds to be used for the installation of a municipal electric-light and power plant. Noted Apr. 22.

★New Orleans, La.—(Official)—Bids will be received by the Board of Commissioners, Port of New Orleans, New Orleans Court Bldg., until 8 p.m., June 9, for furnishing and installing three horizontal return tubular boilers in the cotton warehouses and terminal on the east bank of the Mississippi River, between Valence and Somat St. Ernest M. Loeb is Pres. Bd. of Comrs.

Gleason, Tenn.—The citizens have voted to issue $10,000 in bonds for the purpose of constructing a municipal electric-light plant.

Chagrin Falls, Ohio—(Official)—Bids will be received until noon, June 7, by the Board of Trustees of Public Affairs for one horizontal, duplex, direct-acting, non-condensing pumping engine, and one return tubular, brick-set boiler, 54 in. in diameter and 14 ft. long. L. G. Bradley is Clk. of Bd.

Oberlin, Ohio—It is reported that the City Council is considering the installation of a municipal electric-light plant and water-works system.

Shelby, Ohio—The City Council and the Board of Public Affairs have decided to install a municipal electric-light and power plant to cost about $40,000.

Zanesville, Ohio—C. C. Outland, Zanesville, and E. Huntzinger, Piqua, Ohio, are organizing a stock company for the purpose of establishing an electric-light plant at Zanesville.

Holland, Mich.—The lowest bid submitted to the City Council for the construction of a municipal electric-light plant and power station was that of J. H. Sullivan, Grand Rapids, at $14,300. Noted Mar. 11.

Oshkosh, Wis.—The three lowest bids for the installation of heating and ventilating equipment in the new high school building were as follows: General Heating & Ventilating Co., Milwaukee, $20,437, heat regulator, $2070 additional; Downey Heating & Supply Co., Milwaukee, $20,780 and $2170; B. W. Dukerschein Co., Oshkosh, $21,080 and $2220.

Alta Vista, Iowa—(Official)—Bids will be received until June 7 by the Town of Alta Vista for the construction of an electric transmission line and distribution system. F. Rabe is Town Clk.

Charter Oak, Iowa—Bonds have been sold, and plans are being prepared for the installation of a municipal electric-light plant in Charter Oak.

Wilton Junction, Iowa—The City Council has rejected the offer made by the Davenport & Muscatine Ry. Co., Davenport, for the construction of a transmission line to Wilton Junction. The municipal plant will be rebuilt. George Bannock is Mayor.

Muscotah, Kan.—Preliminary plans are being prepared for the establishment of a municipal electric-light plant in Muscotah.

✚Wellington, Kan.—The contracts for the construction of a central power station, cooling pond with Louvre fence, substation, 250,000-gal. reinforced-concrete reservoir, etc., have been awarded to J. H. MITCHELL & SON, Wellington, at $21,992. The contract for a 125-ft. reinforced-concrete chimney with fire-brick lining was awarded to the GENERAL CONCRETE CONSTRUCTION CO., Chicago, Ill., at $1570.

Cody, Wyo.—It is reported that the City Council has engaged the Billings Engineering Co., Billings, Mont., to prepare plans for the installation of a municipal electric-light plant and water-works system. B. W. Bennett is City Clk.

Benton, Ark.—See item under "Water Supply-Irrigation."

✚San Antonio, Tex.—The Commissioners Court of Bexar County has awarded the contract for the installation of a steam-driven power, pumping and electric plant in the Bexar County Home for the Aged and the Juvenile Home, to the SAN ANTONIO MACHINE & SUPPLY CO.

Burley, Idaho—(Official)—Bids will be received until June 3 by Wilson & Cutting, Engr., 325 Electric Bldg., Butte, Mont., for the installation of an electric-heating system (indirect with fan) in the High School at Burley. The building contains 40 rooms.

Miami, Ariz.—See item under "Sewers."

Ellensburg, Wash.—Bids were received by the City Council May 14 for the construction of a power plant, including building, turbine equipment and remodeling of the present plant as follows: Kraner Co., Portland, Ore., $55,479; Spokane Engineering Co., Spokane, $42,217 (not including turbine); Hunt, Mirk & Co., Spokane, $58,577, alternate, $59,987; Charles G. Moore & Co., Seattle, $72,745; Butler Construction Co., Seattle, $54,185 (not including turbine); P. E. McHugh, Tacoma, $62,998. Reuben Crimp is City Clk. Noted Feb. 25, Apr. 1 and 29, May 13.

Republic, Wash.—The West Virginia Mining Co., operating the Lone Surprise mine, near Republic, will install a 200-hp. compressor, a new Diesel engine and an electric hoist.

Blenheim, Ont.—The rate-payers have voted in favor of a bylaw providing for the construction of a hydro-electric system estimated to cost about $14,000. P. S. Shillington is Town Clk. Noted Apr. 22.

Chatsworth, Ont.—A site has been purchased and plans will be prepared at once for a new hydro-electric transmission station. W. G. Reilly will be in charge of the work.

Calgary, Alta.—It is reported that the Alberta Hydro-Electric Power Co. is considering the construction of a series of six dams and power houses to cost about $2,000,000. A. W. Ellson Fawkes, 518 Burns Bldg., Calgary, is Consult. Engr.

BRIDGES

Enosburg Falls, Vt.—(Official)—Bids will be received until 2 p.m., June 4, by the Board of Selectmen for the construction of a 110-ft. reinforced-concrete bridge across the Missisquoi River at Enosburg Falls. The estimated cost is $9000. F. W. Spicer is Chn. Bd. of Selectmen. M. L. Sanders, White River Junction, Vt., is Engr. Noted Apr. 1.

+Lawrence, Mass.—(Official)—The Board of Commissioners of Essex County has awarded the contract for the construction of a bridge over the Shawsheen River at Merrimac St. to W. N. PIKE, Lawrence, at $21,621. List of bidders noted May 20.

Pittsfield, Mass.—It is reported that the Finance Committee of the City Council has recommended an appropriation of $18,000 for the construction of a bridge over the Housatonic River in the Lakewood section. A. B. Farnham is City Engr.

Waterbury, Conn.—Bids will be received until 8 p.m., June 1, by the Board of Public Works, Lilley Bldg., for the construction of a reinforced-concrete arch across the Naugatuck River at Bank St. It will be 54 ft. wide with three spans, one of 60 ft. and two of 50 ft. each. The estimated cost is $80,000. Bids will be received at the same time for removing the present steel truss bridge at Bank St., and re-erecting it across the Naugatuck River at Freight St. Robert A. Cairns is City Engr. Noted Jan. 21 and Apr. 8.

Westport, Conn.—Plans are being prepared by J. F. Vincent, of the Strauss Bascule Bridge Co., 30 Church St., New York, N. Y., for a new bridge at Westport. It will be 300 ft. long and 40 ft. wide. F. M. Salmon is Chn. of the Com.-in-Charge.

+Warsaw, N. Y.—Contracts for the construction of four bridges on the line of the new Wyoming-Pearl Creek State Rd. have been awarded to the WARSAW CONSTRUCTION CO. The largest bridge will be over Oatka Creek in the Town of Covington, and will cost $6000. It will be of reinforced concrete, 106 ft. long.

New Providence, N. J.—Plans are being prepared for a new bridge over the Passaic River between New Providence and Passaic Townships. The estimated cost is $10,000. It will replace the Townley Bridge which has been condemned by the engineers of Union and Morris Counties. Jacob L. Bauer, Elizabeth, is Engr. of Union County.

+Sea Isle City, N. J.—(Official)—The Board of Chosen Freeholders of Cape May County has awarded the contract for the construction of a Strauss type double-lift bridge to the BRIDGETON CONSTRUCTION CO., Bridgeton, at $27,480. Noted Apr. 22 and May 13.

Trenton, N. J.—The Board of Chosen Freeholders of Mercer County has instructed the County Engineer to prepare plans for a new steel bridge over Doctor's Creek, Hamilton Township. Theodore Tobish is County Engr.

+Charleroi, Penn.—(Official)—The Mercantile Bridge Co. has awarded a contract to the UNITED STATES WOOD PRESERVING CO., 165 Broadway, New York, at $15,000, for lumber and blocks for reflooring the Monessen-Charleroi Bridge. William H. Stamm, Charleroi, is Ch. Engr. Noted May 20.

Harrisburg, Penn.—Bids will be received until June 4 by the County Controller of Dauphin County for the construction of a concrete bridge over Wiconsico Creek at Lykens, and for a steel truss bridge over Armstrong Creek five miles above Halifax.

Pittsburgh, Penn.—It is reported that the City Council is considering ordinances authorizing the rebuilding and remodeling of the Greenfield Ave. Bridge at an estimated cost of $11,000, and the Herron Ave. Bridge at a cost of about $42,000. Robert Swan is City Engr.

Keller, Va.—(Official)—Bids will be received until noon, June 3, by S. W. Ames, care of bank, Keller, for the construction of a wooden beam bridge over Occohannock Creek in Accomac County. It will be about 612 ft. long with a 16-ft. roadway. G. P. Coleman, Richmond, is State Highway Comr.

Woodstock, Va.—(Official)—Bids will be received until noon, June 7, by the Clerk of the Circuit Court of Shenandoah County, for the construction of a 300-ft. bridge over the North Fork of the Shenandoah River between Warren and Shenandoah Counties.

+Louisville, Ky.—The Jefferson County Fiscal Court h awarded the contract for the construction of a reinforce concrete bridge over Floyd's Fork to the HOKE CO., Loui ville, at $15,222.

Bucyrus, Ohio—(Official)—Bids will be received until noo June 12, by the Board of Commissioners of Crawford Count for the construction of three county bridges; The Parch Bridge over the Sandusky River in Dallas Township; th McCurdy Bridge over the Sandusky River in Liberty Town ship; an extension to the Mary St. Bridge over the Sandusk River in the City of Bucyrus. H. A. Biebrghauser is Count Audr.

Cincinnati, Ohio—(Official)—Bids will be received until noon, June 7, by Philip Fosdick, Dir. of Pub. Ser., for the reconstruction and repair of bridges in Mt. Washington. Parke S. Johnson is Secy. Dept. of Pub. Ser.

+Cleveland, Ohio—(Official)—The contract for painting various city bridges has been awarded to the LAMBROU STRUCTURAL STEEL PAINTING CO., Williamson Bldg., Cleveland. Noted May 13.

+Fremont, Ohio—The Board of Commissioners of Sandusky County has awarded the contract for the construction of the Tindall Bridge over the Sandusky River in Ballville Township to the CROGHAN CONSTRUCTION CO., P. O. Box 178, Fremont, at $14,690. The bridge will consist of two 166-ft. steel riveted truss spans on concrete substructure. Noted Aug. 27, Oct. 1 and Dec. 10, 1914; Feb. 25 and Apr. 8, 1915.

Hamilton, Ohio—Bids will be received until June 9 by W. W. Crawford, Audr. of Butler County, for the construction of a reinforced-concrete bridge across Gregory's Creek at Hughes Station, Liberty Township.

Lebanon, Ohio—The Board of Commissioners of Warren County has passed resolutions for the construction of a low truss steel bridge over the North Branch of Turtle Creek at Main St., and a concrete substructure of a steel bridge over the same stream at West St., Lebanon. The estimated cost of the structures is $4311 and $5251 respectively. John M. Mulford is County Audr.

+Logan, Ohio—(Official)—The Board of Commissioners of Hocking County has awarded the contract for the superstructure of a bridge over Rush Creek in Marion Township to the CHAMPION BRIDGE CO., Wilmington, Ohio. Noted May .6

Marion, Ohio—J. Lewis Ellis, Arch., is preparing plans for the construction of a three-story fireproof building at Orchard and West Center St. for the Independent Order of Odd Fellows. Estimated cost, $50,000.

New Paris, Ohio—F. L. Packard, Arch., New Hayden Bldg., Columbus, is preparing plans for the construction of a school at New Paris. Estimated cost, $50,000.

Toledo, Ohio—Bids will be received until noon, June 14, by the Clerk of the Board of Education, for the construction of additions and alterations to the Chase School at Chase and Bassett St. and to the Wayne School, at Wayne and Ralph St. Edwin M. Gee is Arch., Bd. of Education.

Woodsfield, Ohio—Plans have been prepared by Howard & Merriman, Arch., 8 East Broad St., Columbus, for the construction of a school. Estimated cost, $50,000. Noted May 13.

Zanesville, Ohio—(Official)—At an election held May 11 the citizens defeated the question of issuing $300,000 in bonds for the construction of a city hall and market. F. H. Bolin is Audr. Noted Dec. 24 and Apr. 22.

+East Chicago, Ind.—The Board of Education has awarded the contract for the construction of the McKinley School to JOHN W. REID, Hammond, at $52,194. J. T. Hutton & Son, 314 Hammond Bldg., Hammond, is Arch.

Franklin, Ind.—(Official)—The date for receiving bids for the construction of a State Masonic Home for the Grand Masonic Lodge of Indiana has been extended to about June 15. Herbert W. Foltz, Indiana Pythian Bldg., Indianapolis, is Arch. Noted Sept. 3 and May 6.

+Indianapolis, Ind.—The contract for the construction of an apartment house on Meridian St. for the Balmoral Court Co. has been awarded to the BUILDERS REAL ESTATE CO., Indianapolis. Estimated cost, $100,000.

Detroit, Mich.—The Great Lakes Realty & Building Co. plans to construct a 20-story office building at Michigan Ave. and Washington Blvd. John R. Nostrand is Secy.

Detroit, Mich.—The Gray Estate Co. plans to construct a 19-story building on the Washington Blvd. Only two stories will be constructed at present which will cost about $75,000.

Marquette, Mich.—An election will be held June 1 to vote on the question of issuing $140,000 in bonds, the proceeds of which will be used for the construction of a high school.

Muskegon, Mich.—(Official)—The construction of a high school, estimated to cost $200,000, has been postponed. It will probably be built in about a year. Robinson & Campan, 449 Houseman Bldg., Grand Rapids, is Arch. Noted May 13.

Chicago, Ill.—James Coupland, 7158 Luella Ave., Chicago, plans to construct an apartment house at 46th St., between Greenwood and Woodlawn Ave. The estimated cost is $250,000.

Chicago, Ill.—Bids will be received about June 1 by Ralph C. Harris, Arch., Stock Exchange Bldg., for the construction of a two-story theater, store and office building at 5746-52 Prairie Ave. for the Prairie Amusement Co. The estimated cost is $70,000. Noted Sept. 17 and May 13.

Chicago, Ill.—The International Tailoring Co., 212 South Market St., plans to construct a ten-story, fireproof building at Jackson Blvd. and Peoria St. The cost is about $250,000.

Chicago, Ill.—Joseph M. Browarsky, 30 North La Salle St., has purchased a site at 69th St. and Stony Island Ave. upon which will be constructed a theater, store and apartment building. The estimated cost is $120,000.

Peoria, Ill. The Peoria Society of Allied Arts contemplates the construction of a two-story art gallery and auditorium. The estimated cost is between $150,000 and $200,000. Warren W. Day, Arch., 527 Main St., has prepared the plans.

Rock Island, Ill.—(Official)—Bids will be received until June 3 by H. B. Hubbard, County Clk., Rock Island, for the construction of the Rock Island County Jail. The estimated cost is $75,000. C. D. McLane, 301 Robinson Bldg., is Arch. Noted Mar. 4, Apr. 29 and May 13.

Milwaukee, Wis.—An ordinance providing for an issue of $720,000 in bonds has been passed by the City Council. The proceeds will be used for school improvements.

Milwaukee, Wis.—The Milwaukee Athletic Club plans to construct a clubhouse, estimated to cost $500,000. Willis E. Keats is Secy.

Milwaukee, Wis.—The Congregation of Temple Emanu-El plans the construction of a temple at Hackett Ave. near Belleview Pl. Estimated cost, $100,000.

Milwaukee, Wis.—R. A. Messmer & Bro., Arch., 1004 Majestic Bldg., is preparing plans for the construction of a three-story building at 1075 Third St. for the Moritz Arndt Lodge, I. O. O. F. Estimated cost, $45,000.

Stevens Point, Wis.—(Official)—Bids will be received about July 19 for the construction of a three-story dormitory for women at the Stevens Point Normal School. Van Ryn & De Gelleke, 726 Caswell Blk., Milwaukee, is Arch. Noted Jan. 14 and May 13.

Mason City, Iowa—An election will be held June 5 to vote on the question of issuing $300,000 in bonds, the proceeds of which will be used for the construction of a high school.

Primghar, Iowa—(Official)—Bids will be received until June 15 by J. B. Stamp, County Audr., for the construction of a courthouse for O'Brien County. The estimated cost is $150,000. Noted Apr. 1.

Crosby, Minn.—Edward F. Broomhall, Arch., 710 Alworth Bldg., is preparing plans for the construction of a high school which will be built in two units. The estmated cost of the first unit is $100,000. Noted Mar. 11 and Apr. 22.

Minneapolis, Minn.—Bids will be received about June 1 by the Board of Education for the construction of a four-story addition to the South High School. The estimated cost is $250,000. Stebbins & Haxby, 445 Auditorium Bldg., is Arch.

Grand Forks, N. D.—The Y. M. C. A. contemplates the construction of an addition to its building. Estimated cost, $40,000.

Butte, Mont.—The County Commissioners have decided to hold an election to vote on the question of issuing $85,000 in bonds. The proceeds will be used for improving and completing the county jail.

St. Joseph, Mo.—Eckel & Aldrich, Arch., Forsee-Corby Bldg., is preparing plans for the construction of a grade school, to cost about $60,000.

Warrensburg, Mo.—Bids will soon be received by Smith, Rea & Lovitt, Arch., 602 Finance Bldg., Kansas City, for the construction of a building at the State Normal School. The estimated cost is $50,000. The buildings at the State Normal School which were destroyed by fire will be rebuilt. The legislature has appropriated $300,000 for the purpose.

Austin, Tex.—The Legislature has passed a bill appropriating $300,000 to be used for the construction of a State School for the Blind.

Dallas, Tex.—Guidera & Bell, 1608 Main St., plans to construct a four-story hotel at Houston and Jackson St. The estimated cost is $50,000.

Ft. Worth, Tex.—The Knights of Pythias of Texas plan the construction of a temple at Ft. Worth. Estimated cost, $300,000. James Stephens is Vice-Pres. and J. A. Oldfather, Cleburne, is Secy.

San Angelo, Tex.—Bids will soon be received by Ross & Cason, Arch., Waco, for the construction of a three-story high school. The estimated cost is $65,000. Noted Mar. 11, Apr. 8 and 22.

San Antonio, Tex.—The City Council has granted a franchise to the San Antonio Belt & Terminal Ry Co., a subsidiary of the Missouri, Kansas & Texas Ry. Co., granting permission to construct terminals, stations and cross the streets of San Antonio. The company will expend about $1,200,000 for the construction of terminals.

Perry, Okla.—(Official)—Bids will be received until June 1 by W. T. Faris, County Clk., for the construction of a courthouse, to cost about $100,000. Noted Apr. 29.

Colorado Springs, Colo.—Plans have been prepared by MacLaren & Thomas, Arch., for the construction of a hospital at the Modern Woodmen Sanitarium. Estimated cost, $50,000. J. A. Rutledge is Supt. Noted Feb. 25 and Apr. 22.

Denver, Colo.—(Official)—At an election held May 18 the citizens defeated the question of issuing bonds for the construction of a municipal building. Walter L. Rice, City Hall, is Ch. of Bldg. Dept. Noted Apr. 8 and 29.

Salt Lake City, Utah—Samuel Newhouse and associates plan to construct a 28-story building near the Newhouse Hotel. The estimated cost is $1,500,000. Samuel Untermyer, 37 Wall St., New York, N. Y., is interested.

Tucson, Ariz.—Plans have been prepared by Trost & Trost, Arch., Mills Bldg., El Paso, Tex., for the construction of a two-story Scottish Rite Cathedral. The estimated cost is $100,000.

Bellingham, Wash.—An election will be held June 5 to vote on the question of issuing $95,000 in bonds. The proceeds will be used for the construction of an addition to the high school and other school improvements.

Seattle, Wash.—(Official)—Bids will be received about Aug. 1 by the Board of Regents, University of Washington, for the construction of the first unit of a two-story building. Estimated cost, $150,000. Bebb & Gould, Denny Bldg., is Arch. Noted May 6.

Walla Walla, Wash.—Bids were received by the County Commissioners of Walla Walla County for the construction of a courthouse. M. J. Hurson Co., Globe Bldg., Seattle, was the lowest bidder, using Boise stone, at $137,750, and using terra cotta at $132,750. Other bids using Boise stone were: J. B. Sweatt & Co., Spokane, $139,500; Finne & Gjarde, Seattle, $141,940; J. J. Lohrenz, Spokane, $142,265; John T. Huetter, Spokane, $143,850; T. H. Tillman & Co., Portland, Ore., $143,960; Boyajohn-Arnold Co., Portland, Ore., $144,000; Sound Construction & Engineering Co., Seattle, $144,574; C. L. Creelman, Tacoma, $144,912; Hans Pederson, Seattle, $145,000; S. G. Morin, Spokane, $146,989; J. A. McLean, Walla Walla, $147,515; F. E. Peterson, Walla Walla, $148,023; Litherland & Abrey, Portland, Ore., $148,900; Olson & Johnson, Missoula, Mont., $149,695; McRae Bros., Seattle, $149,700; Pearson Construction Co., Seattle, $149,900; Sylliaasen & Sando, Seattle, $149,997; Alloway & George, Spokane, $150,280; Bailey & Lambert, Walla Walla, $150,490; Butler Contracting Co., Seattle, $150,500; Beers Building Co., Portland, Ore., $151,700; Pacific States Construction Co., Seattle, $159,000; E. J. Rounds Construction Co., Seattle, $159,000; Booker-Keihl & Whipple, Seattle, $159,832. The three lowest bidders using the following materials, Tenino stone (a), Wilkeson sandstone (b), Indiana sandstone (c), and terra cotta (d), were: M. J. Hurson Co., Globe Bldg., Seattle, (a) $136,750, (b) $152,750, (c) $143,750, (d) $132,750; J. B. Sweatt & Co., Spokane, (a) $134,500, (b) $149,900, (c) $141,800, (d) $132,800; Finne & Gjarde, Seattle, (a) $137,408, (b) $150,745, (c) $144,231, (d) $144,231. Noted Jan. 7 and 28, Mar. 11 and Apr. 15.

Grants Pass, Ore.—All bids received May 5 for the construction of a three-story courthouse have been rejected by the County Commissioners. New bids will be received in the fall. John Almeter, at $62,253, submitted the lowest bid. Noted Mar. 4 and 25, and Apr. 29.

Portland, Ore.—Bids will soon be received by Lawrence & Holford, Arch., 1021 Chamber of Commerce Bldg., for the construction of a 2½-story, 150x200-ft. clubhouse for the Irvington Tennis Club, East 21st and Thompson St. Noted Apr. 22.

Chico, Calif.—M. Schott plans to construct a concrete building at 710 Main St. which will cost about $50,000.

Los Angeles, Calif.—Parkinson & Bergstrum, Arch., Security Bldg., is preparing plans for the construction of a bank and office building on Spring St. for the Security National Bank, Fourth St. and Broadway.

✚Norwalk, Calif.—W. F. McClure, State Engr., 625 Forum Bldg., Sacramento, has awarded the contract for the construction of a group of buildings for the Norwalk State Hospital for the Insane, to E. L. BERGEN & SON, San Francisco, at $114,872. Noted July 23, Aug. 6, Apr. 8 and 22 and May 20.

Owensmouth, Calif.—Bids will soon be received for the construction of a two-story high school. The estimated cost is $75,000. Dennis & Hewitt, 618 Fay Bldg., Los Angeles, is Arch. Noted Nov. 26, under Los Angeles, Calif., Dec. 24 and Mar. 11.

✚San Fernando, Calif.—JOHN MULDER, 143 Rose St., Los Angeles, at $51,710, has been awarded the contract for the construction of an auditorium and mechanical arts building at the San Fernando Union High School. GEORGE C. CONDON, Wesley Roberts Bldg., Los Angeles, at $42,800, has been awarded the contract for the science building in the same group of high school buildings. John C. Austin, Baker-Detwiler Bldg., Los Angeles, is Arch. Noted Oct. 29, Mar. 11 and Apr. 22.

✚San Francisco, Calif.—The PACIFIC ROLLING MILLS CO., at $85,433, has been awarded the contract for the steel frame of the public library. The estimated cost of the building complete is $1,000,000. Noted Oct. 1.

San Francisco, Calif.—Preliminary plans have been prepared by Reid Bros., Arch., California Pacific Bldg., for the construction of an eight- or ten-story Class "A" store and office building for Hulett C. Merritt, 702 South Spring St., Los Angeles. The cost is estimated at $500,000.

San Francisco, Calif.—The Metropolis Investment Co. will construct a five-story apartment house on Ellis near Leavenworth St. Estimated cost, $100,000. O. R. Thayer is Arch.

San Francisco, Calif.—The Board of Public Works plans to construct a Juvenile Detention Home on Otis St. The estimated cost is $150,000. Louis C. Mullyardt, Chronicle Bldg., is Arch.

✚San Jose, Calif.—The contract for the construction of a three-story Y. W. C. A. building has been awarded to MORRISON BROS., at $66,030. Julia Morgan, San Francisco, is Arch. Noted May 20.

Whittier, Calif.—The State Legislature is considering a bill appropriating $75,000 which will be used for the construction of buildings at the State Reform School at Whittier.

The Jeffrey Mfg. Co., Columbus, Ohio, announces the removal of its New York branch to 50 Dey St., near the Hudson Terminal. The company will carry in New York a stock of power transmission machinery, including shafting, hangers, pulleys, collars, couplings, elevating and conveying appliances, including sprocket wheels, steel elevator buckets, elevator boots, and screw conveyors. George H. Mueller, Asst. Sales Mgr. of the company, is in charge of the New York office.

The Contractors' Service Co., 50 Church St., New York, N. Y., is in the market for 45 flat cars, 25- to 30-tons capacity, with steel underframes, not less than 32 ft. long. Eastern delivery is preferred.

Construction News

★Denotes work advertised in ENGINEERING NEWS.
✚Denotes contract awarded. The names of bidders awarded contracts are set in CAPITALS.

A STEADY VOLUME OF BUSINESS

The ability of business to withstand the severe shocks which occurred during May, indicates clearly the firm foundation which underlies the general structure. Although the newspapers in the United States are calling attention to the dire possibilities that might result from international complications, there has been no postponement of business already under way—no engineering contracts, as far as can be learned, have been postponed for this reason—and while there was a temporary halt in the volume of new business, this has almost all disappeared and increased activity is making steady headway. As far as the general business situation is concerned, it was better on June 1 than on May 1. More men are at work, more projects are planned, and there is more confidence that business this year will show a steady gain. Contracts for certain commodities have been made for delivery well into 1916, and the business world is taking a long look ahead.

Foreign orders make up an unusually large proportion of the business taken by those in the metal trades. First of importance come the orders for necessary war materials, and more than fifty manufacturers in the United States are turning out shrapnel alone. In addition to this, many shops are rushed to capacity, making tools for the manufacture of such materials, to say nothing of the chemical industry and the great stimulation to the metal trade. That so great an amount of business could be placed was not believed by those familiar with the amount of material usually required by armies. Aside from the orders calling for strict munitions of war, vast quantities of barbed wire and materials which will be used by civilian population, but which cannot be made in the countries now at war, are required. All these are swelling the foreign business of the United States to figures hitherto scarcely thought possible.

Russia has been an extremely large purchaser of railway equipment, including rails, and it is probable that more rolling stock and motive power will have to be purchased in this country, as heretofore most of the material of this character came from Germany; Russian manufacturing facilities, even in times of peace, are totally inadequate to care for the demand.

In the iron trade, business has increased steadily, that is, the operation at the mills, and the leading manufacturer of iron and steel products, whose operations perhaps are on a slightly smaller scale than those of other steel manufacturers, is running his plant at the rate of about 75% of capacity. Prices have remained practically stationary, although an advance in galvanized sheets is noted, this being due purely to the increase in the cost of spelter. Bessemer iron moved up 15c. a ton in the last week in the month, and seems to be in much better demand. The speculative interests which purchased a large tonnage of Southern foundry iron have not been able to dispose of it at a profit. Activity in the line of large bars and forging shapes is especially pronounced. There is likewise an increase in the demand for steel plates for shipbuilding purposes. Structural steel work is more active, the fabricating shops of the country operating at about 62% of capacity, compared with 32% in the dullest time last year. The rapid progress being made on the steel work in New York City for the extension of the subways and elevated lines is responsible for considerable of this activity, but a great many railroads are replacing bridges as rapidly as their funds will allow. A good deal of the work, too, comes from county commissioners for small highway bridges.

Rapid advances in the prices of metals have carried quotations to levels hitherto scarcely believed possible. The most spectacular advance has been in spelter. This metal, which was selling at 14½ to 15c. a month ago, and 7c. a year ago, is now quoted at 21c., and there is scarcely any to be had. For the first time in the history of the metal trade, the price of spelter was higher than that of copper. This advance caused corresponding increases in the price of brass and brass products; lead has advanced $6 per ton; antimony is practically unobtainable. The unusual prices have brought about great activity in zinc smelting works, and plants long disused are being pressed into service.

Never before in the history of the United States has the financial situation been so intrinsically sound. The new banking system has been in operation long enough to prove its worth; a stock of gold has been accumulated far beyond the needs of present trade or anything that is likely to take place this year; and American bankers are financing foreign governments and shipments of foreign goods. Current liabilities of foreign merchants on "acceptances" amount to more than $120,000,000, compared with only nominal figures a year ago, and bid fair to increase rapidly. The sale of long-term bonds is slow, most investors preferring to await developments. This, of course, will retard much construction work, which cannot be carried on with high capital charges.

A conference of delegates from the Pan American states is now in the United States, and this continent bids fair to extend American trade in South America and place it on a permanent basis, for in connection with the sale of American goods, efforts, not without result, are being made to finance them in foreign countries. A delegation from China is spending two months in the United States, studying manufacturing and trade facilities.

Railroad buying has been on a larger scale. The number of cars ordered in May would total about 30,000, which is more than for the entire six months preceding. The buying of railway equipment, however, has been below normal for nearly two years. Some buying of rails has taken place, but not any large amounts.

LABOR

A shortage of labor, particularly for construction work, and rough labor around mills and factories, is likely to occur later in the year, and the demands of the unions will perhaps be more unreasonable than ever before.

One contractor, at least, who secures most of his labor from New York, has asked an agency to send him men at $2 per day. This, of course, is an unusual price, and it is possible that many orders could be filled, just at present, at $1.75 per day. The matter of labor, however, is going to be a most serious consideration for contractors and manufacturers before the end of the year. Everything points to a shortage of rough labor, such as now exists in the skilled labor market. It may, perhaps, be due to some not being familiar with the machine tool industry, but men who can operate machine tools are in demand at more than ordinary wages, particularly foremen who can handle large bodies of men and get out production. It will not be a question of "at what price," but rather "can the labor be obtained." With the entrance of Italy into the war, there will be no more Italian labor coming to this country, and practically none has arrived since Aug. 1, 1914. When it is recalled that nearly a million immigrants enter each year, and a goodly proportion of these are laborers who find their way to the ranks of the construction companies, the cutting off of this important source of supply can be realized. At present, only a few of the large companies seem to have taken the matter seriously. One of the largest companies in the United States has steadfastly refused to make extensive contracts for distant delivery at any price whatever, solely for the reason that it can not foretell what the labor market will be. Some companies were so farsighted in the latter part of 1914 that, while they could have reduced wages and had the reduction accepted practically without any opposition, they declined to do so, and the reason is now apparent. They wished to keep the workers in the vicinity of their own plants, even though it were idle, for nothing induces a workman to migrate more quickly than a cut in wages. They will stand unemployment and live, but when wages are cut, they almost invariably seek other locations, and in some cases other lines of employment.

It is more than possible that a greater proportion of female labor will be employed in factories than ever before.

CEMENT, LIME AND BRICK

Portland Cement—Practically no change is found in the market. The mills report a seasonable increase in the volume of orders and in shipments, but nothing sufficient to bring about any higher prices. It is evident that the cement trade is in for a spell of bad weather, but it seems improbable that present prices will continue throughout the season. In New York the price is $1.23, which includes the usual charge of 40c. for bags returned. The following quotations were current at the points named, and do not include the usual charge for bags:

Chicago	$1.11	Boston	$1.46
Detroit	1.19	Cleveland	1.16
Jersey City	0.74	Duluth	1.32
New York	0.82	Minneapolis	1.30
St. Paul	1.30	Pittsburgh	1.00

Brick—The market is steady, but with no animation. More brick have been sold so far this year than in the corresponding time last year. Prices are steady at $6 to $6.50 New York for Hudson River Common.

Crushed Stone—Business shows no special activity. Prices are unchanged at 95c. per cu.yd. for 1½-in. stone and $1.05 for ¾-in. stone.

Gravel—Material which will pass the specifications of the Public Service Commission, known as "subway gravel," sells at 95c. to $1. For 1½-in. gravel the price is 80c. For ¾-in. the price is 85c. These prices are for barge lots of 500 cu.yd. delivered alongside of dock New York.

Lime—The market is steady, standard 300-lb. special finishing selling at $1.55 to $1.60. Eastern common sells at $1.15.

IRON AND STEEL

Bluestone—At this season of the year an increase in this line of work usually takes place. However, dealers report that business is better than expected. Bronx flagging sells at 17c. per sq.ft. and Manhattan at 18c. per sq.ft. Curbing prices are steady; 5x16 in. brings 40c. per lin.ft. and 5x20 in. 45c. per lin.ft. Sewer bottoms are held at 25c. per sq.ft. for 5x5 ft. by 3 in.

Pig Iron—The market in pig iron during the past month has been quiet. After the increase of tonnage in April business decreased about one-half. The total sale of foundry iron for May was about 300,000 tons against 550,000 in April. The demand in the Eastern district remained without improvement, and in nearly all sections buying of foundry and steel making iron is confined to small lots. However, it is reported that some basic contracts have been placed in the Pittsburgh district on a basis of $12.50 a ton at Valley furnace. The Southern market remains dull, most of the reported sales being also of small lots. Eastern pipe works have taken some lots of low-grade foundry iron and negotiations are pending for 15,000 tons additional. Prices remain stationary, as producers are confident that a reduction would not induce many orders until conditions change. The departure of Italian workers for the war is causing a shortage of common labor in many quarters of the iron industry. The Connellsville coke district is bound to be affected, and a scarcity of labor is reported from the West Virginia coal fields. Prices in lots of 100 tons or over at the points named are as follows: Cincinnati, Southern Foundry No. 2, $12.50@12.75; Cincinnati Northern Foundry No. 3, $13.75@14. In New York quotations are as follows: No. 2X Northern Foundry, $14@14.50; No. 2 plain Northern Foundry, $13.75@$14.25; No. 2 Southern Foundry delivered, $13.50@14. Pittsburgh bessemer iron in $14.45 and basin $13.45 including the 95c. freight charges from the Valley to the Pittsburgh District.

Steel Rails—Business has improved and some very good orders placed. These include 25,000 tons for the Southern Pacific, 15,000 tons for the Lake Shore, 15,000 tons for the Chesapeake & Ohio, and 8000 tons for the Chicago & Alton. The Pennsylvania order for 135,000 tons is still hanging fire, but it seems probable that this will be placed within a few weeks. A feature of importance was an order taken by the Colorado Fuel & Iron Co. for a considerable amount for the Russian Government, and negotiations are pending for 100,000 tons of rails for the Trans-Siberian line. The Public Service Commission, New York, will be in the market for rails and both the Manhattan and the Brooklyn elevated lines will have to buy later. Prices for lots of 1000 tons and over are as follows: Standard sections of bessemer, $28; open hearth, $30; both per net ton f.o.b. Pittsburgh. Girder rails in 30-ft. lengths are $36.40 gross ton, and in 60-ft. lengths $38.40 per gross ton, both f.o.b. New York. Other quotations, f.o.b. Pittsburgh, for large lots, the prices being given in cents per pound. as follows: Standard sections, 1.25c.; 20- to 30-lb., 1.15c.; 15- to 20-lb., 1.20c.; 12- to 18-lb., 1.25c.; 8- to 12-lb., 1.30c. For large lots of light rails prices will be considerably shaded.

Track Supplies—The market is much more active than in several months, but rumors of large inquiries from Russia are received with more or less reserve. Standard raiload spikes are quoted at $1.35 to $1.40, and small railroad spikes at $17.45 to $1.50. These are in 100-lb. lots f.o.b. Pittsburgh. In Chicago, track bolts and square nuts are $1.90, and angle bars $1.50. These prices are per 100 lb. Tie plates can be had at the mill at $23.25 and $24.25 per net ton.

Structural Shapes—The prices of structural materials are unchanged compared with last month, but the figure of $1.20 Pittsburgh is more generally adhered to than was the case at that time. While fabricating business is not at all active, it is much better than a month ago, and the report of the Bridge Builders & Structural Society shows that about 63% of the fabricating capacity of the country is now operating. This compares with the low figure reached late last year of 32% of capacity. Prices are unchanged. For I-beams 3 to 15 in., channels 3 to 15 in., angles 3 to 6 in., T's 3 in. and over, $1.20. Other quotations include I-beams over 18 in., H-beams over 18 in., channels over 15 in., angles over 4 in., $1.25. T's, deck beams, and bulb-angles are $1.50, handrail T's $1.95. Cutting to specified lengths is charged at the following rates: 3 ft. to 2 ft. inclusive, 25c.; 2 ft. to 1 ft., 50c.; under 1 ft., $1.55. In Philadelphia the base price is $1.36, in San Francisco $2 to $2.05, New York, $1.37. All of these prices are per 100 lb.

Plates—Shipbuilding work is exceedingly active. Probably every shipyard on the Atlantic Coast has work enough to keep busy for 18 months. Foreign governments are attempting to have ships built here, but so far have been unsuccessful, and practically all the coastwise and ocean lines in the country are endeavoring to get more ships built. It is stated on good authority that it would be impossible to secure delivery promised on any orders placed now inside of 20 to 24 months. This means the most active demand for ship plates that the country has ever had. At the same time, car orders have been fairly large. The Pennsylvania R.R. has given out contracts for nearly 15,000 cars, but will build some of them in its own shops, and other railroads are in the market for a quantity. These have not affected the plate market as much as would be expected, for many of the cars now contracted for are box cars. The prices of plate are unchanged at $1.20 Pittsburgh, equivalent to $1.29 Chicago, $1.36 Philadelphia, $1.37 New York. All these quotations are per 100 lb.

Cast-Iron Pipe—The amount of business has not kept up with the expectations of the foundries, and there is very little tonnage of importance in sight. In Birmingham there is strong hope that freight rates to the Pacific Coast may be sufficiently reduced so they can secure a good share of this business. Prices are slightly higher at Birmingham, 4-in. being quoted at $20, 6-in. and upward at $18. In New York, Class B pipe is quoted $22 to $22.50, Class A pipe $23 to $23.50. In Chicago 4-in. is quoted at $25.50, 6- to 12-in. $23.50, 16-in. and larger $22. Gas pipe is held at one dollar per ton higher on all markets.

Pipe—Prices are somewhat higher. The demand for tubular goods is excellent, one of the manufacturers of pipe operating at 80% of capacity. One company has taken a contract for 50 miles of 8-in. and about 10 miles of smaller pipe.

Discounts are 1% less as follows:

	Black	Galvanized
¾- to 2-in. steel, butt welded	79%	68½%
2½- to 6-in. steel, lap welded	78%	67½%
7- to 12-in. steel, lap welded	76%	65%½

At these discounts, the net prices of pipe per foot, in large lots, at Pittsburgh are as follows:

	Cents			Cents	
Diameter	Black	Galvanized	Diameter	Black	Galvanized
½ in.	2.41	3.62	5 in.	32.56	47.10
1 in.	3.57	5.35	6 in.	42.24	62.40
1¼ in.	4.83	7.24	7 in.	57.12	81.91
1½ in.	5.77	8.66	8 in.	60.00	86.25
2 in.	7.77	11.65	9 in.	82.80	$1.18
2½ in.	12.87	18.91	10 in.	98.88	1.42
3 in.	16.83	24.85	11 in.	$1.11	1.59
4 in.	23.98	35.42	12 in.	1.21	1.74

Sheets—The price of galvanized sheets may have been higher in the early days of the industry, but at no time since they have been so successfully used in such a variety of industries, have prices ever soared to such levels. Some galvanized sheets now command a higher price than tin plate, and it is difficult to see how galvanized sheets can be used to any extent with the present prices of spelter in vogue. Some manufacturers are turning their attention to a lead coating of sheets, an expedient which was tried in the early days, and something which may now be successful. But it is needless to say that a lead coated sheet cannot be experimented with and put on the market in time to help very much in the present situation. The demand for black sheets has increased rapidly. No doubt exists but that many manufacturers are using black sheets where the galvanized were heretofore used almost exclusively. The following quotations are for large lots of sheets f.o.b. Pittsburgh, and small lots in store New York:

	Cents per Pound			
	Large lots Pittsburgh		Warehouse delivery New York	
	Black	*Galv.	Black	*Galv.
No. 10	1.55	2.60	....	....
No. 12	1.55	2.70	....	....

No. 28	1.90	3.60	2.60	4.65

*Quotations nominal.

Steel Sheet Piling—Prices continue practically without change at $1.50 to $1.60 per 100 lb. f.o.b. Pittsburgh.

Wire Rope—Business shows some increase, but the demand is not yet up to normal. Discounts are unchanged at 47 and 5% from list for galvanized, and 55 and 5% for bright. At these discounts the net prices of wire rope at the mills are as follows:

Diameter in Inches	Price per Foot		
	Cast Steel	Crucible Steel	Plow Steel
2½	$0.75	$0.90	$1.07
2¼	0.61	0.73	0.86
2	0.47	0.57	0.67
1¾	0.39	0.49	0.58
1½	0.28	0.34	0.40
1¼	0.20	0.24	0.27
1	0.13	0.15	0.18
¾	0.08	0.09	0.11
⅝	0.06	0.07	0.08

Old Materials—Prices are lower at many points in the country. The decision of Italy to enter the war brings up a new problem; for years this country has been the dumping ground for all the cheaper kinds of scrap. Will more or less now be required? The New York market is dull and prices are as follows:

	Per Gross Ton
Heavy-melting steel scrap	$8.75 to $9.00
Pipes and flues	8.00 to 8.25
No. 1 railroad wrought	10.50 to 10.75
Stove plate	7.75 to 8.00
No. 1 machinery cast	11.50 to 11.75
Wrought turnings	6.00 to 6.25

The Chicago market shows no scrap but railroad offerings are not coming in quite so heavily. The following prices are current:

	Per Gross Ton
Heavy-melting steel scrap	$9.50 to $9.75
	Per Not Ton
No. 1 railroad wrought	$9.00 to $9.50
No. 2 railroad wrought	8.25 to 8.75
No. 1 cast scrap	9.00 to 9.25
Pipes and flues	6.50 to 6.75
Agricultural malleable	7.25 to 7.50
Railroad malleable	8.25 to 8.50

The Pittsburgh market is no firmer but there is a general belief that, with the gradual but constant enlarging of mill operations, prices will improve. There has been no large accumulation and materials are in strong hands.

	Per Gross Ton
Heavy-melting steel scrap	$11.75
Rerolling rails	11.75 to 12.00
No. 1 foundry cast	12.00 to 12.25
Old car wheels	11.75 to 12.00
Machine shop turnings	7.75 to 8.00
Railroad malleable	10.50 to 10.75

Chain—Prices are steady and without change, as follows. These prices are per 100 lb., f.o.b. Pittsburgh:

3/16 in.	$7.50	½ and 9/16 in.	$3.00
¼ in.	4.95	⅝ and 11/16 in.	2.90
5/16 in.	3.95	¾ and 13/16 in.	2.80
⅜ in.	3.40	⅞ ond 15/16 in.	2.70
7/16 in.	3.20	1 to 1¼ in.	2.60

EXTRAS TO ABOVE LIST PER -00 POUNDS

	For BB	For BBB
3/16-in. and ¼-in.	$1.50	$2.00
5/16-in. and larger	1.25	1.75

Wire—Some of the wire mills, which have orders for war materials, have made new high records. The shipments of barbed wire into Italy have been very heavy for the last two months. The price of spelter has practically taken galvanized wire out of the market. Annealed fence wire sells at $1.35@1.40 and painted barbed wire $1.60, both f.o.b. Pittsburgh. Woven wire fencing is quoted at 72% discount for carloads, 71% in 1000 rod lots and 70% for small lots, all f.o.b. Pittsburgh.

Freight Rates—The freight rates on finished steel products from the Pittsburgh district, including plates, structural shapes, merchant steel, bars, pipe fittings, plain and galvanized, wire nails, rivets, spikes, bolts, black sheets (except planished), chain, etc., are as follows, in cents per 100 lb.: Boston, 18.9c.; Buffalo, 11.6c.; Baltimore, 15.4c.; Cleveland, 10.5c.; Cincinnati, 15.8c.; Chicago, 18.9c.; Denver, Colo., 68.6c.; New Orleans, 30c.; New York, 16.9c.; Philadelphia, 15.9c.; St. Louis, 23.6c.; Minnesota and St. Paul, 32.9c.; Pacific Coast (all rail), 80c.

Merchant Steel—Business shows an improvement but stocks in the hands of jobbers are large and in consequence the following quotations may be shaded at times. Prices from jobbers' store in New York are as follows:

	Cents Per Pound
Refined iron:	
1 to 1⅞ in., round and square	1.85
1½ to 4 in. x ⅜ to 1 in.	1.85
1½ to 4 in. x ¼ to 5/16 in.	2.05
Norway bars	3.20
Burdens bar iron	3.15
Soft steel:	
¾ to 3 in., round and square	1.85
1 to 6 in. x ⅜ to 1 in.	1.85
1 to 6 in. x ¼ and 5/16	2.00
Rods—⅝ and 11/16 in.	1.95
Bands—1½ to 6x3/16 in. to No. 8	2.15
Beams and channels—3 to 15 in.	1.90
Angles:	
3 in. x ¼ in. and larger	1.90
3 in. x 3/16 in. and ⅛ in.	2.35
1½ to 2¾ in. x 3/16 in. and thicker	2.00
11½ to 2½ in. x ⅛ in.	2.10
1 to 1¼ in. x 3/16 in.	2.10
1 to 1¼ in. x ⅛ in.	2.15
Tees:	
1½ to 2½x¼ in.	2.05
1½ to 2½x3/16 in.	2.15
3 in. and larger	1.95

REINFORCING MATERIALS

Bars, Concrete Reinforcing—Business shows an improvement and there is a great deal of activity at the mills due to the manufacturer of larger bars for war materials.

	Cents per Pound		
Size	Mill Shipments Pittsburgh	*Warehouse Pittsburgh	Delivered from *Warehouse New York
¾-in. and larger	1.20	1.55	2.00 to 2.05
⅝-in.	1.25	1.70	2.05 to 2.10
½-in.	1.40	1.85	2.20 to 2.25
⅜-in.	1.50	1.95	2.30 to 2.35
¼-in.	1.80	2.25	2.65 to 2.70

*Bars from warehouse are cut to desired length without extra charge.

Triangle Mesh—Prices continue steady and there is a fair inquiry:

PRICE PER 100 SQ.FT.

		Plain Material		Galvanized	
Style No.	Cross Sec. Area per Ft. Width	Carload Lots	Less Than Car Lots and Over 10,000 Sq.Ft.	Carload Lots	Less Than Car Lots and Over 10,000 Sq.Ft.

METALS

Copper—Prices have about held their own since last month. Production has increased, and, with it, consumption. One of the features of the copper market is that American electrolytic sells in London at about ¾c. per lb. less than is charged to consumers here. Sales have been made in New York for delivery in London at 18c. f.o.b. New York, and resales made at London at 18c. to 18½c. f.o.b. New York, are making an impression on the consumers, but a further readjustment and real competition among producers to balance selling prices are probable. During the last of the month domestic manufacturers bought electrolytic from large producers at 18⅞c. delivered 30 days for shipment from June to August, while second hands find it difficult to sell small lots at 18½c. delivered 30 days. Lake copper has sold at 23c. in New York, and inquiries are being made for 1916. Exports since the first of May have been about 29,000 tons.

Tin—The metal has further declined in price since May 1. Large imports have no doubt contributed to the decline, beside which the market has been dull. Far-off positions are weaker, and nearby tin is also easier owing to the small demand. Arrivals for May amount to about 6000 tons. It is interesting to note that some Bauka and Chinese tin is being offered and prompt shipment from Batavia is offered at 35¾c. Spot tin is held at 37½c. with nearby positions at 37c. June delivery at 36¾c., July at 36½c., August and later positions at 36c. Prices are nominal only and under present conditions there is little opportunity for large trade.

Lead—Prices have advanced since last month and its position is strong. In 50-ton lots for shipment from the West the price advanced to 4.50c. Spot in the open market at New York was held at 4.50c. and at East St. Louis 4.42½c.

Spelter—The market has been in more or less of an excited state ever since the beginning of the month. Prices have steadily advanced, and are nominal, owing to the scarcity of spot. The high prices may bring about resales, but first hands have but little to offer. Spot at New York is quoted at 21c. and at East St. Louis, June and July metal is nominal at 20c. No sales are reported of August and September metal.

Old Metals—A fair demand has existed but advanced sharply. Selling prices are approximately:

	Cents per Pound
Copper, heavy cut and crucible	17⅛
Copper, heavy and wire	17
Copper, light and bottom	14⅞
Heavy Machinery composition	13.50
Brass, heavy	12.00
Brass, light	11.00
No. 1 clean brass turnings	13.25
No. 1 composition turnings	12.50
Lead, heavy	3.90
Lead, tea	3.65
Zinc, scrap	14.00 to 16.00

Miscellaneous Metals—Prices of various brass products are higher than ever before. The following quotations are more or less nominal, due to the inability to forecast the market even for a day or so:

	Per Pound
Brass tubes, iron-pipe sizes:	
½ in.	29.00
¾ in. to 3 in.	28.00
3½ in.	28.00
4 in.	29.00
Brass rods	24.00
Brass sheets	24.00
Solder	29.00
Copper tubes	29.00
Zinc sheets	25.00
Copper sheets	25.00
Pig tin (five-ton lots, cash)	38.00
Bismuth	$3.75 to $4.00

CLAY PRODUCTS

Sewer Pipe—As expected, the arrival of warm weather has caused a general improvement in the market. Moreover, there is a decided increase in the amount of sales as compared with the corresponding time last year. Prices remain unchanged, the following discounts being effective: On 3-in. to 24-in. sizes, 80% off list; 27 and 30 in., 70%; 30 and 36 in., 65%. At these discounts, prices are as follows:

PRICE OF SEWER PIPE PER FOOT

Size		Size	
3-in.	$0.05	18-in.	$0.38
4-in.	0.05	20-in.	0.45
5-in.	0.08	22-in.	0.60
6-in.	0.08	24-in.	0.65
8-in.	0.11	27-in.	1.35
10-in.	0.16	30-in.	1.65
12-in.	0.20	33-in.	2.20
15-in.	0.27	36-in.	2.45

Flue Lining—A considerable improvement has been shown during the month, and conditions are very favorable for a large volume of business. However, the discounts remain unchanged at 80% off list. At this rate, prices are unchanged as follows:

FLUE LINING PRICE PER FOOT

Size	Weight in Lb.	Price per Ft.	Size	Weight in Lb.	Price per Ft.
4½x8½-in	14	$0.07	8½x18-in	45	$0.18
4½x13-in	20	0.09	13x13-in	45	0.17
7½x7½-in	15	0.08	13x18-in	57	0.24
8½x8½-in	18	0.09	18x18-in	75	0.40
8½x13-in	28	0.13			

MISCELLANEOUS

Railway Ties—No activity can be reported. Conditions remain about the same as a month ago. Manufacturers look fordward to an improvement during July. First-class standard ties, 7x9 in. by 8 ft. 6 in. are selling at 73c.; 6x8 in. by 8 ft. at 60c. These prices are f.o.b. New York.

Asphaltum—The demand for sheet-asphalt pavements in the last three years has been nothing short of marvelous, prices in the South and Middle West making possible a pavement increasing in popularity, yet low-priced and durable. This is due in a large measure to the great demand for the moderate priced Mexican asphalts, which, since their introduction about three years ago, have practically revolutionized the sheet asphalt paving industry. Prices for the finished pavement in the South and East run from $1.50 to $1.65 per sq.yd. for 1-in. binder and 2-in. top. The price for Mexican paving asphalts for this class of work, has declined to about $13.50 per net ton, f.o.b. refineries, in wooden barrels. Indications are for extensive shipments to the West and South, with prices holding steady.

RAILWAYS

New York.—Jerseyfield Ry.—Plans are being made by this company for the extension of its line for a distance of seven miles, from Salisbury Center, N. Y., to the timber lands. P. D. Mang, Dolgeville, N. Y., is interested.

North Carolina—Atlantic & Western R.R.—This company is making surveys for the extension of its line from Benson to Mt. Olive, N. C. H. P. Edwards, Sanford, N. C., is Supt. and Pur. Agt.

South Carolina—Savannah, Piedmont & Western Ry.—Preliminary surveys have been made by this company for the construction of its proposed railway from Augusta to Greenwood, S. C., about 60 miles. J. Pelton Clark, Engr., 42 Cedar St., New York, N. Y., is interested. Noted Apr. 8.

South Carolina—The Truitt Lumber Co., Norfolk, Va., will extend its railway from Fowler to Nesmith, S. C.

✚Illinois—Burlington, Mississippi & Eastern Ry.—According to press reports this company has awarded the contract for the construction of its proposed railway from Apree, Ill., to a point opposite Muscatine, Iowa, to the GULF CENTRAL CANADIAN CONSTRUCTION CO., Minneapolis, Minn. Noted Mar. 4.

Wisconsin—Bayfield & Western Ry.—Acording to press reports plans are being prepared by this company for the extension of its line from Bayfield, Wis., to Herbster, Wis., to connect with the Northern Pacific Ry., making a direct route from Duluth, Minn., to the Bayfield and Cornucopia Districts. H. C. Hale, Bayfield, Wis., is Secy. and Gen. Mgr.

Arkansas—Ingleside & East Arkansas R.R.—This company is being organized for the purpose of constructing a railway from Ingleside to Fisher, Ark. S. B. Richmond, St. Louis, Mo., is interested.

Texas—Henry L. Lindsley, Mayor of Denton, Tex., and associates contemplate the construction of a cut-off railway from Krum to Denton, about seven miles.

Texas—C. O. Williams, Corpus Christi, is interested in the construction of a railway to connect Beeville, Cadiz., Oakville and Three Rivers, Tex., about 25 miles.

Texas—Preliminary arrangements are being made and work will begin about Aug. 1 for the construction of the proposed railway to connect Midland, Andrews, Seminole and Brownville, Tex. W. L. Carwile, Dallas, and T. J. O'Donnell, Midland, are interested. Noted May 13.

Oklahoma—Atchison, Topeka & Santa Fé Ry.—This company has purchased the Oil Belt Terminal Ry., from Jennings to Oilton, Okla., and the Cushing Traction Co., from Cushing to Pemeta, Okla. The company proposes to construct a line from Pemeta to Oilton and a branch from Pemeta to Drumright. F. M. Bisbee, Amarillo, Tex., is Ch. Engr. Western Lines.

Arizona—Tucson, Cornelia & Gila R.R.—Bids will be received until June 10 by John C. Greenway, Warren, Ariz., Gen. Mgr., for the construction of 38 miles of this company's proposed line from Gila Bend to a point near Ajo. R. H. Jones, Gila Bend, is Ch. Engr. Noted May 27.

Oregon—Spokane, Portland & Seattle Ry.—Plans are being considered by this company for the construction of two miles of spur track for its yards at Bend, Ore., across the Des Chutes River. A. M. Lupfer, Portland, is Ch. Engr.

ELECTRIC RAILWAYS

Springfield, Mass.—The Springfield St. Ry. Co. is considering the petition of the Van Horn Citizens Club for an extension of its line from Chestnut and Carew St., through Carew St. to connect with the present tracks on Page Blvd. R. G. Tyler is Ch. Engr.

Middletown, Conn.—The Middletown & Chester Ry. Co. has been incorporated to construct an electric railway from Middletown to Chester. The incorporators are: Richard H. Bunce, Gustaf B. Carlson, Isaac Spear, Randolph S. Lyon, George Burnham, Eben Jackson, Dale D. Butler, Middletown, and Robert W. Perkins, Norwich. Noted Dec. 24.

New York, N. Y.—(Borough of Queens)—The Manhattan & Queens Traction Corporation contemplates the construction of a loop from Queens Blvd. along Van Dam St. to Review Ave., along Review Ave. to Laurel Hill Blvd. to Packard St. and back to Queens Blvd., Long Island City. S. B. Severson, Queens Plaza Court, Long Island City, is Pur. Agt. and Gen. Mgr.

Port Jervis, N. Y.—The Port Jervis Traction Co. is preparing plans to extend its line to Milford, Penn. W. E. Guthrie, Port Jervis, is Gen. Mgr.

Syracuse, N. Y.—The New York State Rys. Co. will spend $75,000 for the improvement of its line on East Genesee St. P. J. Honold, Syracuse, is Pur. Agt.

Koppel, Penn.—The Pittsburgh, Harmony, Butler & New Castle Ry. Co. has completed surveys for the construction of its proposed extension from Koppel to New Galilee. The line will connect with the Pittsburgh, Lisbon & Western R.R., a steam road extending from New Galilee through Darlington to Lisbon, Ohio, which will be purchased by the Pittsburgh, Harmony, Butler & New Castle R.R. and converted into an electric line.

Lynchburg, Va.—The Lynchburg Traction & Light Co. has applied to the City Council for a franchise to extend its line from the Fair Grounds to Ft. Hill. J. W. Hancock, Lynchburg, is Gen. Mgr. and Pur. Agt.

Parkersburg, W. Va.—Preliminary arrangements are being made by the Charleston, Parkersburg & Northern Ry. Co. for the construction of its proposed electric railway from Parkersburg to Charleston, about 74 miles. K. B. Stephenson is interested. Noted Sept. 24.

✚Lulu, Ga.—(Official)—The Lulu-Homer R.R. Co. has awarded the contract for the construction of its railway from Lulu to Homer, to WILLIAM J. REDMOND, Atlanta, Ga. Noted Jan. 21.

Bristol, Tenn.—Surveys have completed and contracts will soon be awarded for the construction of an electric railway from Newport to Kingsport and Bristol. LeRoy Park, Bristol, is interested.

Cleveland, Ohio—The Cleveland Ry. Co. has applied to th City Council for a franchise to construct a three-mile extension to its 25th St. line on State Rd. Charles H. Stanley Pur. Agt. Noted May 27.

Gary, Ind.—The Gary, Hobart & Eastern Ry. Co. is considering plans for the extension of its tracks in Gary fro Broadway east to Virginia St. and north to the mill gate B. J. Schramm, Hobart, is Gen. Supt. and Pur. Agt.

Muskegon, Mich.—The Muskegon, Casnovia & Saginaw Interurban Ry. Co. has completed surveys for the constructio of its proposed line from Crystal Lake to Muskegon, abou 80 miles. C. S. Gamble, Muskegon, is Engr. Noted Apr. 29

Milwaukee, Wis.—The Milwaukee Western Electric Co has completed surveys for the extension of its line to Merton W. D. Chapman, Steger Bldg., Chicago, Ill., is Gen. Mgr.

Cedar Rapids, Iowa—The City Council has granted a franchise to the Iowa Ry. & Light Co. to construct additiona tracks on Fourth Ave. from Second to Third St. William G. Dows is Gen. Mgr. Noted May 27.

Iowa City, Iowa—The Iowa City-Muscatine Interurban Ry. Co. has completed surveys for the construction of its proposed electric railway from Iowa City to Muscatine and West Liberty. A. L. Bowen, Muscatine, is interested. Noted Apr. 29.

Abilene, Tex.—The Abilene Gas & Electric Co. is preparing to extend its lines to Clyde, Putnam, Baird and Cisco.

Houston, Tex.—Franklin Watson and W. N. Vinton, Columbus, Ohio, have taken over the holdings of the Beaumont-Houston Interurban Ry. Co. The new owners have applied for a charter and will organize a company to construct the line. Noted Jan. 21.

Marfa, Tex.—Preliminary arrangements are being made and contracts will soon be awarded for the construction of the proposed railway from Marfa to Ft. Davis, Tex., about 18 miles. B. T. Musgraves, Ft. Davis, is Pres. and H. A. Hardaway, Deming, N. M., is Ch. Engr. Noted Apr 15

Salem, Ore.—The Willamette Valley Southern Ry. Co. is preparing plans for the extension of its line from Salem to Mt. Angel. F. W. Hild, Portland, is Gen. Mgr. Noted May 6.

Suisun City, Calif.—The Northern Electric Co. plans to construct a seven-mile line from Suisun City to Oakland. W. A. McGovern, Chico, is Gen. Mgr.

LIGHT, HEAT AND POWER

Reading, Mass.—Bids will be received until June 5 by the Municipal Light Board for constructing extensions to the present distribution system of the municipal lighting system. George L. Flint, 179 Main St., is Secy. of the Bd. Noted May 13.

Worcester, Mass.—The Worcester Electric Light Co. has decided to build an addition to its Webster St. station at an estimated cost of $160,000. The plans provide for a one-story 80x104-ft. building and a 175-ft. chimney. Space will be provided for eight boilers, but only two will be installed at present, of 1050 hp. each. They will be equipped with mechanical stokers. A hot-water heater will also be installed. R. W. Rollins is Pres. and Mgr.

Worcester, Mass.—The City Council has authorized an appropriation of $8000 for improving and enlarging the power plant of the City Hospital.

Douglas, Ariz.—Lescher & Kibbey, Arch., Bank of Commerce Bldg., Phoenix, has been commissioned by the Board of Education to prepare plans for the construction of a high school. The estimated cost is $70,000.

Florence, Ariz.—Plans are being prepared by Lescher & Kibbey, Arch., Bank of Commerce Bldg., Phoenix, for the construction of a two-story, 75x140-ft. high school for the Union High School District The estimated cost is $55,000.

Spokane, Wash.—The Powell-Sanders Co. plans to rebuild its wholesale building, recently destroyed by fire with a loss of $150,000.

Tacoma, Wash.—Plans are being prepared for the construction of a six-story brick business block for the Tacoma Furniture & Outfitting Co. The estimated cost is $100,000.

Walla Walla, Wash.—Robert F. Tegen, Arch., Morgan Bldg., Portland, Ore., has been retained to prepare plans for the construction of a building for St. Mary's Hospital. The estimated cost is $150,000. Noted May 6

+Pendleton, Ore.—(Official)—The contract for the construction of a three-story wing at the State Hospital for the Insane has been awarded to OLSON & JOHNSON CO., Missoula, Mont., at $83,125. W. C. Knighton is Arch. Noted Feb. 18 and May 6.

Fresno, Calif.—Bids will be received until 2 p.m., June 8, by D. M. Barnwell, Clk., Bd. of Supervisors, for the construction of a brick exhibit building for the County of Fresno. Scott McKay is County Surveyor.

Hydepark, Calif.—The Winget Construction Co., Grant Bldg., Los Angeles, at $42,600, submitted the lowest bid for the construction of a grammar school. G. A. Howard, Arch., Grant Bldg., Los Angeles, prepared the plans.

Los Angeles, Calif.—The Board of Education has approved the plans prepared by Withey & Davis, Arch., Story Bldg., for the construction of a two-story school on Rowan Ave. Estimated cost, $45,000.

+Los Angeles, Calif.—The Board of Education has awarded the contract to M. S. YESBERG, 1650 Morton Ave., Los Angeles, at $41,860, for the construction of a school at 1327 East 20th St. Eisen & Son, Wilcox Bldg., is Arch. Noted Mar. 18.

Los Angeles, Calif.—Plans have been prepared by Walker & Vawter, Arch., Hibernian Bldg., for the construction of a two-story school on South Park and Manchester Ave. Estimated cost $45,000.

+Los Angeles, Calif.—A. S. & C. O"NEIL, Lankershim Bldg., Los Angeles, at $42,000, has been awarded the contract for the construction of a three-story apartment house at Toberman and 21st St. for Mrs. L. J. Hamer.

Los Angeles, Calif.—J. C. Austin, Arch., 1125 Baker-Detwiler Bldg., is preparing plans for the construction of a high school in the shape of the letter "H," on the Country Club Drive between Wilshire Blvd. and Pico St. The main section of the structure will be four stories, 60x342 ft., with four wings, two with three stories, 65x80-ft. and two with two stories, 60x65-ft. The estimated cost is $380,000.

Los Angeles, Calif.—(Official)—Bids will be received until June 10 by the Secretary of the Board of Education for the construction of a school on First and Vermont St. The estimated cost is $50,000. Hunt & Burns, 701 Laughlin Bldg., is Arch. Noted May 20.

+Pomona, Calif.—The contract for the construction of a five-story hotel on Third St. and Carey Ave. for W. M. Avis has been awarded to the MILWAUKEE BUILDING CO., Wright and Callender Bldg., Los Angeles. Estimated cost, $65,000.

+Redondo Beach, Calif.—The contract for the construction of a high school for the Redondo Union High School District has been awarded to the LOS ANGELES PLANING MILL CO., 1812 Industrial St., Los Angeles, at $102,760. Allison & Allison, Hibernian Bldg., Los Angeles, is Arch. Noted Feb. 18 and Mar. 4.

San Bernardino, Calif.—Plans are being prepared by Jeffrey & Schafer, Arch., Wesley Roberts Bldg., Los Angeles, for the construction of a building for the First Congregational Church. The estimated cost is $50,000. Noted May 6.

+San Diego, Calif.—The contract for the construction of a seven-story reinforced-concrete hotel on First St. for the Oregon Investment Co. of San Francisco, has been awarded to J. B. WARNER, Monadnock Bldg., San Francisco, at $326,045. Noted Feb. 25.

Santa Ana, Calif.—A. J. Cruickshank, S. J. Jackman, J. C. Metzgar and D. G. Cole are interested in a project to construct a hotel. The estimated cost is $109,000.

Stockton, Calif.—An armory will be constructed at the north end of the State Hospital property near California St. The estimated cost is $50,000. Lawrence Edwards is interested.

Taft, Calif.—An election will be held June 10 to vote on the question of issuing $60,000 in bonds. The proceeds will be used for the construction of a high school.

Toronto, Ont.—The Princess Theater, recently destroyed by fire with a loss of $100,000, will be rebuilt.

Winnipeg, Man.—The Winnipeg School Board plans an expenditure of $150,000 for the construction of additional schools at Winnipeg. The Commissioner of Buildings is preparing the plans.

BUYING OF MUNITIONS OF WAR

Orders placed with American factories for munitions of war in the last two months have exceeded the amount that even those familiar with the expenditures had set as an outside figure. The buying has been so enormous that all the machine shops making lathes have been cleaned out of machines and are unable to supply any for months to come. Shops which are only indifferently equipped for the manufacture of such material, are turning out shrapnel, and it is probable that plants in the United States are making at least 50,000 pieces of shrapnel a day. Canadian plants are making from a quarter to half as much more, and it is considered probable that within three months the capacity of the plants in the United States and Canada will be doubled. Three-inch 15-lb. shells made here, cost $18 each, ready to fire. On a large order placed by the Russian Government, the price was $15 to $16. In the army operations in northern France, 200,000 to 300,000 pieces of shrapnel are used daily, an expenditure of $25,000,000 to $40,000,000 a week for this item alone. For rifles, the capacity of the plants in the United States is being taxed to the utmost. Prior to the war, many of the army rifles used by European nations could be made and sold at a profit for $15. Now the price is $27.50 for the same rifle. Cartridges are the one thing which have not advanced in proportion, as their use is comparatively small. Cartridges now cost from $35 to $40 a thousand, compared with $25 a year ago. Some of the chemicals used for the manufacture of explosives have advanced exceedingly rapidly. Sodium chlorate is now 17c. per lb., compared with 8c. before the war began. Carbolic acid is now $1.35 compared with 7c. Benzol is $1.25 per gal. compared with 25c. Quicksilver, per flask, is $75, compared with $35 before the war, and chlorate of potash is 35c. per lb. compared with 8c. The effect of the heavy buying on the market has only just been felt; while most of the ammunition makers have covered their supplies for a year or two, the activities of the factories have just begun. Even should the war end suddenly, as many now believe, it is unlikely that there will be any large cancellations, as the European governments will want to replenish their arsenal stocks, which by this time must be sadly depleted.

The Cement Products Exhibition Co., Chicago, Ill., which is in charge of the ninth annual Cement Show, to be held Feb. 12 to 19, 1916, has elected officers as follows: Pres., B. F. Affleck; Vice-Pres., A. Y. Gowen; Treas., J. U. C. McDaniel; Sec., Robert F. Hall, 208 South La Salle St., Chicago.

The American Cement Tile Mfg. Co. has moved its New York office to 50 Church St.

T. A. McCarthy & Son, Lufkin, Tex., Consult., Designing and Superv. Engr., announces the installation of a testing laboratory. The firm is prepared to make both chemical and physical tests of clays, lime, cement, sand, gravel, and other materials, chemical tests and analyses of fluids, clays, oil, fertilizers, and animal and vegetable matter generally.

The Wright Machine Co. has recently been incorporated, and commenced business at Owensboro, Ky., May 1. This company succeeds the Gunther-Wright Machine Co., and will manufacture gas engines, excavating machines, and wet dredge machines, equipped with both steam and oil engines.

The Steel Plant of the International High Speed Steel Co., Rockaway, N. J., is now nearing completion, and it is expected that it will be in full operation by the latter part of June. The product will be confined to the highest qualities of tool steels, alloy steels, high-speed steels of all shapes and sizes. The company markets the "Bulldog" brand.

CALIFORNIA STATE HIGHWAY, SONOMA COUNTY
Division IV, Route 1, Section C

Bids were received Apr. 26 by the state Highway Commission, Forum Bldg., Sacramento, for the construction of a portion of the State Highway in Sonoma County, Division IV, Route 1, Section C, from: (A) L. F. Gerdetz, San Francisco; (B) W. B. Hunt & Son, Alameda; (C) Bates, Borland & Ayer, Oakland; (D) James Fitzpatrick, Sacramento; (E) Marin Rock Co., San Anselmo; (F) Hoffman & McLaren, Oakland; (G) Fairbanks & Baechtel, Willits; (H) Peterson & Grier, San Francisco; (I) Twohy Bros. Co., San Francisco; (J) Blanchard-Brown Co., San Francisco; (K) Engineer's Estimate. The state will furnish pipe railing for culverts, reinforcing-steel, corrugated iron pipe, portland cement, and sand and coarse aggregate for concrete, at an approximate cost of $31,568. The item bids were as follows:

	A	B	C	D	E	F	G	H	I	J	K

CALIFORNIA STATE HIGHWAY, MONTEREY COUNTY
Division V, Route 2, Section E

Bids were received Apr. 26 by the State Highway Commission, Forum Bldg., Sacramento, for constructing Division V, Route 2, Section E, of the State Highway, in Monterey County, from: (A) James Fitzpatrick, Sacramento; (B) W. A. Dontanville, Paso Robles; (C) Highway Paving & Construction Co., Palo Alto; (D) Bent Bros., Los Angeles; (E) Engineer's Estimate. The state furnishes pipe railing for culverts, reinforcing-steel, corrugated iron pipe and portland cement, to cost $25,467. The item bids were as follows:

	A	B	C	D	E
9900 cu.yd. excavation, unclassified	$0.60	$0.49	$0.60	$0.90	$0.30
600 lin.ft. 12-in. corrugated iron pipe	0.60	0.50	0.50	0.53	0.50
60 lin.ft. 15-in. corrugated iron pipe	0.75	0.50	0.75	0.60	0.55
30 lin.ft. 18-in. corrugated iron pipe	1.00	0.50	1.00	1.00	0.60
34 lin.ft. 36-in. corrugated iron pipe	2.00	1.00	1.00	2.00	1.00
53 cu.yd. concrete, Class B (culverts and monuments)	14.00	15.00	10.50	20.00	12.00
7185 cu.yd. concrete pavement, Class B	8.00	11.75	6.15	8.46	7.50
600 lin.ft. guard rail	0.40	0.50	0.40	1.00	0.40
60 monuments, hauling and setting	1.00	1.00	1.00	1.25	0.50
Extended totals	$64,965	$90,809	$51,393	$71,882	$58,148

STORM-WATER SEWERS, READING, PENN.

✚Bids were received Apr. 30 by the City Council, Reading, Penn., for the construction of storm-water sewers on Elm and West Elm St. from the Schuylkill Canal to Rose St. from: (A) Fehr & O'Rourke; (B) CANTRELL CONSTRUCTION CO., Real Estate Trust Bldg., Philadelphia (awarded contract); (C) James Ferry & Sons, Inc.; (D) Union Paving Co.; (E) Heyman & Goodman Co. The item bids were as follows:

	A	B	C	D	E
200 lin.ft. 5-in. circular concrete sewer in open cut	$22.20	$20.80	$32.75	$39.00	$20.00
2300 lin.ft. 5-in. circular concrete sewer, tunnel lining	22.20	17.28	22.35	22.10	24.40
82 lin.ft. 4x7 ft. 10-in. reinforced concrete sewer	41.25	61.00	45.00	82.00	60.00
50 lin.ft. silt basin	27.00	90.00	40.00	48.00	43.00
20 lin.ft. 18-in. vitrified pipe sewer	2.25	3.00	3.50	2.45	6.00
300 lin.ft. 15-in. vitrified pipe sewer	1.75	2.50	3.00	2.45	4.00
100 lin.ft. 10-in. vitrified pipe sewer	1.25	1.25	2.00	1.60	3.60
24½ lin.ft. reinforced 2 ft. 8 in. x 4 to 5-ft. junction chamber	19.50	9.00	30.00	46.50	20.00
24½ lin.ft. reinforced 5 to 6 ft. 8 in. x 7½-ft. junction chamber	37.50	45.00	50.00	47.00	30.00
130 vert. ft. reinforced-concrete manhole	27.30	10.80	6.00	68.00	160.00
20 vert. ft. concrete manhole, storm sewer	6.00	5.00	5.00	10.00	30.00
20 vert. ft. concrete manhole, house sewer	6.00	5.00	5.00	10.00	30.00
1 plate "C" basin, 8-in. radius, with connection	125.00	120.00	100.00	100.00	120.00
4 plate "C" basins, 6-in. radius, with connection	125.00	115.00	90.00	80.00	120.00
7 plate "I" basins, 6 in. long, with connection	125.00	110.00	85.00	50.00	100.00
30 M ft. b.m. lumber in place	20.00	1.00	25.00	45.00	30.00
100 cu.yd. excavation, unclassified, including backfill	1.50	1.00	2.50	3.50	3.00
1 cu.yd. concrete in place	6.50	8.00	......	16.00	25.00
Extended totals, including 10% for contingencies	$75,206	$64,631	$76,791	$90,986	$104.082

BUILDING OUTLOOK MORE PROMISING

For the first time this year the contemplated building operations from plans filed aggregate a larger total than in the corresponding month last year. In 69 cities, all over the United States, the cost, from plans filed in May, amounts to $69,326,000, compared with $67,477,000 in the same month last year.

In 22 cities in the Eastern States there is a gain compared with the corresponding month last year of 22%. This compares with one of 16% in April and about 4% in March.

The Southern States, are recovering from the depression, the loss last month only amounting to $1,500,000, compared with $6,500,000 for the first five months of the year. In the Central States the loss in 25 cities aggregates $1,000,000 compared with a loss of $10,000,000 for the first five months. In the Western States there are unmistakable signs of recovery, a loss of $2,000,000 last month compares with one of $21,000,000 for the first five months of the year.

PRICE CHANGES

Cement—Manufacturers of cement selling in the New York market have advanced their quotation to $1.25 New York. This seems to be fairly well held in this market, although business is extremely light. There seems to be no especial reason for the advance save the desire on the part of manufacturers to get a better price and the knowledge that some of the smaller concerns had all the business booked that they could comfortably take care of for the time being.

Concrete Aggregate—Some very keen competition in the crushed-stone field is coming from a new interest in the New York market, particularly a New England concern, and prices have been forced down to levels not reached in a number of years. There seems to be good foundation for the report that a sale of crushed stone was made, delivered alongside of dock New York, at 65c. per cu.yd., and other quotations have been made slightly above this figure. The very low price of crushed stone has also forced down the price on gravel, and sales have been made at approximately the same figure as crushed stone. It is difficult to secure any kind of a quotation on subway gravel, for the reason that so many long-time contracts are running that the manufacturers still selling it are unwilling to make any contracts for this special material.

RAILWAYS—STEAM AND ELECTRIC

Maine—Bangor Ry. & Electric Co.—The Council of Bangor has granted a franchise to this company to double track its line on Union St. C. H. Johnson, Bangor, is Supt. Ry.

Massachusetts—Bay State St. Ry. Co.—This company has applied for a franchise to improve its line on Walley St. from Gladstone St. to Waldemar Ave., East Boston. R. S. Goff, Boston, is Vice-Pres. and Gen. Mgr.

Connecticut—Norwich, Colchester & Hartford Traction Co. —The charter of this company has been amended and the time extended in which to complete its proposed electric railway from Norwich to Hartford, Conn. T. C. Murphy, F. Cronin and C. S. Holbrook, Norwich, are interested. Noted Jan. 21.

New York—International Ry. Co. — This company will double-track its line on Virgil Ave. from Hertel to Kenmore Ave. in Buffalo. J. C. Sheldon, Buffalo, is Pur. Agt.

New York—International Ry. Co.—This company has applied to the Council of Buffalo for a franchise to construct a line on Michigan St. from Elk to Ohio St. and westerly along Ohio St. J. C. Sheldon, Buffalo, is Pur. Agt.

New York—See item under "Miscellaneous—Laying Tracks and Repairing Pier."

Pennsylvania—Phœnixville, Valley Forge & Strafford Electric Ry. Co.—This company is considering plans for the extension of its electric railway lines from Phœnixville into Montgomery County. Thomas E. O'Conell, Phœnixville, is Pres. and Gen. Mgr. Noted Mar. 18.

Maryland—United Ry. & Electric Co.—This company has applied to the City Council of Baltimore for a franchise to divert its Mt. Washington line from Calvert St. to Charles St. between Center and German St. Mason D. Pratt, Baltimore, is Ch. Engr.

✚Virginia—Radford-Willis Southern Ry.—This company has awarded the contract for the construction of its proposed line from Radford to Willis, Va., about 25 miles, to the WILLIAMS BROS. CONSTRUCTION CO. Noted Apr. 1.

West Virginia—Plans have been submitted to the Raleigh County Business Men's Association by H. G. Scott, Charleston, W. Va., Gen. Mgr., of the Virginian Power Co., for the route of the electric railway from Fayette Station, on the Chesapeake & Ohio Ry., to Beckley, W. Va., about 35 miles, via Mount Hope, Oak Hill, Glen Jean, Fayetteville and other points. C. L. Beckner, T. E. Bibb and Ernest Chilson Beckley, were appointed members of the Committee on plans.

West Virginia—The Charleston Interurban R.R. Co. will expend $750,000 in extending its line from Charleston to Montgomery, W. Va., about 25 miles. S. M. Gallaher, Charleston, is Pur. Agt. and Ch. Engr.

Tennessee—Cumberland R.R. Co.—See item under Kentucky.

Kentucky—The Asher Lumber Co., Barbourville, Ky., will construct a logging road in the Wolf Pen section of Little Brush Creek, Knox County, Ky.

Kentucky—Cumberland R.R. Co.—This company plans to construct a line from Warren, Ky., to Jellico, Tenn., about 18 miles. T. H. Hayden, Artemus, Ky., is Gen. Mgr.

Kentucky—Cumberland & Manchester R.R.—This company, recently chartered, plans to award contracts about June 15 for the construction of its line from Barbourville to Manchester, about 25 miles. C. L. Heidrick, Brookville, Penn., is Pres. Noted Apr. 29.

Ohio—John C. Lake, Bigprairie, Ohio, is interested in the construction of an electric railway from Custaloga to Bigprairie.

Ohio—East Linden Traction Co.—This company has applied to the Council of Columbus for a franchise to construct a cross-town line in North Columbus.

Indiana—John T. Oliphant, Vincennes, Ind., is interested in the construction of an electric railway to connect Bicknell, Bruceville, Aliceville and Vincennes.

Illinois—Southern Traction Co. of Illinois—This company plans to resume work soon on the construction of its line across the municipal bridge in East St. Louis. The company proposes to operate an electric line through the coal fields of Illinois to Duquoin, passing through several important cities. H. C. Begole, St. Louis, Mo., is Secy.

Illinois—Aurora, Plainfield & Joliet Ry. Co.—This company plans to double-track its line on North Chicago St. in Joliet, Ill.

Illinois—Murphysboro & Southern Illinois Ry. Co.—Work will soon be started by this company on the construction of its proposed electric railway from Murphysboro to Carbondale, about eight miles. A. B. Minton, Murphysboro, is Pres. Noted Jan. 28 and Feb. 11.

Iowa—Keokuk-Jefferson City Electric Ry. Co.—Surveys have been made by this company for the construction of an electric railway from Keokuk to Newark. It is proposed to build an electric railway between Keokuk, Iowa, and Jefferson City, Mo., via Wayland, Williamtown, Labell, Newark, Bethel, Shelbyville, Shelbina, Paris, Mexico and Fulton. H. W. Knight, Chicago, Ill., is interested.

Minnesota—See item under "Miscellaneous"—Dredging—St. Paul, Minn.

Missouri—Kansas City Connecting R.R.—The State Public Service Commission has granted permission to this company to construct seven miles of tracks into the stockyards. The proposed improvements will cost about $2,000,000. Four and one-half miles of the tracks will be constructed in Missouri and two and one-half miles in Kansas. This will necessitate a subway under the Union Pacific tracks at the Kaw River Bridge.

Missouri—According to press reports surveys are being made for the construction of a railway to connect Siloam Springs with Pomona, Bakersfield and Gainesville. N. O. Tate, Norton, Kan., and B. J. Boyce, West Plains, Mo., are interested.

Missouri—Metropolitan St. Ry. Co.—The City Council of Kansas City, Mo., has granted permission to this company to extend its lines on Broadway, Prospect and Woodland Ave., 12th, 24th and 31st St. A. E. Harvey, Kansas City, is Ch. Engr.

Arkansas—A company is being organized to construct a railway from Melbourne, Ark., to a connection with the St. Louis, Iron Mountain & Southern R.R., about seven miles.

Texas—Oklahoma & Texas Southern Ry.—Plans are being considered by this company for the extension of its line from Bowie to Forestburg, Krum and Denton, Tex., about 50 miles. W. A. Squire, Henrietta, Tex., is interested.

Oklahoma—Surveys are being made for the construction of an electric railway from Bristow to Drumright and from Bristow to Okmulgee, Okla. W. Mathews, St. Louis, Mo., is interested.

Idaho—Lewiston, Nezperce & Eastern Ry.—This company, recently incorporated, is making preliminary arrangements for the construction of its proposed line from Lewiston to Nezperce and central Idaho. Z. A. Johnson, Lewiston, is interested. Noted Apr. 15.

Utah—Southwestern & Pacific Ry.—Surveys will soon be started by this company for the construction of a railway from Salt Lake City through the southern portion of Utah to San Diego, Calif. D. C. Collier, San Diego, is Pres. and R. E. Clapp, Salt Lake City, is Consult. Engr. Noted May 7, 1914.

Washington—Gray's Harbor Ry. & Light Co.—Plans are being considered by this company for the extension of its North Hoquiam branch from its present terminus at Lytle Mill to the Little Hoquiam Bridge. P. A. Bertrand, Aberdeen, is Secy. and Gen. Mgr.

Oregon—Oregon-Washington R.R. & Navigation Co.—This company plans to start work soon on the construction of its proposed line from The Dalles to Hood River, about 19 miles. J. R. Holman, Portland, is Ch. Engr.

California—Fresno, Coalinga & Monterey Ry. Co.—On account of financial conditions this company has decided to postpone for an indefinite period, the construction of its electric railway from Fresno to Monterey. Ernest R. Shaw, Mutual Bank Bldg., San Francisco, is Gen. Mgr. Noted Mar. 18.

California—Pacific Electric Ry. Co.—Plans are being prepared by this company for double-tracking its line for a distance of three miles on American Ave. in Long Beach, Calif. J. McMillan, Los Angeles, is Gen. Mgr.

California—Pacific Electric Ry. Co.—This company contemplates the extension of its electric railway from San Bernardino to East Highland and Del Rosa. J. McMillan, Los Angeles, is Gen. Mgr.

California—The Pacific Gas & Electric Co., San Francisco, Calif., will make improvements to its street railway system at Sacramento, as follows: Reconstructing line on P St. from Third to 10th St., estimated cost, $12,805; reconstructing line on J St. from Second to 12th St., estimated cost, $40,926; constructing a new line on Second and Park Ave., estimated cost, $18,406. John A. Britton, 445 Sutter St., San Francisco, is Gen. Mgr.

California—Plans have been prepared by M. M. O'Shaughnessy, City Engr., San Francisco, for the extension of the municipal railway across Golden Gate Park. The proposed line will extend from 10th Ave. and Fulton St. through Golden Gate Park to 14th Ave. and Lincoln Way. Its terminus will be at 14th Ave. and Judah St. The roadway through Golden Gate Park will be depressed. Noted Dec. 24.

California—Southwestern Pacific Ry.—See item under Utah.

Ontario—Lake Erie & Northern Ry.—According to press reports this company will electrify its line from Galt to Brantford, about 40 miles. Martin L. Todd, Galt, is Engr.

Ontario—W. D. Euler, Berlin, is interested in the construction of an electric railway to connect Berlin, Bridgeport, Bloomingdale, New Germany and Guelph.

Ontario—Sudbury-Copper Cliff Suburban Electric Ry. Co. —This company plans to start work soon on the construction of its proposed electric railway from Copper Cliff to Sudbury. J. H. Mackey, Sudbury, is Pres. Noted Nov. 12.

Saskatchewan—The City Council of Regina has authorized the expenditure of $10,000 for the extension of the Young St. municipal railway. Noted Jan. 15.

Alberta—Edmonton Dunvegan & British Columbia Ry.—This company has been granted an extension of time in which to construct a line from Spirit River, Alta., to a junction with the Pacific Great Eastern at the Alberta-British Columbia boundary; also a line through the Grande Prairie district. Noted Apr. 22.

British Columbia—Pacific & Great Eastern Ry.—This company has secured through the Canadian and British Columbia Governments about $8,000,000 for the completion of a line, which is now in operation between Vancouver and Lillooet, B. C. It will be continued north to the Hundred-mile House in Cariboo, a distance of 223 miles from Vancouver. William Gerig, Medford, Ore., is Vice-Pres., Gen. Mgr. and Ch. Engr.

LIGHT, HEAT AND POWER

West Newbury, Mass.—The City Council is considering the installation of a municipal electric-lighting system. The present service is furnished by the Newburyport Gas & Electric Co.

✚Worcester, Mass.—The Worcester Electric Light Co. has awarded the contract for the installation of two 1250-hp. boilers in the proposed addition to its Webster St. station to the BIGELOW CO., New Haven, Conn., at about $12,000. Noted June 3.

Cranston, R. I.—(Providence post office)—Bids will be received until June 17 by the Board of Contract and Supply, Room 18, State House, Providence, for the construction of a power house, installation of steam plant, electrical equipment for central plant, all in connection with the new central heating and lighting plant for the state institutions in Cranston. The Richard D. Kimball Co., Industrial Trust Bldg., Providence, is Engr.-in-Charge.

Exeter, R. I.—(Official)—All bids received May 27 for the steam work in connection with the central plant for the Rhode Island School for the Feeble Minded at Exeter, were rejected, and new bids for the work will be received until 10 a.m., June 17, by the Board of Control and Supply, Room 18, State House, Providence. William A. Schofield is Chn. and Gilbert R. Parker is Secy. of the Bd. Noted May 13.

Lindenhurst, N. Y.—It is reported that the City Council is considering plans for the installation of an electric-light plant in connection with the municipal water-works system.

New York, N. Y.—(Borough of Bronx)—(Official)—Bids will be received until 3 p.m., June 10, by Cabot Ward, Pres. Bd. of Park Comrs., Municipal Bldg., Borough of Manhattan, for the installation of a hot-water heating plant in the animal hospital of the Zoölogical Park, Borough of the Bronx.

New York, N. Y.—(Borough of Brooklyn)—(Official)—Bids will be received until 10:30 a.m., June 17, by the Department of Public Charities, Municipal Bldg., Borough of Manhattan, for boilers, engines and air ducts in connection with mechanical-draft installation in 12 boilers of the Kings County Hospital, Borough of Brooklyn. Bids will be received at the same time for dumping grates for 12 return-tubular boilers, and repairing brick work in furnaces of said boilers in the power plant of the Kings County Hospital. John A. Kingsbury is Comr. of Pub. Charities.

Nutley, N. J.—The Board of Education has ordered plans prepared for the installation of a steam-heating plant in the Park School estimated to cost $11,000.

Dayton, Va.—It is reported that the Town Council will soon award contracts for the installation of an electric-light plant and sewer system. Bonds for $24,500 were recently sold for this work.

Westpoint, Va.—The People's Light, Heat & Power Corporation, Westpoint, contemplates the construction of an addition to its plant and the installation of an additional unit. Samuel MacWatters is Supt.

✚Kenova, W. Va.—The Ohio Valley Electric Ry. Co., Huntington, has awarded the contract for a turbo-generator for the power house at Kenova to the GENERAL ELECTRIC CO., Schenectady, N. Y., at $49,145. It will be of the Curtis type with a capacity of 11,000 volts and 6750 kw.

Ocala, Fla.—It is reported that plans will soon be completed for the construction of a municipal electric-light plant estimated to cost $75,000. Twombley & Henney, 55 Liberty St., New York, N. Y., is Engr. H. C. Sistrunk is City Clk.

Cincinnati, Ohio—It is reported that the Board of Education, Charles Handman, Business Mgr., has engaged an engineer to prepare plans and estimates of the cost of installing generating stations in some of the larger public school buildings of the city.

Cleveland, Ohio—Bids will be received until noon, June 18, by the Commissioner of Purchases and Supplies, 511 City Hall, for furnishing rubber-covered lead-incased cable for the municipal electric light plant. F. W. Ballard, 1443 East Third St., is Comr. of Light and Heat Dept.

Granville, Ohio—It is reported that the Ohio Light & Power Co., Tiffin, has applied for a franchise to furnish electricity for domestic and commercial purposes in Granville.

Kent, Ohio—(Official)—Bids will be received until noon, June 19, by John A. McDowell, Secy. Bd. of Trustees, Kent State Normal School, for the installation of boilers, stokers, engines and generators at the Kent State Normal School. George F. Hammond, 4220 Prospect Ave., Cleveland, is Arch.

Oakwood, Ohio—The Oakwood Light & Water Co. contemplates increasing its capital stock from $10,000 to $100,000 for the purpose of improving its plants and purchasing some new equipment.

Washington, Ohio—(Official)—Bids will be received until noon, June 19, by the Director of Public Service for lighting the streets, alleys, parks, public places and public buildings in the city for a period of five years, beginning July 1, 1915. Ray Maddox is Clk. to Dir. of Pub. Ser.

Zanesfield, Ohio—C. C. Outland, Mayor of Zanesfield, and E. Huntzinger, Piqua, plan to organize a company to install and operate an electric-light plant in Zanesfield.

✚Eveleth, Minn.—The Home Electric & Heating Co. has awarded the contract for the construction of a power station and office building to L. DUPLAISE, Duluth, at $14,000.

Tekamah, Neb.—At a recent election the citizens voted in favor of a bond issue of $15,000 for the extension of the municipal electric-light plant to furnish 24-hr. service. Noted May 13.

Chilhowee, Mo.—The city has voted $6800 in bonds for the purpose of installing an electric-light plant.

Harrisonville, Mo.—It is reported that W. B. Rollins & Co., Midland Bldg., Kansas City, has prepared preliminary plans for the construction of a municipal electric-light plant at Harrisonville. The estimated cost is $15,000.

✚Montrose, Mo.—The City Council has awarded the contract for the installation of an electric-power plant, exclusive of building, to the MATTHEWS CONSTRUCTION CO., Kansas City, at $5590. Noted Aug. 20.

Gordon, Tex.—The Gordon-Mingus Light Co. has been organized with a capital stock of $6000 for the purpose of installing and operating an electric-light plant.

Antlers, Okla.—It is reported that an electric-light plant will be installed in Antlers at an estimated cost of $15,000.

Tyrone, Okla.—The Tyrone Light, Ice & Power Co. has been granted a franchise for the installation of an electric-light and power plant in Tyrone. Walter J. Harville is interested.

Sterling, Colo.—It is reported that the Sterling Consolidated Electric Co. will soon purchase a 250-kw., three-phase, 60-cycle, 2200-volt generator and engine, stokers for three boilers, poles and wire. H. L. Titus is Mgr.

Kellogg, Idaho—The Guelph Mining Co. plants to install an electric power plant, compressor plant, pumps, hoist and other machinery for operating its property at Kellogg.

Pleasant Grove, Utah—The city contemplates the establishment of a municipal electric-light plant. The estimated cost is $25,000.

Colville, Wash.—The Stevens County Power & Light Co., whose plant is at Meyers Falls, Wash., plans to build a new dam in the Colville River and establish a new power station. H. R. Williams, Colville, is Vice-Pres. and Mgr.

Friday Harbor, Wash.—It is reported that a franchise has been granted to R. D. Burghardt, Seattle, to install and operate an electric-light plant in Friday Harbor.

Petaluma, Calif.—The Pacific Gas & Electric Co. will replace five miles of high-pressure gas main between Petaluma and Santa Rosa. The estimated cost is $12,000. John A. Britton, 445 Sutter St., San Francisco, is Gen. Mgr.

San Francisco, Calif.—The Pacific Gas & Electric Co. will install two boilers and superheaters at its gas plant at Station A, at a cost of about $41,400, and will lay an 8-in. high-pressure pipe line from the plant to the county line, about six miles, estimated to cost $50,500.

Montreal, Que.—Bids will be received until June 15 by the Board of Commissioners for the construction of the exterior electric system for the filtration plant.

Petrolia, Ont.—The Mayor and Town Council are having plans prepared for the installation of a new hydro-electric plant and distribution system estimated to cost $35,000.

Thamesville, Ont.—It is reported that plans will be prepared at once for a new hydro-electric lighting system for the town. W. J. Crydermann is Town Clk.

BRIDGES

✚Waterbury, Conn.—(Official)—Bids were received June 1 by the Board of Public Works for the construction of a reinforced-concrete bridge across the Naugatuck River at Bank St. as follows: Barbara D'Aurio, $91,574; C. A. Sibley, New Haven, $87,159; O'Brien Construction Co., 18 East 41st St., New York, $84,559; McHarg-Barton Co., 171 Madison Ave., New York, $71,598; Fred T. Ley & Co., Inc., Springfield, Mass., $70,455; Robert Daley Co., New Haven, $66,091; Barzaghi-Vought Co., Inc., 299 Madison Ave., New York, $62,870; HUDSON RIVER CO., 149 Broadway, New York, $61,337 (awarded contract). The bids for removing the old steel bridge at Bank St. and rebuilding it on new abutments at Freight St. were as follows: McHarg-Barton Co., $11,800; C. A. Sibley, $9560; Hudson River Co., $9000; SPAULDING CONSTRUCTION CO., Suffield, $7000 (awarded contract). Noted May 27.

Westport, Conn.—Charles J. Bennett, State Highway Comr., Hartford, has approved the plans prepared for a new bridge across the Saugatuck River at State St., Westport, and bids will soon be asked by the State Highway Department. It will be 33 ft. wide with a lift span. The estimated cost is $125,000, to be divided equally between the town, the state and the Connecticut Co. Noted May 27.

✚Buffalo, N. Y.—Press reports state that the Streets Committee of the Board of Aldermen has directed the Commissioner of Public Works to award the contract for rebuilding the Chicago St. Viaduct to the AMERICAN BRIDGE CO., 30 Church St., New York, at $185,000. The bridge has been closed for nearly a year. Noted May 7, 1914.

✚Canton, N. Y.—The Town Board opened bids May 28 for the construction of a bridge at Morley, as follows: Spaulding Construction Co., Suffield, Conn., $7498; Penn Bridge Co., Beaver Falls, Penn., $7540; Austin Bros., Atlanta, N. Y., $9450; United Construction Co., Albany, $7697; Standard Engineering Co., Toledo, Ohio, $7874; GROTON BRIDGE CO., Groton, $7195 (awarded contract).

✚★Wallkill, N. Y.—(Official)—Bids were received May 29 for the construction of a concrete-steel arch over the Wallkill River from: RENNELL CONSTRUCTION CO., 30 Church St., New York, $24,326 (awarded contract); Thomson-Wooster Co., Walden, N. Y., $24,870; Woolsey Construction Co., Poughkeepsie, $24,950; Young & Hyde, Inc., Produce Exchange Bldg., New York, $25,348; Hamilton Engineering & Construction Corporation, Woolworth Bldg., $25,480; John M. Holler, Albany, N. Y., $26,000; L. F. Bannon Co., Kingston, $26,555; Interstate Construction Co., 1170 Broadway, New York, $26,898; Abner M. Harper, Inc., Newburgh, $29,000; Kingsbridge Contracting Co., Inc., 30 East 42d St., New York, $36,336. James F. Loughran, 74 John St., Kingston, is County Supt. of Highways of Ulster County. Noted May 13.

Hartford, Conn.—Bids were received June 1, by Charles Bennett, State Highway Comr., for constructing roads as follows: Milford Township, about 21,360 sq.yd. 3-in. bituminous macadam surfacing using (a) tar or (b) asphalt as binder: Kellogg & Gregory Co., Danbury, (a) $18,598, (b) $22,657; Leonardo Suzio, Meriden, (a) $20,910, (b) $23,367; Goodman & Trumbull Co., Litchfield, (a) $17,248, (b) $17,087; Connecticut Good Roads & Construction Co., New Britain, (a) $21,296, (b) $25,301; John De Michiel & Bro., Torrington, (a) $23,170, (b) $24,344; B. D. Pierce, Jr., Co., Bridgeport, (a) $17,397, (b) $23,271; C. W. Blakeslee & Sons, New Haven, (a) $18,981, (b) $22,746; Thomas Kearney, Meriden, (a) $19,099, (b) $22,768; R. D. Daley Contracting Co., New Haven, (a) $17,723, (b) $19,058; Charles T. Eastburn Co., Yardley, Penn., (a) $21,841, (b) $24,458; A. D. Bridge's Sons, Inc., Hazardville, (a) $19,497, (b) $23,230, using Texas binder, $19,230. Andover Township, about 7300 lin.ft. native stone macadam on the Hebron Rd.: Ahern Construction Co., Willimantic, $12,238; Alco Construction Co., 178 North St., Boston, Mass., $11,748; A. Brazos & Sons, Middletown, $13,784; Archie B. Cadwell, New Britain, $11,479; Piersen Engineering & Contracting Co., Hartford, $14,192; Goodman & Trumbull Co., Litchfield, $11,882; A. D. Bridge's Sons, Inc., Hazardville, $12,383; Robert G. Miller Contracting Co., Hartford, $12,643; Frank A. Wilcox, Norwich, $13,122; Stafford & Mather, Hartford, $13,433. Barkhamsted Township, about 6160 lin.ft. native stone macadam on the Pleasant Valley Rd.: Kellogg & Gregory Co., Danbury, $15,042; Leonardo Suzio, Meriden, $14,673; Goodman & Trumbull Co., Litchfield, $15,802; Archie B. Cadwell, New Britain, $12,316; A. Brazos & Sons, Middletown, $17,366; B. D. Pierce, Jr., Co., Bridgeport, $13,023; John de Michiel & Bro., Torrington, $11,181; Stafford & Mather, Hartford, $13,395; Piersen Engineering & Contracting Co., Hartford, $15,987; Louis Longhi & Bro., Torrington, $13,572; A. B. Bozzi, 54 Lewis St., Torrington, $13,169. Somers Township, about 3198 lin.ft. native stone macadam on the Somers-Stafford Rd.: Donahue Bros., Middletown, $8118; A. D. Bridge's Sons, Inc., Hazardville, $5888; John de Michiel & Bro., Torrington, $7120. Hartford City, about 13,790 sq.yd. concrete roal using washed (a) or unwashed (b) sand on Maype Ave.: B. D. Pierce, Jr., Co., Bridgeport, (a) $22,549, (b) $21,145; Piersen Engineering & Contracting Co., Bristol, (a) $20,293, (b) $19,871; Connecticut Good Roads & Construction Co., New Britain, (a) $24,979, (b) $23,799; W. T. Ryan Construction Co., Barker St., Hartford, (a) $20,677, (b) $20,115; A. C. Sternberg, Jr., Construction Co., West Hartford, (a) $18,872, (b) $18,451; O'Neil Bros., Hartford, (a) $19,128, (b) $18,482; Connecticut Hassam Paving Co., New Haven, (a) $21,741, (b) $20,336; Leonardo Suzio, Meriden, (a) $18,343, (b) $17,949; Thomas Kearney, Meriden, (a) $22,624, (b) $18,410. Hartland Township, about 8300 lin.ft. native stone macadam: B. D. Pierce, Jr., Co., Bridgeport, $14,780; Archie B. Cadwell, New Britain, $14,892; Kellogg & Gregory Co., Danbury, $13,621; Leonardo Suzio, Meriden, $13,869; Stafford & Mather, Hartford, $13,638; Piersen Engineering & Contracting Co., Hartford, $15,116; A. Brazos & Sons, Middletown, $18,608; Louis Longhi & Bro., Torrington, $12,293; Goodman & Trumbull Co., Litchfield, $14,544; John de Michiel & Bro., Torrington, $10,715. Noted May 20.

✚★Albany, N. Y.—(Official)—Bids were received June 1 by Edwin Duffey, State Highway Comr., and contracts awarded for improving roads in various counties as follows:

Repair Contract No. 778, Albany County, 16.25 miles: JOHN P. DUGAN & CO., Amsterdam, $10,062 (awarded contract); W. L. Lawton, Glens Falls, $10,499; Gleason & Davitt, Albany, $10,545; M. F. Dollard, Albany, $10,683; George Holler, Albany, $10,807.

Repair Contract No. 716, Chenango County, 5.21 miles: NASH & GRIFFIN, Norwich, $1100 (awarded contract); John H. Gordon, Albany, $1106; Paddleford & King, Sherburne, $1225; Harry W. Roberts & Co., Utica, $1302; Richard Hopkins, Troy, $1354; Rhodes & Adams, Smithville Flats, $1426.

Repair Contract No. 693, Chenango County, 8.92 miles: NASH & GRIFFIN, Norwich, $4485 (awarded contract); Connors & Gallivan, Elmira, $4622; Paddleford & King, Sherburne, $4682; Harry W. Roberts & Co., Utica, $4704; Rhodes & Adams, Smithville Flats, $4749; Richard Hopkins, Troy, $4897.

Repair Contract No. 770, Clinton County, 14.15 miles: RICHARD HOPKINS, Troy, $5293 (awarded contract); Boynton & McNally, Keeseville, $5888; James Conway, Plattsburg, $5972; Spellman-Oliver Co., Chateaugay, $6120; Connors & Gallivan, Elmira, $6322.

Repair Contract No. 750, Cortland County, 13.37 miles: PATHFINDER CONSTRUCTION CO., INC., Fulton, $3694 (awarded contract); Richard Hopkins, Troy, $3728; Nash & Griffin, Norwich, $3857; A. L. Call, Cortland, $4052; John H. Weidman, Syracuse, $4126; McGreevey, McGuigan & Baum Construction Co., Elmira, $4230; Dana W. Robins Co., Inc., New York, $4913.

Repair Contract No. 719, Delaware and Schoharie Counties, 31.82 miles: PAUL GSANGER, Monsey, $7095 (awarded contract); Nash & Griffin, Norwich, $7888; Richard Hopkins, Troy, $8012; Schunnemunk Construction Co., Highland Mills, $8104; John P. Dugan & Co., Amsterdam, $8527.

Repair Contract No. 779, Erie County, 29.03 miles: FRED W. KNICKENBERG, Buffalo, $12,591 (awarded contract); Dale Engineering Co., Inc., Utica, $13,693; John M. Hackett, Dunkirk, $14,517; John W. Landel, Tonawanda, $14,949.

Repair Contract No. 769, Essex County, 15.03 miles: DEFIANCE CORPORATION, Ticonderoga, $6441 (awarded contract); W. L. Lawton, Glens Falls, $6492; Boynton & McNally, Keeseville, $6874.

Repair Contract No. 771, Essex County, 15.05 miles: JOHN F. LEWIS, Albany, $4819 (awarded contract); Defiance Corporation, Ticonderoga, $4826; Boynton & McNally, Keeseville, $4958; W. L. Lawton, Glens Falls, $5494.

Repair Contract No. 773, Fulton County, 19.90 miles: WILLIAM J. MORRISSEY, Saratoga Springs, $5828 (awarded contract); Clarence Welsh & Co., Gloversville, $6721; John P. Dugan & Co., Amsterdam, $7028; Dale Engineering Co., Utica, $7097; De Barber & Hill, Fulton, $7412; R. D. Cooper, Little Falls, $7733; Eastover Construction Co., Inc., Utica, $8991.

Repair Contract No. 661, Herkimer County, 25.35 miles: JOHN P. DUGAN & CO., Amsterdam, $7433 (awarded contract); Harry W. Roberts & Co., Utica, $8121; De Barber & Hill, Fulton, $8380; S. A. Seymour, Herkimer, $8569; R. D. Cooper, Little Falls, $8976; Eastover Construction Co., Inc., Utica, $10,181; John A. Jova, Inc., Newburgh, $10,181.

Repair Contract No. 766, Jefferson and St. Lawrence Counties, 23.18 miles: RICHARD HOPKINS, Troy, $9355 (awarded contract); Arthur F. McConville, Ogdensburg, $10,753; De Barber & Hill, Fulton, $10,827; Defiance Corporation, Ticonderoga, $10,976; Young & Hyde, New York, $12,754; James E. Martin, Utica, $13,042.

Repair Contract No. 733, Madison County, 12.90 miles: NASH & GRIFFIN, Norwich, $4788 (awarded contract); De Barber & Hill, Fulton, $4790; Richard Hopkins, Troy, $4963; Harry W. Roberts & Co., Utica, $4970.

Repair Contract No. 724, Monroe County, 21.36 miles: RIBSTINE-HOLTER CO., INC., Rochester, $5630 (awarded contract); Dale Engineering Co., Utica, $5668; Crouch Bros., Rochester, $5727.

Repair Contract No. 681, Montgomery County, 14.96 miles: WILLIAM J. MORRISSEY, Saratoga Springs, $5009 (awarded contract); Charles Scott, Fort Plain, $5558; John P. Dugan & Co., Amsterdam, $5622; Harry W. Roberts & Co., Utica, $5925; De Barber & Hill, Fulton, $5978; R. D. Cooper, Little Falls, $6191; James E. Martin, Utica, $7542.

Repair Contract No. 765, Montgomery County, 2.50 miles: JOHN P. DUGAN & CO., Amsterdam, $2533 (awarded contract); Clarence Welsh & Co., Gloversville, $2779: James E. Martin, Utica, $3191.

Repair Contract No. 717, Orange County, 5.94 miles: SCHUNNEMUNK CONSTRUCTION CO., Highland Mills, $2006 (awarded contract); James L. Kehoe, Newburgh, $2468; Thomas J. Martin, Beacon, $2281; Conway Bros. & Kennedy, Eddyville, $2397; William Doyle, Saugerties, $2412; John A. Jova, Inc., Newburgh, $2462; Paul Gsanger, Monsey, $2686.

Repair Contract No. 776, Orange County, 3.22 miles: SCHUNNEMUNK CONSTRUCTION CO., Highland Mills, $19,045 (awarded contract); James L. Kehoe, Newburgh, $19,783; Blankfield & Donovan, Kingston, $19,789; Port Jervis Construction Co., Port Jervis, $20,484; Paul Gsanger, Monsey, $20,541; Thomas J. Martin, Beacon, $21,393; William Doyle, Saugerties, $21,867; Juniata Co., Philadelphia, Penn., $22,689; Connors & Gallivan, Elmira, $23,149.

Repair Contract No. 657, Otsego County, 6.19 miles: SCHUNNEMUNK CONSTRUCTION CO., Highland Mills, $6444 (awarded contract); Connors & Gallivan, Elmira, $2560; Lane Construction Corporation, Meriden, Conn., $6661; George Holler, Albany, $6675; Sherman Contracting Co., Inc., Oneonta, $6779.

Repair Contract No. 777, Rensselaer County, 2.34 miles: GLEASON & DAVITT, Albany, $5158 (awarded contract); Thomas H. Karr, Troy, $5230; James J. Rigney, Rensselaer, $5385; Richard Hopkins, Troy, $5614; County Construction Co., Troy, $5626.

Repair Contract No. 761, Rensselaer County, 22.99 miles: PAUL GSANGER, Monsey, $6795 (awarded contract); the Defiance Corporation, Ticonderoga, $7981; B. Gaffney & Sons, Saratoga Springs, $8518; Gleason & Davitt, Albany, $8537; W. L. Lawton, Glens Falls, $8925; Thomas H. Karr, Troy, $9170; George Holler, Albany, $9383; Richard Hopkins, Troy, $9439; County Construction Co., Troy, $9709; McLaughlin Co., Whitehall, $10,153.

Repair Contract No. 780, St. Lawrence County, 5 miles: ARTHUR F. McCONVILLE, Ogdensburg, $27,410 (awarded contract); Flood & Van Wirt Co., Hudson Falls, $28,898; Eggleston & Garthwaite, Yonkers, $30,638; Richard Hopkins, Troy, $30,863; Young & Hyde, New York, $31,932; James E. Martin, Utica, $33,928.

Repair Contract No. 715, Saratoga County, 20.59 miles: PAUL GSANGER, Monsey, $6731 (awarded contract); W. H. Gailor, Saratoga Springs, $7091; John P. Dugan & Co., Amsterdam, $7113; William J. Morrissey, Saratoga Springs, $7434; William L. Sherrill, Hudson Falls, $7513; Gleason & Davitt, Albany, $7538; W. L. Lawton, Glens Falls, $7840; George Holler, Albany, $8238; McLaughlin Co., Whitehall, $8320; County Construction Co., Troy, $8588.

Repair Contract No. 768, Schenectady County, 18.88 miles: JOHN P. DUGAN & CO., Amsterdam, $10,754 (awarded contract); J. J. Malloy, Schenectady, $11,740.

Repair Contract No. 764, Steuben County, 4.28 miles: McGREEVEY, McGUIGAN & BAUM CONSTRUCTION CO., Elmira, $22,925 (awarded contract); Kennedy Construction Co., Albany, $23,010; John C. Bradley, Corning, $23,471; Connors & Gallivan, Elmira, $25,632; Juniata Co., Philadelphia, Penn., $27,208; Young & Hyde, New York, $27,323.

Repair Contract No. 714, Sullivan County, 3.56 miles: NASH & GRIFFIN, Norwich, $997 (awarded contract); D. C. Bonnell, Liberty, $1048.

Repair Contract No. 772, Warren County, 15.38 miles: DEFIANCE CORPORATION, Ticonderoga, $7030 (awarded contract); William L. Sherrill, Hudson Falls, $7102; Gleason & Davitt, Albany, $7358; W. L. Lawton, Glens Falls, $7497; C. J. Reardon, Glens Falls, $7669; Boynton & McNally, Keeseville, $8610.

Repair Contract No. 760, Washington County: JOHN P. DUGAN & CO., Amsterdam, $10,082 (awarded contract); Richard Hopkins, Troy, $10,494; William L. Sherrill, Hudson Falls, $10,502; W. L. Lawton, Glens Falls, $10,798; Gleason & Davitt, Albany, $11,296; Defiance Corporation, Ticonderoga, $11,147; George Holler, Albany, $11,712; McLaughlin Co., Whitehall, $11,848. Noted May 13.

★Albany, N. Y.—(Official)—Bids were received June 4, by Edwin Duffey, State Highway Comr., for constructing roads as follows:

Road No. 1279, Albany County, 3.41 miles: Curran Corporation, Middletown, Conn., $27,851; Alonzo Schaupp, Guilderland, $28,899; Criswell & Mallory, Inc., Mechanicsville, $29,234; F. A. Biggi, Brooklyn, $31,082; J. J. Malloy, Schenectady, $31,493; Ahern Construction Co., Willimantic, Conn., $32,384; George Holler, Albany, $32,910.

Road No. 1280, Albany County, 5.76 miles: David H. Craw, Ravena, $56,736; C. W. Tryon, Boyntonville, $57,858; George H. McAvoy, Creek Locks, $58,464; John H. Gordon, Albany, $59,582; F. A. Biggi, Brooklyn, $59,690; James Anderson, Menands, $60,051; Ahern Construction Co., Willimantic, Conn., $61,144; Brady-Oltarsh Construction Co., Inc., New York, $62,570.

Road No. 5555, Albany County, 4.20 miles: Thomas H. Karr, Troy, $47,414; Brown & Lowe, Schenectady, $48,225; George H. Totty, Cohoes, $49,897; Ahern Construction Co., Willimantic, Conn., $50,033; Belmar Contracting Co., Inc., Troy, $52,672; F. A. Biggi, Brooklyn, $52,826; Alonzo Schaupp, Guilderland, $52,856; George J. Holler, Albany, $53,219; Criswell & Mallory, Inc., Mechanicsville, $53,288; E. J. Latus, Albany, $55,244.

Road No. 5259-A, Cattaraugus County, 4.29 miles: James Rossney, Buffalo, $55,934; Woolsey Construction Co., Poughkeepsie, $57,310; Fred E. Gross & Son, Yonkers, $57,550; McNerny Construction Co., Canton, Penn., $57,570; Dunkirk Construction Co., Dunkirk, $58,047; Criswell & Mallory, Inc., Mechanicville, $58.504; O. M. Severson & Co., Erie, Penn., $59,390; Cattaraugus Engineering Co., Olean, $59,466; Galway Construction Co., New York, $59,784; Parker-Hassam Paving Co., Worcester, Mass., $61,086; Crescent Concrete Co., Buffalo, $61,259; Juniata Co., Philadelphia, Penn., $63,570.

Road No. 5432-A, Chemung and Schuyler Counties, 8.98 miles: Ford Bros., Elmira, $89,686; Peter F. Connolly Co., Horseheads, $96,678· Brady-Oltarsh Construction Co., Inc., New York, $98,183.

New York, N. Y.—(Borough of Brooklyn)—(Official)—See item under "Sewers."

✚Oswego, N. Y.—The Diamond Match Co. has awarded the contract for the construction of a new power house in Oswego to PETER REBY. It will be 80x88 ft. with a 235-ft. smokestack. The equipment to be installed includes two 500-hp. boilers with automatic stokers (with space for a third one of the same size), and two 1000-kw. turbo-generators.

✚Utica, N. Y.—St. Luke's Hospital has awarded the contract for the construction of a one-story 31x70-ft. boiler house to GRIFFIN & PIERCE, at $6000.

Camden, N. J.—The Public Service Electric Co. has applied to the Public Utilities Commission for permission to lay underground conduits on Market St. and Broadway, Camden.

Jersey City, N. J.—Bids will be received until 3 p.m., June 23, by G. Fred Ege, Secy., Bd. of Education, for electrical equipment for the electrical laboratory at the William L. Dickinson High School.

Kane, Penn.—Press reports state that the United Natural Gas Co. will start work at once on the construction of a 20-in. pipe line from the pump station at Lamont Siding, four miles from Kane, to the testing station at Lewis Run near Bradford. The work will cost approximately $200,000.

✚Mahoningtown, Penn.—(Official)—The contract for heating and ventilating equipment for a new school has been awarded to BARNES & CLARK, New Castle, at $13,201; the contract for the plumbing was awarded to R. F. WITHERS & SON at $4000. See item under "Buildings."

Orangeburg, S. C.—An election will be held June 29 to vote on the question of issuing $15,000 in bonds for the improvement of the municipal electric-light plant. Edward Howes is City Engr.

Toccoa, Ga.—At a recent election the citizens voted in favor of a bond issue of $35,000 for the purpose of building a municipal electric-light plant.

Birmingham, Ala.—(Official)—The Board of City Commissioners has directed Julian Kendrick, City Engr., to ascertain the cost of a hydro-electric plant on the Warrior River at Lock No. 17, to be established to furnish light and power for the City of Birmingham.

Henderson, Tenn.—See item under "Water Supply-Irrigation."

Memphis, Tenn.—It is reported that E. H. Crump, Mayor, is agitating the question of building or buying a municipal electric-light plant. It is also stated that a bond issue of $1,500,000 is available for the purpose.

Cleveland, Ohio—Bids will be received until noon, June 25, by the Commissioner of Purchases and Supplies, 511 City Hall, for paper insulated lead-covered cable for the municipal electric-light plant. F. W. Ballard, 1443 East Third St., is Comr. of Light and Heat Dept.

Cleveland Heights, Ohio—(Warrensville post office)—(Official)—Bids will be received until noon, July 6, by Ezra K. Bryan, Clk. of the Bd. of Education, Cleveland Heights village school district, for a heating plant for the new high school and Lee Rd. school buildings, and for mechanical equipment for the Lee Rd. grade school and connecting it with the heating plant.

Dayton, Ohio—It is reported that the Public Utilities Commission has granted permission to the Dayton Power & Light Co. to issue $172,000 in additional capital stock, the proceeds of which will be used to increase the output of the plant from 20,000 to 30,000 hp.

Fremont, Ohio—It is reported that the Sandusky River Power Co. will add an auxiliary steam power house to its plant at a cost of about $500,000.

Calumet, Mich.—It is reported that the Mohawk Mining Co., Calumet, contemplates the construction of an electric-light and power plant.

Three Rivers, Mich.—It is reported that plans have been prepared by George Champe, Consult. Engr., Toledo, Ohio, for a municipal electric-lighting and water plant. A bond issue of $50,000 has been voted for the work.

Oakley, Kan.—See item under "Water Supply-Irrigation."

Davenport, Neb.—According to press reports bids will soon be asked for the construction of a municipal electric-light plant in Davenport. Charles F. Sturtevant, Holdredge, Neb., is Consult. Engr.

Grand Island, Neb.—The Grand Island Electric Co. has received permission from the State Board of Irrigation to construct a hydro-electric plant on the Platte River near Grand Island. The estimated cost of the proposed plant is $55,000. T. H. Fritts is Secy., Mgr. and Cont. Agt. of the Grand Island Electric Co.

Fargo, N. D.—The Union Light, Heat & Power Co. is enlarging and improving its power station, and will install new equipment, including two 1500-kw. steam turbines, two water-tube boilers, a three-unit motor generator set of 600 hp., boiler feed pump, exciters, switchboards, etc. M. L. Hibbard is Mgr.

Miles City, Mont.—It is reported that the City Council is in favor of spending about $10,500 for the extension of the municipal steam heating system. The improvements have been recommended by J. J. McGill, Supt. of the municipal electric-light and power plant.

Charleston, Mo.—The Missouri Public Utilities Co., Cape Girardeau, has been granted a franchise to construct a transmission line from its station in Charleston to East Prairie, a distance of 12 miles, to supply light and power to the latter place.

Kansas City, Mo.—The Big Niangua Hydro-Electric Co., Kansas City, plans to establish a hydro-electric plant on the Big Niangua River. The plans include a reinforced-concrete dam, 1500 ft. long and 160 ft. high, to develop 30,000 hp., and a transmission line 120 miles long. The estimated cost is $2,500,000.

Springfield, Mo.—Local architects and builders have been asked to prepare plans and estimates for the construction of a central lighting and heating plant to serve the business buildings of the city. The contracts of many of the larger buildings with the Springfield Gas & Electric Co. and the Central Heating Co. are about to expire, and if the cost is not too great, the plant will be built this summer. John T. Woodruff, Springfield, is interested.

Brownsville, Tex.—It is reported that the City of Brownsville is considering the sale of the municipal electric-light plant to a company who will also take over the street railway system, and combine the properties. The proceeds of the sale of the light plant will be used to buy the sewerage system. J. W. Davis is City Engr.

Visalia, Calif.—The Mt. Whitney Power & Electric Co. contemplates establishing a hydro-electric plant in the Sequoia National Forest. The estimated cost is $750,000. H. A. Kluegel, Visalia, is Ch. Engr.

New Liverpool, Que.—The city of New Liverpool is reported to be considering the establishment of a new power plant and electric-lighting system. J. Hamelin is Comr.

Brantford, Ont.—The Brantford Gas Co. plans to lay new service mains between Brantford and Hamilton, a distance of 25 miles.

Hamilton, Ont.—It is reported that the Hamilton Hydro-Electric Department will spend about $240,000 during the present year for new construction. J. A. Woodman is Supt.

Peterboro, Ont.—The city contemplates the purchase of a site upon which to establish a new substation. The estimated total cost is $50,000. William Baller is Chn. Bd. of Control.

Kelowna, B. C.—The City Council is considering the installation of a hydro-electric plant at an estimated cost of $120,000. Du Cane, Dutcher & Co., Rogers Bldg., Vancouver, is Consult. Engr.

BRIDGES

✚Enosburg Falls, Vt.—(Official)—The Board of Selectmen has awarded the contract for the construction of a reinforced-concrete bridge over the Missisquoi River at Enosburg Falls to the HYNES CONSTRUCTION CO., Wales, Mass., at $8965. Other bidders were: J. W. Swan & Son, West Bridgewater, $12,500; J. A. Cashman, Burlington, $13,390; C. E. Foley, Barre, $15,183; Concrete-Steel Engineering Co., New York, N. Y., $12,045 (alternate plan). Noted May 27.

Pittsfield, Mass.—The Board of Aldermen has passed an ordinance for an appropriation of $18,000 for the construction of the Longview Terrace Bridge. A. B. Farnham is City Engr.
